

MILK PRICE UP ONE CENT SEPT. 1; MAY BE FURTHER ADVANCE LATER

Dealers and Producers Still at Odds as to Cost to Distributor.

The price of milk will advance one cent a quart on September 1 in this city, according to J. N. Riley, president of the St. John Milk Dealers' Association.

Any further advance is contingent on the agreement arrived at between the producers and dealers at a meeting to be held at Norton on Monday, September 8.

Last evening a meeting of the dealers was held in Moose Hall, Cabot street, at which N. W. Evesleigh, president of the Kings County Milk and Cream Producers' Association, was present.

A difference of three cents an eight-quart can, equal to the freight charges from Kings county to St. John, exists between the new price offered by the St. John milk dealers and that which the Kings county producers are willing to take for their product, according to N. W. Evesleigh, president of the Kings County Milk and Cream Producers' Association.

A meeting of the producers and dealers was held in the city yesterday, and an attempt was made to get together, but at the close of the session they were still deadlocked over the question as to who should pay the freight charges. The meeting adjourned without any agreement having been reached.

H. NASE RETAINS HIS JUNIOR TITLE Requires Four Extra Holes, However, to Defeat Eric Golding.

Hubert Nase, junior champion of the Riverside Golf and Country Club, retained his title in the final 18-hole match this forenoon against Eric Golding, although it took four extra holes to decide the contest.

In the four extra holes required to settle the match both boys got some unfortunate "breaks." Nase got in the rough twice and recovered splendidly and once his opponent's ball rolled into the can and flopped out again, which if it had sunk would have given the cup to the runner-up.

The Riverside juniors are all good pals and the doubtful defence of his title by Nase today was just as popular with the boys and girls as if any of the other lads had landed the cup.

CANADIANS ARE RETURNING HOME FROM THE STATES

Premier King Defends Government and Attacks the Opposition Leader.

Peterboro, Ont., Aug. 29.—Addressing an audience in the fair grounds here last night, estimated at 15,000, Premier King concluded a busy day.

"I cannot see," the Premier impressed upon his hearers, "how any citizen of a country favored as this Dominion is above any other country in the world can be other than an optimist. We have beauty and wealth, and must make the most of it by making the most of ourselves and our country."

Referring to the subject of immigration, he said that the present Government found all the immigration at a standstill when it assumed office. It was impossible to accomplish results in a year. "Like the seed you sow, it takes time."

Sixty Per Cent. Return. Pointing out that the country to the south experienced a great boom after the war, and limited by legislation all immigration except from Canada and Mexico, the speaker remarked that at a time when the Dominion labor market were overfilled, it was only natural that the Dominion Government should have always been that flow more or less. The figures of the Canadian Department of Trade, which are in the hands of that out of every 100 Canadians going to the United States 60 came back, and that during the months of April, May, June and July 18,000 returned to this country. This was just over the same period since the inauguration of the House of Commons.

Attacks Meighen. Turning to J. H. Burnham, the Premier stated that they were together in the House of Commons.

"While we didn't see eye to eye, we did agree to the advisability of getting Mr. Meighen out of office, and I have to thank him for the courageous stand he took in ridding the country of Arthur Meighen. Mr. Burnham thought he should resign from carrying on in office when it was only returned to support a Union Government to carry on the war. Mr. Meighen usurped the throne and held the reins of government, and now he tells you that the Union Government was a Liberal-Conservative Government free from partisanship, when it was a Tory Government holding office for nine years."

MAKE MOVE FOR BETTER LIGHTING

Prizes Will be Offered for Essays on Subject—Committee Named.

The move to bring to the attention of the citizens of St. John the need for better lighting in the homes and public buildings of the community got away to a good start this morning at a meeting held in the Board of Trade rooms at which the importance of this campaign for better lighting was explained.

