HE TELLS MRS. EDDY THAT SHE NEEDS A GUARDIAN

George D. Glover Writes That Judging From Her Actions Mrs. Eddy Is Either Irresponsible or is Wrongly Advised.
CONCORD, May 15.—In the affidavit filed by Mr. Shandier, senior counsel for the plaintiffs in the Eddy suit, the most interesting feature is the letter of George D. Glover to Mrs. Eddy, dated Washington, D. C., February 20, 1907. The letter is addressed, "My dear Mother," and begins as follows:
"For many years I have thought that persons to whom you had given your confidence and who had surrounded you and taken complete charge of your affairs are not deserving of such faith as you appear to have in them and such power as they assume in your name."
"But until now I have not found myself ever to inquire into or to try to remedy any wrong done by them."
"Various notions of yours seemed strange to me, especially when you said that you believed that your studies with the men who gave you that pair of beautiful horses wanted them to run away and kill you; that men had broken into the house and stolen your will; that the will was missing when you went to look for it in the place where you had put it, and that you on the same day made another will and placed it in Mr. Streeter's strong place, you not remembering Mr. Streeter's name until I suggested it."
"The letter then tells of the return to Washington from Concord of Mr. Glover and his daughters and of the alleged efforts of Mr. Farlow and of Mr. Tomlinson of the Christian Science Church to secure from Mr. Glover letters which had been sent him by his mother.
"On January 7th," says the letter, "I wrote to Mr. Mattax, Mr. Farlow's secretary with a bundle of papers among them one written by Mr. Streeter about my early business and another when I was wounded in the army and carried off in a stretcher, suddenly I said I was all right and my wound suddenly cured. This he wished me to verify. I asked him to leave the paper and said I would consider his request. He would not do so."
"The next thing that happened was the coming of a letter that was dated at Concord, January 21, and signed with your name, saying 'the enemy to Christian Science is by the wicked powers of hypnotism, trying to do me all the harm possible by acting on the minds of people to make them lie about me and my family,' and another sent to you by express all the letters you had ever written to me, and assuring me that if I could do so, you would give me and Mary your entire value."
"After telling of other letters which he received, while in Washington signed by Mrs. Eddy, and directing him to give up the letter and of a visit, alleged to have been made to him in Washington by Mr. Farlow, who, Mr. Glover declares, "pressed me to obey my mother and go instantly to South Dakota and give Mr. Tomlinson the letter, which trip I never made. I declined to make so suddenly," the letter of Mr. Glover to Mrs. Eddy continues:
"You can imagine how strange these letters seem to me in connection with the fact that I have been recently informed of letters written long ago in which you expressed a belief that malicious animal magnetism was your enemy was not trust them to do your business."
"If you are allowed to receive and are able to read and understand this letter you will wonder at my sue for letters caused especially by your two contradictory letters, the notice to stay away and the invitation to come; Mr. Tomlinson's visit, the painful interview we had with you and its revelations, Mr. Mattax's visit, the letters written to Lead, and Mr. Tomlinson's trip there when he knew I was here, the demands for the letters and the reasons given and last, Mr. Farlow's trip with two more letters to force me to go home. If the letter I have last spoken of, so putting me under malicious animal magnetism, that I am hostile to you, was written by you, there is no end to my wonderment and suspicions."
"If all these letters written and all of these things done in your name are really yours, surely you are not in condition to write letters and do business properly. If they are not yours, but are letters written and things done by other people in your name, the case is worse; and you and your large property and income, all handled and managed in your name, need careful attention."

