

PRESENT PERIOD IS AN AGE OF RUBBER

Thousands of Articles Now Made of It, But Most Common is Rubber Footwear—How Price of Crude Rubber Dropped.

This is a Rubber Age. Say this to the average man and compare the present period with the Stone Age, the Iron Age, and such of prehistoric times, and he will laugh at you. But let him consider, and he will realize that the laugh is on him.

Now, listen to this. This year Brazil will produce approximately 50,000 tons of rubber, and the British-forested plantations will produce over 150,000 tons. Thus it is that Great Britain controls the rubber market and has brought the price of crude rubber to such a level that the man with a family, the man who lives on what he earns from day to day, will pay no more for the rubbers and over shoes to protect his high-priced shoes than he did before these days of soaring prices.

UNITED STATES AND THE U-53

Prominent American Calls It Direct Defiance

Flouting the President

If Wilson Kept Word, He Says Von Bernstorff Would be Given His Passports

Hon. James M. Beck, formerly assistant attorney-general of the United States and a lawyer of international repute, is of the opinion that the recent activity of the U-53 in American waters was a direct defiance of the American government, and he holds that if President Wilson keeps his word he will be obliged to give Ambassador Bernstorff his passports.

Sinking of the Stephano

In some respects the sinking of the Stephano, as described by Mr. Beck in an article in the New York Tribune, was one of the most outrageous acts perpetrated by any German submarine.

was hailed by a German submarine, and ordered to immediately put her passengers and crew in the lifeboats as a torpedo was about to be launched. The sea was still rough, after a recent storm, and in the darkness, the passengers were obliged to climb down the rope ladders to the rocking lifeboats.

Had the American War Vessels Not Been Present It is by no means improbable that some of the Stephano's passengers might have died of exposure before the lifeboats were able to make land.

Did the commander of the German submarine calculate upon the assistance that would be given by the American war vessels, and would he have refrained from launching his torpedo if these vessels had not been present? Mr. Beck says that if the sinking of the Stephano had not been preventable but for the proximity of the American destroyers, then it follows that the presence of these vessels made the difference between the Stephano's being a mere auxiliary of German submarines, and a vessel of war.

Holland and Norway

He contrasts what he considers the unannounced action of the United States with that of Holland. One of the vessels sunk by the U-53 being a Dutch vessel, the Dutch foreign minister immediately announced that he expected the German government to disavow the deed and to tender reparation for an "absolutely unjustifiable act."

Submarines Violate All Law

Mr. Beck says that before the present war no principle of international law was more firmly established than that war should be conducted that injury, death or even undue jeopardy should be spared non-combatants, as far as was reasonably possible.

Don't Use Dangerous Antiseptic Tablets

It is an unnecessary risk. Using Absorbine, Jr., kills germs quickly and surely without any possibility of harmful results; made of pure herbs, non-poisonous, and there is no danger whatever if the children get hold of the bottle. It kills germs and disinfects.

Pain in the Back and Kidney Trouble SINCE CHILDHOOD

When the kidneys get out of order the back is sure to become afflicted, and dull pains, sharp pains, quick twinges all point to the fact that the kidneys need attention.

King Hates Venizelos

Of Venizelos he spoke with the greatest bitterness as a foreigner, a republican, a revolutionist. He also denounced General Sarrail as a Socialist.

Venizelos a Royalist

In the course of their talk Venizelos deplored the attitude of Greece, and said that the only hope was that the Hellenic spirit would be awakened should the Bulgars tread Greek soil.

A Promise to the Kaiser

Count Ferri-Pisani observed that never in the course of the interview did the king refer to "my subjects" or "my people." He called them "the Greeks," like the foreigner he is. He spoke of at-tempts to sow dissension in the Greek royal family, hopes having been extended to one of his brothers that he might have the Greek throne, and exclaimed: "I am ill, seriously ill. What they want is my death, is it? I tell you once more I am no longer here."

moment was that he was practically cut off from his subjects, in that his published words were censored, and were not permitted to get abroad. It was soon after this that he gave his interview with the Associated Press, which appeared in the United States. In one day of eight hours 2000 diggers at the Y. M. C. A. college in Springfield loaded 700 wagons with gravel. Suffered From Severe Headaches FOR TWO YEARS

Headaches are many and varying; but when the head starts to ache you may be sure there is some chief cause. The stomach may go wrong, the bowels become constipated, the blood may not circulate properly, but the presence of the headache clearly shows that unless the cause is removed some other beneficial disease is liable to assert itself.

Burdock Blood Bitters has, for the past forty years, been curing all kinds of headaches and has proved itself to be a remedy that cures where others fail.

Mr. L. N. Peterahen, Danier, Man., writes: "I am only too glad to be able to state that I derived wonderful benefit from Burdock Blood Bitters. I suffered from severe headaches for two years. I was treated by several doctors, but received no benefit until by chance I heard of B. B. B. and I at once procured two bottles and in a short time I was completely cured. I am, and always will be, grateful for what Burdock Blood Bitters has done for me. I am glad to recommend it to all who suffer from headaches."