G. E. Barbour, president of the Board of Trade, was in the chair and among the speakers were H. G. Acres and Gordon Kirk, of the engineering staff of the New Brunswick Electric Power Commission, S. Faraday of the New Brunswick Power Company, Barry Wilson of the Civic Power Commission and A. A. McIntyre of the School Board.

The harm that our present method of direct lighting was doing was pointed out and a committee was named to take up the matter of having essays on the subject written by the pupils of the public schools of this city, prizes to be given the best essays. In addition to the local prizes the winners have an opportunity to win one of the national prizes—of which is a \$15,000 electrical home.

A committee was named to take up the matter as follows: Barry Wilson, convenor; W. C. Allison and Neil McLean. They will ask the Board of School Trustees, the physicians, Women's Council and newspapers to name a representative on the committee, and the committee thus formed will have power to name any additional members necessary.

FLIGHT IS DELAYED FOR ANOTHER DAY

U. S. Army Aviators Will Not Leave Greenland Before Saturday.

On Board U. S. S. Richmond, at Ice Tickle, Labrador, Aug. 28.—Postponement of the flight of the United States army world fliers from Iqviut, Greenland, to Indian Harbor, Labrador, until Saturday, was definitely declared yesterday because of continuing stormy weather.

The gale which had raged throughout Wednesday night off Ice Tickle had died down yesterday morning, and the rising barometer seemed to promise a possibility of the fliers continuing their voyage from Iqviut to Labrador today, in accordance with the pre-arranged schedule. During the day, however, the cruiser Milwaukee, which is stationed off Iqviut, reported that the storm, which had been moving up the coast for several days affecting the Labrador side of Davis Straits, had reached the Greenland shore.

ST. JOHN DOGS DO WELL IN QUEBEC

Local Entries High Among the Prize Winners at Sherbrooke.

To learn that his two entries in the dog show held in connection with Canada's great eastern exhibition in Sherbrooke, had been awarded winners, was to winners is contained in a telegram received by George Gray this morning.

His entries were Champion Warrior Rihid Dhival and Mollie Doolan. In addition to going to winners they captured the special for Irish terriers.

The dogs were taken and shown by Robert B. Lasky, vice-president of the New Brunswick Kennel Club.

WANTS JAZZ BAND BESIDE SCAFFOLD

Young Leopold Makes Merry Regarding Fate—Loeb Also Has Ambitions.

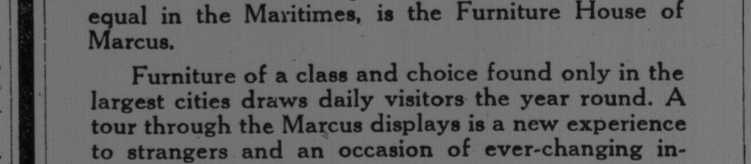

Chicago, Aug. 29.—John R. Caverly, retiring chief justice of the criminal courts of Cook county, took full charge yesterday of the fate of Nathan F. Leopold, Jr., and Richard Loeb, students, sons of millionaires, and confessed kidnapers and murderers of Robert Frank. He set Sept. 10 as the date on which he will announce the penalty for the crime.

In their cells in the county jail "Babe" and "Dickie" were as cheerful as if they had been taking part in a campus social affair. The former even joked about possibility of being hanged.

"If I am hanged," Leopold said, "it will be a rare occasion. Clarence Darrow's 'Roman holiday' will be completely eclipsed. I will arrange to have a good jazz band on hand and plenty of hard punch. I am planning the last supreme shock for the world in the form of my farewell speech. I may be overrating myself, but I really think I can make it worth anyone's while who is fortunate enough to obtain an invitation."

Furniture of a class and choice found only in the largest cities draws daily visitors the year round. A tour through the Marcus displays is a new experience to strangers and an occasion of ever-changing interest to local people.

The Marcus selections of Furniture form more than an education of the ways and means of the Home Beautiful—they are there to be sold, and to sell well in these parts, prices must play a part equally with lasting beauty. The larger nature of the Marcus operations permit prices none approach—and they ship freight free anywhere in the Maritimes.
