Sir

I have the honor to transmit my report for the month now ended and am pleased to state that during the seeding the Indians have worked well and with the exception of "Little Pine" Band there was ~~not~~ a hitch from beginning to end. The grain has all been put in on Spring ploughing the ground being moist the ploughing has been done deeper than ever before on this Agency, and if sowing and putting the seed in the land means anything, we should have a good crop. "Med. Pheasant" and the Stoney got their grain in very early, so if possible to guard against the
