

## ANOTHER BIG BREAK IN CONCRETE PIPE

Water Will Not Be Turned on  
Until Monday

3000 Feet of Concrete Section in Very  
Bad Condition—Immense Expend-  
iture Necessary.

The biggest break yet discovered was found this morning in the concrete extension system. This will keep the high levels of the city without water until Monday at least, while repairs are being made.

Examination of the pipe has shown large sections of it to be in such a bad condition that it is impossible to use it in its construction and the work of putting the pipe in good order will cost many thousands of dollars.

The hole which was discovered on Wednesday afternoon and which was filled up and repairs on it were completed this morning. The opening was about eight feet long and eight inches wide and was situated in the bottom of the pipe. It was found to be practically an extension of the break which caused the water to be shut off a few weeks ago.

The city engineer was hoping to get the water turned on by noon today, but before the repairs were completed the workmen exploring the pipe from the inside discovered another place where a large section of the pipe was absolutely rotten and ready to fall out at any moment. It was therefore necessary to proceed with repairs on this section and this will make it impossible to turn the water into the pipe again until, at the earliest, Monday morning.

The latest break is at a place where repairs have already been made, but the walls surrounding the pipe which was made some time ago have been found so bad that a large section containing the patch and portion of the wall around it had to be cut away.

"Since the city has undertaken the repairs to the pipe it has been found that a section extending 1,000 feet from the city end of the section is in extremely bad condition. It is on this section that the recent breaks have occurred. A gang of forty men have been at work since spring and already between 200 and 300 barrels of cement have been used in the repairs."

"At the other end of the pipe where it leaves Lake Latimer the stretch of 1,000 feet is in about as bad condition and water can be seen bubbling up through the ground when the pipe is in use. So far no attempt has been made to cope with the repairs on this stretch."

The pipe is in such poor condition that now while the water supply is turned off, water is leaking in through the sides of the pipe to such an extent that pumps have to be kept working constantly in order to enable the men to work on the inside of the pipe.

## HELD SPECTATORS AT BAY WHILE SAFE WAS WRECKED

Daring Robbery of Ashland Savings Bank  
—Got Only \$500.

ASHLAND, N. H., July 16.—One masked robber held three families at bay for more than a quarter of an hour early today, while two robbers also masked, worked in the glare of an electric light and finally succeeded in blowing open the safe of the Ashland Savings Bank, escaping with \$500 in cash. Three explosions were heard as the robbers worked for more than fifteen minutes after their operations had been discovered.

The burglars were discovered by Mrs. Arthur S. Peaslee, who with her husband lives in an house adjoining the bank. Awakened by a loud report and looking out of the window she saw masked men running in the direction of the office of the bank cashier. She called her husband, who opened the window and shouted at the men to get away from the bank. The man with a revolver promptly was thrust in Peaslee's face by the burglar on guard and he was ordered to keep quiet. Mrs. Alonzo Smith who lives over the bank and had been awakened by the explosion also was commanded to close her window and remain quiet, but crazed by fear she cried out so loudly that many persons were awakened.

By this time Peaslee had connected with the central office of the telephone company and was trying to locate the town policemen, but presently the robbers applied dynamite to the safe door and it fell open. Then taking a bag of money, they rushed out through the back door of the bank, where they were joined by the third man and the three started across the fields in the direction of the railroad tracks. Pursuit was organized quickly enough for the people to catch sight of the robbers as they took flight, but shortly afterwards the trail was lost.

## LOCAL NEWS.

LADIES and gentlemen have your feet treated at 8 King Square, South side. 12-7-6

The finance committee of the County Council meets this afternoon at 3.30 in preparation for the quarterly meeting.

When the digestion is all right, the action of the bowels regular, there is a natural craving and relish for food. When this is lacking you may know that you need a dose of Chamberlain's Stomach and Liver Tablets. They strengthen the digestive organs, improve the appetite and regulate the bowels.

