

STRONGLY ENDORSE MEIGHEN PARTY

North Toronto Liberal-Conservatives Also Foresee Fall of U.F.O.

Resolutions of loyalty to King and empire, and confidence in the Meighen government, were unanimously passed at last night's meeting of North Toronto Liberal-Conservative Association.

That all political parties in Canada had shared a jolt thru the earthquake of the war but that in no case could such a jolt attach to the Liberal-Conservative government, since it had resolutely maintained the principles of the greatest of all Canadian statesmen, Sir John A. Macdonald.

These principles, Mr. Meighen had never been in doubt—loyalty to the empire and King, and a national policy on tariff protection. The Conservative party, he said, was not hide-bound, but always keen for wise changes.

Mr. H. Ball, another ex-president, stated that he never regretted the formation of the association, which today compared with any of its kind. "I am firmly set on the Conservative principles purely from conviction," said ex-Ald. Ball.

Conflict of opinion, coupled with the will of the majority, is the ideal political standard to follow; so also are unity and loyalty to the country essential to its well-being. The speaker stated that the tariff question was vital to the best interests of the country.

Other speakers were W. G. Ellis and Secretary "Tommy" Letters, of regulars were read from Hon. Hugh Guthrie and Colonel Hugh Clarke. Election of officers will be held on Monday, Oct. 4.

Permanent Board to Adjust Tariff (Continued From Page 1). Limit of the oil taxation process this year had increased to 96 per cent.

Anything that added to the overhead expenses of a manufacturer, such as the payment, and this oil could be used but once and then was lost. None of this oil was produced in Canada, so nobody would be hurt.

As a manufacturer of asphaltum, a by-product of another manufacturer, he was for a tariff of say ten per cent. for protection purposes as he was practically the only maker of the commodity.

For a Flexible Tariff. The tariff of Canada, he believed, should be more flexible. Fifty per cent of the manufacturers' costs were made up of duty and freight charges.

TRADE PREFERENCE WITHIN EMPIRE

(Continued From Page 1). It took all it could get, but did not give out much in return.

Referring to the exchange situation Mr. Cockshutt declared that the English pound which should be the standard of exchange was now at a very low figure. This situation was brought about by mechanics not buying the goods of the empire.

For Better Kinship. The Mark Sheldon, president of the London Chamber of Commerce, pointed out that it was difficult for the mother country to give anyone preference in the trade of the empire.

Empire Cotton Growing. A subject of great interest to the congress was the discussion on a recommendation to impress on all the governments within the empire the importance of growing cotton within the empire.
