The death is reported of Angus Mo-Donald of Hillsboro. The deceased, who was a great suffered for about 18 months previous to his teath, was universally respected. He leaves a large number of friends and relatives, many of whom are in the United States.

W. S. Steeves, representing N. Rat-tenburg of Charlottetown, is in the village today. Mr. Steeves is always a welcome visitor, having by his hon-orable and upright methods of dealing, won the respect and esteem of the business community. Messrs. Benjamin and Willie Jardine of Freetown are visiting friends in the village, the guests of Mr. and Mrs. Geo. Jay. The T O. F. social reunion came

in the shape of a grand banquet in their hall on the 23rd instant. The tables were beautifully and richly laden with the choicest of delicacies which reflected great credit on the worthy hostess, Mrs. James Ross. Over 75 guests did ample justice to the good things set before them and after drinking a few patriotic toasts, repaired to an adjoining room, where some choice selections on the organ were given by Miss Alice Pigott, and some readings and songs by other members of the company, which together with darcing, enabled all present to spend a very enjoyable evening.

CHARLOTTETOWN, Jan. 30.-The death occurred in London, England, recently, of Mrs. Margaret Annie Mellish, aged 81 years. Deceased was an aunt of Attorney General Peters and resided for a time with her husband in this province.

Interest in the coming civil election is rapidly increasing. Up till today three candidates have been in the field for the mayoralty, viz., Dr. Macburton, A. Horne and Dr. Kelly, Today a deputation waited upon Mr. Horne, and as a result he has withdrawn from the contest. It is understood that at the next election Mr. Horne will receive the undivided support of those who are now with Dr. Macburton, the present mayor. There are now thirteen candidates in the field for councillors. Only eight can

An interesting prohibition case was disposed of in the police court today. Councillor Angus McDonald was the defendant. One witness swore that he had purchased liquor in December in a saloon on Dorchester street, purported to be owned by McDonald. Mc-Donald then produced a lease made out by him to John McClure, Montreal, agent for Lawrence A. Wilson. The defendant in cross-examination testified that McClure was a traveller for liquors who frequently visited the island. McDonald further stated that he did not sell retail, but wholesale, that he was acting under power of attorney from the lease and received a commission. His honor, however,

Duncan McMillan was also convicted. The annual meeting of the Charlottetown Driving Park and Exhibition Association was held Wednesday night. As no exhibition and only two race meets were held during the year, there was little to report. The total receipts were \$1,727.30, the total expenditure \$1,726.91. It is confidently expected that an exhibition will be held next fall. The election of directors resulted as follows: F. L. Haszard, J. J. Davies, F. H. Beer, C. C. Gardiner, Judge Fitzgerald, Judge Warburton,

COUGHING UP CATERPILLARS. Fairfield Woman Has Whole Nest

Them to Disgorge. LEWISTON, Maine, Feb, 1.-A Fair field special to the Journal says:

A Fairfield woman is expectorating caterpillars of the kind which have been so much of a nuisance within the

past few years. Several people of undoubted veracity have seen the strange performance have seen the caterpillars as they came out of her mouth, after periods, of violent coughing, and vouch for the fact that the caterpillars are alive and lusty when they come forth.

The woman is under the care of physicians. The woman is believed to have swallowed caterpillar's eggs with water when she narrowly escaped drowning in a boating accident. The insects are full grown.

### A BOSTON TRACEDY.

Shot a Man Through the Brain on Beech Street.

And When Pursued by a Crowd Pu the Revolver to His Head and Baded His Life-Both Bodies Taken to the Morgue.

BOSTON, Jan. 31.—Driven to des peration by the insulting language of a man whom he met for the first time this afternoon in the barroom of the Shakespearean Inn, on Beach street, John Bonette, a carpenter, 33 years of age, shot and instantly killed George McGibbon, 30 years old, then took his own life before he could be prevented by the crowd that had pursued him. It was between 4 and 4.30 o'clock when a dozen men were standing about the bar of the inn that the trouble began between the two men. All who were present agree that Bonette was sober, or at least showd no sign of inale and laid down the money in pay ment. Noticing that the glass had no bartender about it, but the latter did not notice the remark. McGibbon, who was a few feet away, overheard it and remarked, with a sneer: "You'd better go to the Parker House if you're not satisfied here." This gradually led to a hot exchange of words and during which one of the men, it is not known which, invited the other out side to settle the matter. Once upon the sidewalk the men were seen to fac each other and exchange words, but what they said could not be heard. Bonette's face was white with rage and at last, by a quick movement, he whipped a revolver from his pocked and fired at McGibbon full in the face. With the report of the revolver Mc-Gibbon fell back on the sidewalk dead the bullet having entered the right eye and lodged at the base of brain. All that had transpired had not occupied more than two minutes.