## LADIES' DAY IN COURT.

Women who have the ordinary domestic troubles with their neighbors get but very little satisfaction from the magistrate. He tells them they don't wish to encourage women to come to court. He gave instructions this morning that in future he was to be made aware of any complaints laid by women and he would determine regarding them.

This morning there were seven women in court as plaintiffs or witnesses. The cases were varied. One old woman complained of her husband calling her bad names.

A young woman of the Fluffy Rufes style said that another had insulted her.

In a third case a woman claimed that her husband had been guilty of a crime. Jacob Jacobson reported by I. C. R. Officer Smith with trespassing on the I. C. R. property, pleaded not guilty. The case was adjourned until tomorrow morning at nine o'clock.

Harold Simpson, a small boy, admitted selling picture post cards in the depot and said he was engaged to do so by Frank Curran who has charge of the news depot. I. C. R. Officer John Collins informed the court that he had been instructed by I. C. R. Chief of Police Tingley and others to allow boys to sell picture post cards to sell things about the station, and to take any that did so before the court. Chief Tingley said in the presence of Mr. Curran that it was against the rules.

Mr. Curran testified that Mr. Ross told him he could go ahead and sell about the station and that Chief Tingley never said in his presence that he could not sell. Both Officer Collins and Mr. Curran claimed that they wished to be placed right in the matter, so the case was adjourned until tomorrow morning, when Mr. Ross will be heard.

Archibald Nettle, a more than middle-aged man, was in court charged by his wife with calling her bad names. The case was adjourned until tomorrow morning.

Gertrude Alberts, a young French woman with a pretty brown suit, large picture hat, a face and a walk all her own, appeared before the magistrate with a grace that would do credit to the Florida sextette. She had her complaints made out in French and she submitted to the court. After looking them over the magistrate informed her that she was in the wrong court and would have to go elsewhere. She retired crestfallen, accompanied by her father, she complained that while she was in conversation on the street with a young man his mother came along and asked him if he couldn't get her a new dress.

## JACK JOHNSON HURT IN JOY RIDE COLLISION

CROWN POINT, Ind., July 16.—Jack Johnson, champion heavyweight pugilist, is reported injured in a serious automobile collision last night. Women occupants of the cars were badly hurt. The wreck occurred on the east leg of the Cobscook race course just below the grand stand. It is said Johnson was racing his forty horse power car against machines owned by E. Moriarty, which it is reported carried several Chicago girls who are staying at Cedar Lake. Johnson's car smashed into Moriarty's machine, making a wreck of both. A wrecking crew from a garage was sent to the scene early today and the wrecked machines were dragged into town, but Johnson and Moriarty and the girls had disappeared in the darkness. It is thought they hurried to the pugilist's quarters at Cedar Lake. A farmer along the road reported that Johnson was bleeding and that the others also had injuries.

## THE ECLIPSE STAKES.

SANDOWN PARK, Eng. July 16.—The twenty-second renewal of the Eclipse stakes of 10,000 sovereigns was run today, the fastest mile and a quarter, was run here to-day and won by Mr. Fairies Bayard. Royal Beas, owned by W. Hall Walker, was second and Leopold De Rothschild's Santa Strath third.

## THREE KILLED IN RAILWAY COLLISION

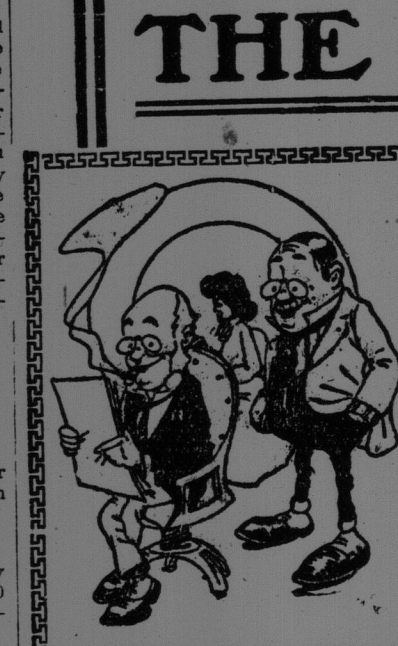

DANVILLE, Ill., July 16.—In a head-on collision between two passenger trains on the Chicago and Eastern Illinois Railroad near Royal, Ill., this morning, three passengers were killed and several others reported badly injured. Wrecking trains have been sent from this city.

