HAVANA, Nov. 27.—Persons who arrived here today from the Isle of Pines say that the meeting of Americans held there on Saturday afternoon ratified the election of a delegate to the United States congress and the election of territorial officers. It was unanimously and distinctly understood, however, that there will be no assumption of any office except by the United States authority. The meeting dispersed quietly.

Some of today's arrivals report that the local officers and many Cubans were armed on Saturday ready to resist any invasion of their rights or the assumption of the control of public affairs by the Americans.

### 500,000 MEN

### STRIKE NEXT APRIL.

John Mitchell Predicts General Strike of All the Coal Miners, Paralyzing Bituminous and Anthracite Industries.

CLEVELAND, Nov. 27.—Max Hayes, a national labor leader writer on labor topics and delegate to the A. F. of L. convention from the Typographical Union today has a signed special story telegraphed from Pittsburgh in a Cleveland newspaper, saying:

A coal strike and lockout, affecting about 500,000 workmen and paralyzing the bituminous and anthracite industry is predicted for April 1, 1906, by John Mitchell, president of the United Mine Workers of America, one of the foremost leaders in the country. At the American Federation of Labor convention last year as well as a raise for the poorest paid men in and about the mines in the anthracite district.

This statement followed the declaration of Vice-President T. L. Lewis, of the Mine Workers' Union, in which Mitchell was inclined to agree. Lewis said:

My opinion is, after carefully considering all details and incidents of our trade, that there will be a national suspension in the mining industry next spring. I don't see how it can be averted if the operators in the anthracite and bituminous coal fields attempt to enforce their threats of reducing wages and ignoring our union.

The Shamokin, Pa., convention, December 14, will formulate the demands that the anthracite miners will make upon the operators. Mitchell's pronounced success in the past indicates that he will control the convention.

Regarding the nature of the principal demands that will be made, Mitchell said:

In my opinion, the forthcoming Shamokin convention will ask for recognition of the union, the eight-hour day and a slight advance for the lowest paid workers, whom we are anxious to lift up to a decent level of existence."

It is believed that the most strenuous objection that will come from the operators will relate to the question of union recognition.

According to Secretary W. B. Wilson, if a strike is ordered in the bituminous fields, either against a reduction or for an advance in wages, upward of 300,000 men will respond to the call. The various districts have more than \$2,000,000 in their treasuries.

### 78 MEN CAME TODAY AND 43 DESERTED.

(Continued from page 1.) The Head boat is not working today, as the elevator, Alex. McDermott, has received orders not to employ men to whom he had to pay \$5 per hour. Mr. McDermott had a contract to handle these boats, but the companies interested objected to the payment to the men of the rate. He was therefore obliged this morning to notify the men that they could not go to work, and as a result the steamer is idle. Mr. McDermott had an arrangement whereby he was to handle these boats, but it looks now as if the company were trying to force him to join the strike breakers.

The executive of the Longshoremen's Association held a meeting last night at which the situation was discussed. M. J. Kelly made a report of an interview with him had with T. M. Nairn, of the Dominion Line, yesterday afternoon. Mr. Nairn told one of the members of the union there was to be a conference of the steamship representatives in Mr. Schofield's office and requested that the officers of the association be present. Mr. Kelly, Secretary Gillespie and Alfred Bennett were present. Mr. Kelly asked Mr. Nairn if it would not be possible to arrange a settlement of the present difficulty, and asked if Mr. Nairn had any proposition to make. Mr. Nairn said that the Allan and the Dominion Lines were determined not to pay a higher rate than thirty cents an hour.

The only concession they were willing to make was to furnish the men with their supper at midnight.

Mr. Kelly asked Mr. Nairn to see Mr. Allan, and try and get him to pay the same rate of wages that is paid at Portland. If they would agree to pay those rates, Mr. Kelly assured him that the association would enter into an agreement with the companies on that basis.

Mr. Nairn's reply was that the companies could not afford to pay more than thirty cents an hour. If they did the union at Montreal would be making trouble next summer, and demand the same rates.

The conference ended with nothing accomplished.

Mayor White stated this morning that he would not preside at the meeting to be held this evening in Berryman's hall. He said that he preferred to remain neutral and had decided not to enter into the dispute.

The Longshoremen have received the following telegram from David Russell in addition to those published yesterday:

MONTREAL, Nov. 26, 1905. W. J. Gillespie, Secretary Longshoremen's Association, St. John, N. B.: It is generally admitted that the railway and steamship lines are sure to win out, and when they do your men will be at their mercy. ### LOWERS WILL SEIZE

### MORE TURKISH LAND.

Will Stand No More Fooling From the Sultan Who Must Soon Surrender to International Demands.

CONSTANTINOPLE, Nov. 28.—Via Sofia, Bulgaria, Nov. 28.—Detachments from the international fleet landed at Mytilene Sunday afternoon in accordance with the instruction of Rear Admiral Von Jodna and occupied the customs and postal buildings. The governor protested but his representations were not available. During the Russian Festival beginning today and ending the evening of Nov. 30, the fleet will take no further action, but if the sultan does not use the interval to accede to the demands of the powers the fleet will occupy the island of Tenedos, off the coast of Asia Minor.

The ports continue its efforts to obtain a modification of the financial control scheme so as to make it more acceptable to Turkish views. The Grand Vizier Ferid Pasha, the report of whose demoralized was unfounded, has informed M. Zinoviet, the Russian ambassador, that the scheme in its present shape is too unpalatable. The grand vizier offered to agree to the establishment of four new civil agents with the same functions as the existing agents of Austria and Russia but the ambassador declared that no alteration in the demands of the powers was possible.

Tewfik Pasha, the foreign minister, also tried to enlist the sympathies of the German ambassador but his efforts were equally futile. The unanimity of the powers, including Germany, as to the necessity of compelling a full acceptance of the demands appears to be complete, and diplomatic circles are satisfied that the ports before long will realize that in face of this unanimity there is nothing to be done but bow to the will of Europe.
