I have not yet heard the Austrian. of any merchant who has advanced a good substantial reason against this bill, as the benefits of the employer and the employees are mutual. I have also discussed the bill with some of the dry goods and grocery merchants doing busigoods and grocery merchants doing business in all parts of the town and there was only one opinion, that is—let all fall in line and make a success of the Daylight Saving Bill for Newfoundland. Miss G. Thorne, of Metcalf street, North End. The prize was a five gallon control of the door prize and was held by the saving Bill for Newfoundland.

light Saving Bill for Newfoundland.

This alteration of time would utilize morning air and daylight and enable all to spend an additional hour of their leisure out of doors at the end of the day, during twenty days in June, thirty-one days in July, thirty-one days in August, and thirty in Sepember. I believe that this must maerially increase the health, happiness and well-being of every individual, and more especially of those workers in our actories, shops and offices who at present get so little time for open air recreation.

The nerice was a five gallon can of motor oil, donated by the Imperial Oil Company. The door prize for Monday was claimed last evening by Cornelius O'Leary, of Chesley street. Charles Lewis, of West St. John, won the prize on the bowling alley, which was a pair of slippers, donated by Waterbury & Rising. The gentlemen's prize for the bean toss, a pair of military brushes, donated by Dr. W. F. Roberts, M.P.P., was won by Pte. C. M. Bennett, and the ladies' prize went to Miss Travis, who won a pocket book, donated by F. A. Dykeman & Company. Miss Travis made a score of 270 out of a possible 800. # ACID STOMACHS ARE DANGEROUS

Nine-Tenths of All Stomach Trouble Said to Be Due to Acidity

A Physician's Advice on Cause and Cure A famous physician whose successful researches into the cause and cure of stomach and intestinal diseases have earned for him an international reputation, said in the course of a recent lec-ture that nearly all intestinal troubles, as well as many diseases of the vital organs, were directly traceable to a deranged condition of the stomach which in turn was due nine times out of ten to excessive acidity, commonly termed sour stomach or heartburn, which not only irritated and inflamed the delicate lining of the stomach, but also set up gastritis and stomach ulcers. It is interesting to note that he condemns the use of patent medicines as well as of medical treatment for the stomach, stating that he and his colleagues have see medical treatment for the stomach, stating that he and his colleagues have secured remarkable results by the use of ordinary bisurated magnesia, which, by neutralizing the acidity of the food, removes the source of the trouble. He contends that it is as foolish to treat the who stepped on a tack to rub liniment on the foot without first removing the tack. Remove the tack and the foot will heal itself—neutralize the acid and the stomach troubles will disappear. Irritating medicines and medical treatments are useless, so long as the contents of the stomach remain acid; remove the acidity, and there will be no need for medicine—the inflamed lining of the stomach will then heal itself. Sufferers from acidity, sour stomach or heartburn should get a small bottle of bisurated a teaspoonful in a quarter of a glass of hot or cold water after meals, repeating in fifteen minutes, if necessary, this being the dose which the doctor has found most efficacious in all cases.

works Association to be held at Hart-ford (Conn.) He will be away all next week. The commissioner will speak at the convention on the progress made during the year in St. John.