## THE ECLIPSE STAKES.

SANDOWN PARK, Eng. July 16.—The twenty-second renewal of the Eclipse stakes of 10,000 sovereigns was run today, the fastest mile and a quarter, was run here to-day and won by Mr. Fairies Bayard. Royal Beas, owned by W. Hall Walker, was second and Leopold De Rothschild's Santa Strath third.

## NEW YORK, July 16.—The Standard Oil Company today announced a reduction in refined oil of 15 cents a hundred gallons.

## STRIKE AS GOOD AS ACTUAL WAR FOR TRAINING SOLDIERS

Troops at Glace Bay Getting Same Experience as if on Active Campaign—How They are Employed On and Off Duty.

GLACE BAY, N. S., July 16.—One good result of the calling of the troops to the Halifax garrison to Glace Bay has been that the five hundred men of the Halifax garrison now doing duty here are receiving a training that they would not get under other circumstances, apart from actual war. For a number of days the men have been living under active service conditions. Outside of warfare, there is absolutely nothing that could amuse the men up as well as the conditions that they now live under, and when they finally return to Halifax, they will be in better shape than any amount of ordinary garrison, or camp duty could do. It has been a success of night patrol duty. At the different garrisons strong detachments are continually on duty after dark and as much as 250 men have been thrown into the work as a hostile force were assaulting Glace Bay.

The force is split up into a number of small garrisons. At headquarters on Table Head, the main body about 350 in number, are encamped. At Dominion No. 6, the most isolated of all the mines, there is a strong detachment of infantry. The fifty or so men of the Dominion No. 2, at Caledonia, there is a detachment of fifty artillerymen and another detachment of 25 is more directly under the eye of headquarters. At Dominion No. 1, there is an infantry garrison and all the rest of the troops are at the headquarters from which the guards for Dominion No. 2 and Dominion No. 7 are supplied. The men of the Dominion No. 4 and Bridgeport are more directly under the eye of headquarters than any of the others. In consequence these outside places are thrown somewhat more on the Crown Reserve.

At four o'clock each morning the troops stand at arms. Patrols are out all night watching the coast and the roads leading to the various pits. For two hours they march up and down the streets, whereby the men are kept in the best of condition. At the various mines, and again in the afternoon, they are turned out in groups of five or six, and are made to march to the various pits. Although everything has been absolutely quiet since they arrived on the scene, there has been no relaxation in the vigilance of the officers in charge, and they are taking the most careful note of each foot for such of the soldiers as the militiamen, and as morning comes along the troops are again ready for any eventualities that may arise. Between five and seven o'clock strong guards are placed on the roads leading to the various pits. For two hours they march up and down the streets, whereby the men are kept in the best of condition. Although everything has been absolutely quiet since they arrived on the scene, there has been no relaxation in the vigilance of the officers in charge, and they are taking the most careful note of each foot for such of the soldiers as the militiamen, and as morning comes along the troops are again ready for any eventualities that may arise. Between five and seven o'clock strong guards are placed on the roads leading to the various pits. For two hours they march up and down the streets, whereby the men are kept in the best of condition. At the various mines, and again in the afternoon, they are turned out in groups of five or six, and are made to march to the various pits. Although everything has been absolutely quiet since they arrived on the scene, there has been no relaxation in the vigilance of the officers in charge, and they are taking the most careful note of each foot for such of the soldiers as the militiamen, and as morning comes along the troops are again ready for any eventualities that may arise.
