ATTRACTIVE IN SATIN

misses and small women 3 yards of 44-inch or 4 yards of 46-inch material will be required for this dress, with 1/2 yard of all over lace 18 inches wide for the shield and standing collar and 3 yards of ribbon 4 inches wide for the waist. In cutting out the dress, first fold the length of the satin. Now place upon this the collar, front gore of the skirt and front of the waist. These are marked with "TT" perforations and should, therefore, be laid on a lengthwise fold of the material. (On the remaining space the back gore of the skirt, the sleeve, the front and back yoke, the back and cuff are arranged. These are marked with large "O" perforations to show that they are to run along a lengthwise thread of the satin. For the short sleeve, cut off lower part of sleeve on small "o" perforations. Lines are also indicated for round or high neck.

To make the waist turn home in right back, right back edge of yoke and in shield at notches. Gather upper and lower edges of front and back between double "TT" perforations and join yoke, notches and center-backs even. Close under-arm seam as notched. Sew large collar to neck edge, and standing collar to shield as notched. Adjust shield to position, "center" and "corresponding" large "O" perforations even. Sew stay to lower edge of waist, center-backs even, small "o" perforations at under-arm seam.

Close the sleeve seam as notched, gather lower edge between double "TT" perforations. Sew sleeve in arm-hole as notched, easing in any fullness. For the skirt, slash upper front part of back gore on double "oo" perforations for opening to pass ribbon through. Adjust trimming piece on front gore, centers and upper edges even; large "O" perforations indicate center-front, small "oo" perforations indicate upper back edge. Turn under front edge of back gore on slit perforations, lap to small "oo" perforations in front gore, notches even and attach; top extension to double "oo" perforations in front. If desired, cut off extension. Close back seam from large "O" perforation to lower edge; finish edges above for placket. Gather upper edge of back gore between double "TT" perforations. Sew to lower edge of waist over stay, centers even, bringing small "o" perforation to under-arm seam. Buttons may be added if desired.

This graceful model is developed in satin trimmed with a belt of soft ribbon and tiny decorative buttons. The vest is of all over lace.

Some exceedingly dainty dresses are made this spring in soft qualities of satin that parade under awe-inspiring names, yet are more or less similar to charming and dainty when one sees them. One of these new materials in a delightful shade of green satin is used for this dress. The waist has a shield yoke and Y-shaped neck filled in with a lace vest and the skirt is plain except for a panel at the front which may be decorated in any way the fancy of the home dressmaker dictates. **Conspicuous Nose Pores**

How to reduce them

Complexions otherwise flawless are often ruined by conspicuous nose pores.

In such cases the small muscular fibres of the nose have become weakened and do not keep the pores closed as they should be. Instead these pores collect dirt, clog up, and become enlarged.

**Begin tonight to use this treatment**

Wring a cloth from very hot water, lather it with Woodbury's Facial Soap, then hold it to your face. When the heat has expanded the pores, rub in *very gently* a fresh lather of Woodbury's. Repeat this hot water and lather application several times, *stopping at once if your nose feels sensitive*. Then finish by rubbing the nose for a few minutes with a lump of ice.

Woodbury's Facial Soap cleanses the pores. This treatment with it strengthens the muscular fibres of the nose pores so that they can contract properly. But do not expect to change in a week a condition resulting from years of neglect. Use this treatment *persistently*. It will gradually reduce the enlarged pores and cause them to contract until they are inconspicuous.

Woodbury's Facial Soap is the work of a skin specialist. It costs 25c a cake. No one hesitates at the price after their first cake.

Do this today—now! Tear out the illustration of the cake below and put it in your purse as a reminder to get Woodbury's and try this treatment. Tear out the cake now. Take it to your drugist today. Begin tonight to get the benefits of this facial soap.

**Starchy Food Necessary For Energy**

But many persons cannot digest starch as found in ordinary food—hot biscuit, potatoes, white bread, etc.

In making **Grape-Nuts** FOOD from wheat and barley, the starch part of the grains, needed for body energy, is so thoroughly dextrinized by long baking (partially pre-digested) that the time of digestion is reduced—generally to about one hour.

(White bread about 3 1/2 hours.)

Many forms of stomach trouble disappear when proper, easily digested food is used.

**ROYAL Baking Powder**

**Absolutely Pure**

Recognized everywhere and by experts as the very highest grade of baking powder—superior to other brands in purity, leavening strength and keeping quality.

Made from pure cream of tartar, the product of grapes, and the most healthful and useful of leavening agents.

Its use insures the bread, biscuit and cake against contamination from the cheap, improper or injurious ingredients from which lower priced baking powders may be made.

**TORONTO DOCTORS SAID TO HAVE BEEN SWINDLED**

as Lena Mitchell, 30 years, and Marie Johnson, 19 years.

Doctors Garratt, Todd and Scott are the medical men in the case, but the police believe that there are other victims who have not declared themselves. The practice of the women is said to have been to visit a physician in his office and ask his advice as to the health of Marie, who was ill. They would tell the doctor that they were too poor to pay for his services, and after he had been induced, by their tale of hard luck, to write out a prescription, would offer to recompense him by telling his fortune.

The doctor, hesitating to offend his poor patients, would consent to be informed as to what destiny was getting ready to hand out to him. The process of fortune-telling involved the holding of the doctor's hand by Lena, and also required the production of the doctor's roll of money, which Lena held in her other hand and waved mystically through the air. During these magic passes Lena's hand came in contact with that of Marie, who took occasion to palm two or three bills from the outside of the roll before the money was returned to the doctor's pocket.

It was Doctor Garratt who informed the police, and Detective Armstrong was detailed to accompany him in an automobile, wherewith they patrolled College street for some time in search of the women. Their vigilance was rewarded when Marie and Lena suddenly burst from the office of Doctor Todd with that gentleman in pursuit, he having discovered his loss before they had left his house.