PAID THE FINES FOR DEAD MAN'S OFFENCE

Woodstock Druggist Admits Violation of Liquor Law
Committed by Dead Clerk — Clergymen Are Getting After the Railways.
WOODSTOCK, May 15.—The local branch of the Lord's Day Alliance has called a mass meeting for Sunday afternoon in the reformed church. The Alliance has several complaints concerning the violation of the provisions of the new law by the railway and others, and the intention is to make the parties do better in future or abide by the consequences.
An interesting sequel to the tragedy of the young man from Amherst who was found dead in the Fredericton dock-pier recently was enacted today in the police court before Magistrate Libbick. It seems that the young man had been working in Hartland as a druggist, and getting wind of the fact that the Scott Act inspector had been in the village working up a case against him, he hurriedly left town, intending to go to Fredericton Junction, or some other point until the thing blew over or was settled. This morning the proprietor of the business, while denying all personal knowledge or liability, rather than see the case proceed, advised the court in two cases, and paid the fine and costs.
Those interested in base ball are very glad of the good season for the sport. For the past year or two the town has not had a representative team, but the prospect is good for a renewal of interest. The arrangements have been made with the owner of Rogers Island and the 6th band for the laying out of a track by the north of the island, which is just in the river opposite the town, and this year for the first, connected to the town by a bridge. The opening match will take place on Victoria Day, when the local team will meet the first Houlton aggregation. The county medical men are summoned to meet here on the 21st inst., for the purpose of forming a county medical society and to revise the schedule of fees.
Gallagher Bros. are to put on a good day's racing at Dominion Day. They have announced three classes, a 225, 226 and a farmers' class, in which event the horse must be owned by a bona fide farmer. Generous purses are to be hung up. John Fattersall, until recently chief of the fire department, has resigned his position with Grant's carriage factory, and started up for himself in the Caldwell block in King street.
Woodstock's local wholesale drug firm, The Baird Co., have outgrown their present quarters, and will take a lease of the whole of the Yanvart brick block in King street, thereby about doubling their floor space. They are also putting over 100 miles of road. E. W. Mair, the new general manager, seems to be making a great success of the firm.

MONCTON HUSTLING FOR NEW INDUSTRIES

Board of Trade Wants City to Grant Exemptions
Prospect Good for Securing One Big Establishment—Valuable Horse Was Poisoned.
MONCTON, N. B., May 16.—J. W. H. Roberts has gone to Halifax to represent Moncton at tomorrow's meeting of the M. P. A. A. A., when the question of affiliation with the C. A. A. U. will be before the Moncton delegates will oppose this course on the ground that it is detrimental to the best interests of sport in the Lower Provinces.
The manufacturers' committee of the Board of Trade, in an effort to induce new industries to locate here, resolved, at a meeting last night, to ask the board to recommend to the council that the city would grant exemption from taxation, free light and water, to any factory coming here and employing not less than fifty hands. It was also decided to recommend that a special officer be employed to secure the names of concerns which might be induced to locate. The prospects are very encouraging for the establishment in Moncton of an industry employing between one and two hundred hands in a branch industry not represented here.
A valuable mare owned by Eustache Leblanc, formerly proprietor of the Hotel Leblanc, was yesterday shot by some Paris green and died from the effects of the poison a few hours later. The horse was worth over two hundred dollars.

OTTAWA DREDGE LIKELY TO REMAIN FOR A LONG TIME

Will Probably be Given Other Contracts in St. John Harbor.
The contract which the department of public works has awarded to the Dominion Dredging Company, of Ottawa, includes all the work which is required to be done on the sites of the Clarke & Adams cribs. It will be remembered that a couple of weeks ago, in order that the work on this section of the new wharf might be hastened, Mr. Mayes was given permission to work on this crib site at the same terms as under his other contract. The Harbor has since been working at the upper end of this section and will continue to do so until the Dominion Co.'s plant reaches St. John. It is not known just how much will be required to be taken out, but the job calls for something like 600 feet in length by 140 wide. It is believed that there will be little delay in preparing the sites for the Clarke & Adams cribs which are now under construction. The heavier work upon the arrival of the Ottawa plant, will resume work upon the Sand Point basin.
While no announcement has been made, it is understood that the Dominion Dredging Company may not only do the work for the Clarke & Adams cribs, but will continue the dredging right out to the harbor line, preparing for the third and last section of the new wharf, and it is also very probable that this dredge will remain in St. John for an indefinite time taking a part in the deepening of the channel. The work which Mr. Mayes has already under contract will require some eight or ten months to complete so that both dredges will be kept busy for the greater part of the present year at least.

WILLIAM H. LOVITT, OF YARMOUTH, DEAD

Leaving an Estate Amounting to \$600,000.
YARMOUTH, May 16.—William H. Lovitt, son of the late Wm. Lovitt, who died worth a million, died this morning, aged after a brief illness. He inherited \$500,000 from his father's estate and was insured for a hundred thousand.

THIEVES GOT BIG HAUL IN N. S. POST OFFICE

Cash, Stamps and Notes to the Value of \$1,500 Taken
From the Store and Office at Denmark Kept by McLeod & McLean—A. G. Spencer Goes to Ottawa.
(Special to the Star.)
TRURO, N. S., May 16.—Canada's post office department stands to lose about \$600 in cash, stamps and money orders, and Messrs. McLeod & McLean, general merchants of Denmark, will be inconvenienced to the extent of a thousand dollars in customers' notes of hand by reason of a visit of burglars to their store and post office last night. The robbers entered the shop and carried off a visit of burglars to their store and post office last night. The robbers entered the shop and carried off a visit of burglars to their store and post office last night. The robbers entered the shop and carried off a visit of burglars to their store and post office last night.

