DOMINION IRON & STEEL CO., LTD.

National Trust Co., Limited, Receiver and Manager

SYDNEY, N. S.

*Miners and Shippers of
High Grade Gas and Bituminous*

COAL

Twenty-five active mines with an annual capacity of 6,000,000 tons. Coal reserves held by the Corporation are sufficient to maintain present output for 500 years.

Coal Mines

At Cape Breton, Pictou and Cumberland Counties, Nova Scotia.

Modern Bunker Stations

Are maintained at Montreal, Quebec and Three Rivers, P. Q.; Saint John, N. B.; Halifax, Sydney, North Sydney, Louisburg and Pictou, N. S.

Besco Household

COKE

For domestic use is recognized as a highly satisfactory fuel. The Sydney coking plant of the Corporation is very modern, producing a clean, efficient high carbon coke which can be used wherever anthracite is now used. This coke is sold for domestic use under the name of

Besco Household Coke

The general use of Besco Household Coke (an all-Canadian fuel) in the Maritimes, Quebec and Ontario, would mean a greater market for Nova Scotia coal—which in turn would ensure continuous employment to thousands of miners as well as additional revenue to the Government Railways.
