59-H/9

59-H/9 SCALE **ÉCHELLE** **1:50 000** EDITION **ÉDITION** **01**

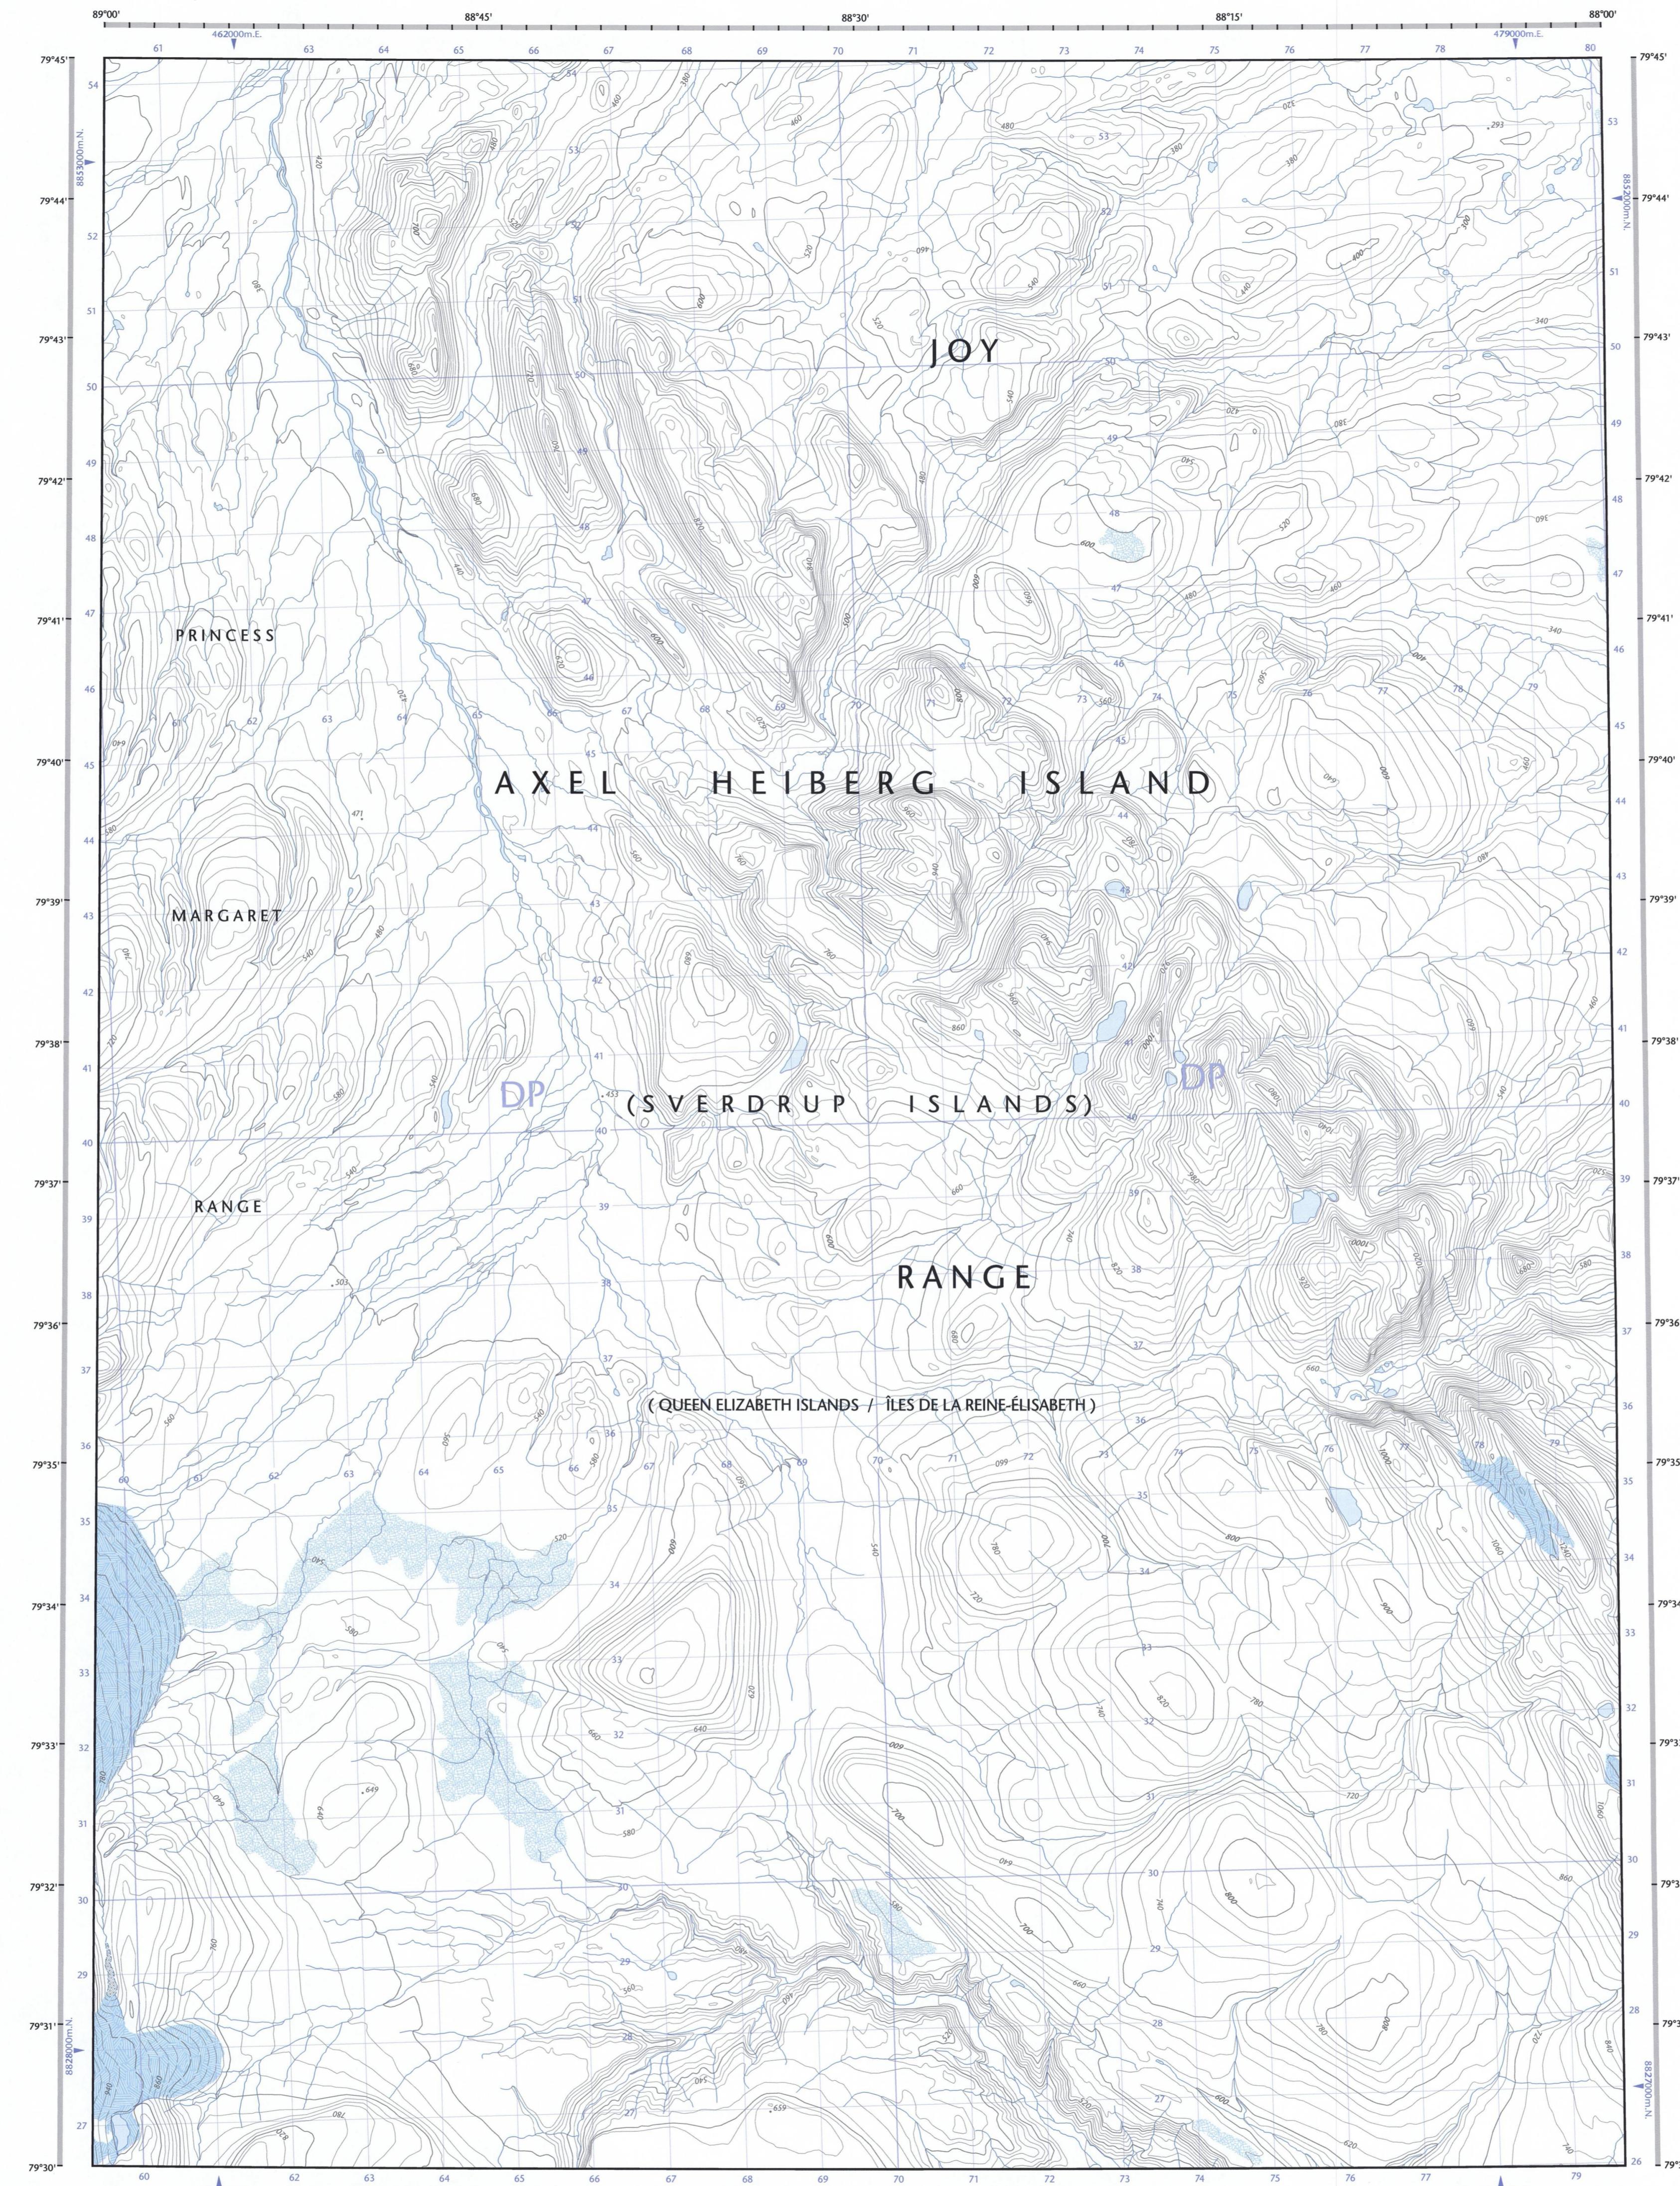

NO TITLE

The logo consists of a grey globe with latitude and longitude lines. A red outline of a maple leaf is positioned above the globe, with its stem pointing towards the top left. To the right of the logo, the text "Canadian Topographic Maps/Cartes topographiques du Canada" is written in a serif font, with "Maps/Cartes" in red.

NO TITLE

Nunavut

A scale bar at the bottom of the map shows distances in Kilometres and Miles. The top part is labeled 'Kilometres' and 'Kilomètres' with a value of 4. The bottom part is labeled 'Miles' and 'Milles' with a value of 3. Both sections have tick marks at 1, 2, and 3. The segments between the tick marks are divided into smaller segments by vertical dashed lines.

Scale 1:50 000 Échelle

1 centimetre on the map represents 500 metres on the ground

Contour Interval: 20 metres

Elevations in metres above Mean Sea Level

Contours on or surrounding glaciers are approximate

The diagram illustrates magnetic declination values across Canada. A large blue arrow points generally eastward, representing Magnetic North. The angle between this arrow and the true north line is labeled as 59°24' (1037 mils). The map shows contour lines representing different declination values. A legend indicates that green lines represent values from 0° to 10°W, red lines from 10° to 20°W, and blue lines from 20° to 30°W. The values decrease from west to east, with the 30°W line running along the eastern coast of the country.

Use diagram only to obtain numeric values
Approximate Mean Declination 2012
for centre of map
Annual change decreasing 89.3'