WONNIPPEG, MAN, MAY 16—RELIABLE

reports from the leading wheat raising districts of Manitoba and Saskatchewan show that excellent progress is being made with seeding operations. A leading grain authority from Saskatchewan asserts that by this evening 45 to 50 per cent. of the wheat will be sown. In certain parts of Manitoba and among the rising men of the county, the firm conducts a thriving general store and Mr. McLean is postmaster. A. G. Spencer, son of Lorenzo Spencer, of Spencer Bros. & Turner, Truro, who was one of the laboratory staff of the Dominion Iron and Steel Co., Sydney, has been appointed an assistant in the department of chemistry at Ottawa and will leave Truro in a few days for his future field of operations. For the past ten months A. G. Spencer has been office director of the lumber firm here.

LABOR MEN NOW BELIEVE THAT HAYWOOD WILL HAVE A FAIR TRIAL

There is No Further Danger of Outbreaks — Trial Adjourned on Account of Judge Nugent's Death.
BOISE, Idaho, May 16.—Out of respect for the memory of Howard Nugent, the first judge of the Ada County District Court after Idaho became a State, the court over which he presided as one of the predecessors of Judge Fernwood will not proceed with preliminary stages of the trial of William D. Haywood charged with the murder of former Governor Steuneger for two o'clock this afternoon. Judge Nugent was the father of John F. Nugent, one of the counsel for Haywood.
Haywood has greatly changed in his demeanor during the last two days. At first he left his counsel severely alone and appeared to be taking little or no interest in the selection of the jury. Now however, he scans each taleman closely and is almost continuously in conference with his counsel. He watches the proceedings intently and whenever anything happens that brings out a laugh in the court room, Haywood joins in the merriment.
It would appear from interviews with the best informed persons here that any fear of trouble caused by the more radical element has now disappeared. The belief is expressed that the representative men of labor union circles throughout the country fully realize that the State of Idaho propose to give the men a fair trial. That this is a fact, those who have watched the conduct of the case do not attempt to deny. The writers for Socialist Newspapers and for the organs of the labor unions who are here in large numbers, state most positively that their views have changed and they express the conviction that Haywood will be given every opportunity to clear himself of the charge against him. Among the people here moderation is counseled and full confidence is expressed in the attitude of the people of Idaho towards the accused.
The prevailing cold weather has had a rather serious effect on Bay fisheries, and up to the present boats have been getting no fish to speak of excepting gasperaux. Shad ought to be in by now, but there have been none upon the Bay and only a few dozen in the harbor. The run of shad were expected nearly two weeks ago and the fishermen are now looking for them within the next week. These spring shad will last for about ten days and will be immediately followed by the salmon. Already one or two salmon have been caught in weirs and some few up the river. There are the zones which are on sale in retail stores in St. John, but none have been caught for export, nor is it likely any quantities will be taken until about the first of June.

UNIVERSITY OF NEW BRUNSWICK CLOSING

The Encuentra of the University of New Brunswick will be held at Fredericton on Thursday, May 20th. The programme is as follows:
10.00 a. m.—Meeting of the Senate.
11.00 a. m.—Inspection of the equipment of departments in the new engineering and physics building.
2.00 p. m.—Academical procession formed in Dr. Bailey's lecture room.
2.30 p. m.—Chair taken by His Honor the Lieutenant Governor. Address in praise of the founders by Prof. Perrott, M. A. I.
3.00 p. m.—Distribution of medals, prizes and honor certificates, and conferring of degrees.
4.00 p. m.—Valedictory address, by Dr. Arnold Jewett.
4.20 p. m.—Alumni Oration, by Rev. Frank Baird, M. A., Sussex, N. B.
The graduating class of 1907 consists of—Edna B. Bell; Hugh Allen Carr; Constance Carman; Harry S. Day; Kenneth Dunphy; G. A. Harrison Dyar; Spencer W. Everett; Walter C. Gillis; H. E. Hayward; Barton M. Hill; Fred. James Jewett; Walter Macburn; G. S. Macdonald; G. H. Maxon; Haxen P. Moulton; H. Tully Montgomery; C. Donald McCormack; E. M. McCracken; C. W. McLatchey; Edward B. McLean; Malcolm Orchard; Annie E. Parks; Clara Robinson; Phoebe Robertson; L. Ralph Sherman; H. R. Steeves; H. E. Sutherland; Rebecca Watson; Jessie Weisman; Joseph P. Wood; William Woods.

THERE MUST BE A CHANGE IN CONGO ADMINISTRATION

Says Sir Edward Grey—But He Does Not See Just How It Can be Hurried—Let Belgium Make Some Suggestion.
LONDON, May 15.—In winding up the animated but fruitless debate on the Congo question in the House of Commons yesterday, Sir Edward Grey, the Foreign Secretary said that those interested in the matter would naturally wait to see what the conditions of the plans of the annexation proposed by the Belgian parliament were to be, and that pending this information he was reluctant to set forth definitely what would be considered satisfactory to the British Government. For this reason the speaker continued, Belgium should be allowed to act in the matter without interference or pressure of the outside. The British Government must wait a reasonable time but it could not wait indefinitely. In case of a breakdown and the passing of the Congo into other hands the Government would always be at the other powers the resultant responsibility.
There must however, be a change in the system of governing the Congo, Sir Edward declared, it being impossible for the state to continue under its present irresponsible rule.
The Government always had been willing to take part in a conference of the treaty powers, and the government of the United States had expressed its willingness to approach the question from the same point of view, but two powers by themselves were not enough to form a conference. The late British government had issued invitations to a conference which had not met with affirmative answers. Sir Edward said he was afraid that in the past two or three years conferences in general had not increased in popularity and he would not like to repeat this invitation until he had some assurance from other powers besides the United States that the question would become an international one.
In the course of the discussion Sir Charles Dike advanced radical, and others members of the House expressed the belief that a conference between the United States, Great Britain, Germany and France might result in forcing Belgium to take some action.

WEATHER CONDITIONS IN THE WEST ARE GOOD

And About Half the Seeding is Now Done
Crop Prospects Favorable—A Messenger Boy Who for Once in His Life Moved in a Hurry.
WINNIPEG, Man., May 16.—Reliable reports from the leading wheat raising districts of Manitoba and Saskatchewan show that excellent progress is being made with seeding operations. A leading grain authority from Saskatchewan asserts that by this evening 45 to 50 per cent. of the wheat will be sown. In certain parts of Manitoba and among the rising men of the county, the firm conducts a thriving general store and Mr. McLean is postmaster. A. G. Spencer, son of Lorenzo Spencer, of Spencer Bros. & Turner, Truro, who was one of the laboratory staff of the Dominion Iron and Steel Co., Sydney, has been appointed an assistant in the department of chemistry at Ottawa and will leave Truro in a few days for his future field of operations. For the past ten months A. G. Spencer has been office director of the lumber firm here.

HOSPITAL PATIENT IS A WEALTHY CANADIAN

Woman Who Registered in New York as a Pauper is Heir to a Great Estate.
CHICAGO, Ill., May 16.—A despatch from St. Louis says: The identity of a woman twenty-nine years old, who has been in the city hospital here for several weeks registered as a pauper, has been established. She is Mrs. Rose Sheridan, of Montreal, Canada, and instead of being destitute, has money in the bank, is heir to an estate said to be worth \$3,000,000, in England, and is herself said to be of aristocratic blood. Mrs. Sheridan arrived here several weeks ago enroute from Hot Springs, Ark., to Millbury, Mass. She had been ill of brain fever. At the Union Depot she fainted, became delirious and was sent to the hospital. When she regained consciousness she told of her sister, her child and nurse and said she were at the depot. The hospital attaches thought her remarks resulted from a disordered mind. Mrs. Sheridan will start for Millbury, Mass., tomorrow. She is the granddaughter of Sir Alex. John Ball, of London, England, who died several years ago, leaving a large estate of which she is one of the heirs.

DANGEROUS PEST FOUND ALL OVER THE COUNTRY

The Terrapin Scale Threatens Damage to Fruit Crops.
WASHINGTON, May 16.—From every state east of the Mississippi River and from Missouri, Arkansas, Louisiana, Texas, Minnesota and the Province of Ontario, Canada, the Terrapin scale, the enemy of the peach and other trees, has been reported to the department of agriculture. Specimens of the pest from all that territory have been received. The department in a circular has called attention to the Terrapin scale in consequence of its wide range of food plants, including both wild and cultivated trees, as a dangerous pest which may be controlled but never eradicated. Small parasite four winged flies are the greatest benefactors in the control of this insect and a kerosene emulsion has proven an effective remedy.
Advertising is like casting bread on the water, except that you do not have to wait many days for its return.—John Weidnerburn, Washington.