Bonette gave one look at the pros trate form, then turned and ran at top speed around the corner into Washing ton street pursued by a crowd who had either witnessed the quarrel ar had been attracted by the first shot. Before they could seize him, Bonette turned about, faced his pursuers, and putting the weapon to his right temple ent a bullet through his own brain causing instant death. It happened that just at that time Captain Cair and a special detail of police were leaving the Lagrange street station for duty in connection with the teamsters strike, and the crowds that had col lected about the scene of the shootings vere quickly dispersed and the bodies of the victims were removed to the station house. After they had been viewed by the medical examiner they were taken in charge by an under-

Bonette was a member of Carpenters' Union, No. 38, and is said by his industrious. Several recent pay envelopes were found in his pocket, but no paper giving his home address, and the police have not as yet learned it.

# FROM GAY PARIS.

Secretary Dupuis from the Exposition Makes a Statement.

His Experience when in Paris Proves Dodd's Kidney Pills to be a Splendid Tonic Medicine-Unsurpassed also as a Remedy for Lame Back.

VILLAGE DES AULNAIES, Que. Jan. 31.—(Special).—Mons. Aug. Dupuis, of this village, who was Secretary to the Canadian Commission to the World's Fair at Paris last year, has since his return given out a statethat reflects great credit on Dodd's Kidney Pills. Mons. Dupuis says that he has used

these pills for a "deep seated pain in the small of the back," and found that they relieved him almost instantly and finally cured him altogether so thoroughly that he has not since had any symptoms of a return of the pain. While in Paris Mons. Dupuis found his duties as secretary very toilsome and trying, with the consequent re sult that his health became run down Again he sought relief in Dodd's Kidney Pills, and again he found them equal to the emergency for they quickly braced him up.

His statement, recently published, is very full of praise for this medicine, and he also takes occasion to thank Mr. James G. Jardine, of Toronto (who was a member of the Paris Comm sion) for having first introduced Dodd's Kidney Pills to his notice in Ottawa some years ago.

Mons. Dupuis is very popular here having been postmaster at this village for years, and resigning to accept the position of Secretary to the Paris Commission last year.

He is now President of the Council

of Agriculture of the Province. The unqualified commendation of Dodd's Kidney Pills by all classes of the people is the very best possible proof that they are a genuine cura tive. As a general family tonic for young

and old, they are unexcelled, and in many homes in Canada today the amiliar blue and red box containing Dodd's Kidney Pills is always on the shelf ready for use. TORONTO, Jan. 31.—Scarlet fever of malignant type has broken out near

up at a late hour. TRURO, Jan. 27.-A very sad fatality occurred here this week. James Clark Archibald left his home at the st end of the town at 7 o'clock Sunday morning without telling his family where he was going, and was not seen again until he was found dead early this morning, lying face downward in a brook about half a mile from his house. His forehead was bruised as though he had fallen while trying to cross the stream. He was lying in shallow water, which did not cover his body. Mr. Archibald was a quiet, unassuming man, in well to do circumstances, and was much respected in this community. An inquest was held today, with a verdict of death by accident. It is supposed that Mr. Archi bald was on his way to visit a neighbor when the accident occurred.

WOLFVILLE, Jan. 29.-Word has been received here of the death at Dawson City of Charles W. Eaton, son of Charles Eaton, Kentville. No particulars have yet been received. "Jack Biddle was the worst shot of the two men, although he was in better condition than Ed. when the men were brought to jail on Friday night. Jack had two gunshet wounds on the right side in the region of the liver. The bails passing up and around the bedy did no damage. They were removed on Saturday. A bullet wound was found in the reof of the mouth, but it was slight and would not have caused his death. This wound was inflicted by himself with the evident intention of committing suicide. His right arm was shattered by five bullet wounds. The wound that caused his death was made by a 41.75 calibre bullet that passed through the crest of the illium on the right side and passed back through the kidney, causing hemorrhage.

"In all Jack was suffering from nine wounds, but excepting the one that penetrated the bidser arms of them would have rounds, but excepting the one that pene-rated the kidney, none of them would have

"Ed's terrible sufferings were caused by a builtet wound that struck him on the left breast about an inch and a half to the right of the nipple and passed down between the fourth and sifts ribs to the left of the heart and through the lung. This wound was made by Ed himself, the powder marks being visible on the skin. Death was caused by hemorrhage, and the man suffered untold agony to the last breath. Another wound found on his body was on the same side, about an inch from the left nipple, but the builtet struck the fourth rib, passed under the skin and no damage. Both builets found in Ed. were 32 calibre, and in the opinion of the doctors who held the autopay, there is no doubt that he killed

WILL MAKE GOOD CANADIANS.

(Boston Herald.) It may be said that such an ingoing of Americans into Canada will tend in time to influence the policy of the Dominion in our direction; but we do not believe that such a result commonly follows emigration. The Canadians that have come to the United States are quite as tenacious in their Americanism as the descendants of those who for generations have lived on this side of the border. A number of prominent men in Canada were born in the United States, but they also are quite as tenaciously Canadian in their ideas as are any of those of native birth. Canada is destined to obtain by this inflow of Americans a large number of citizens who will give strength and vitality to the Dominion, which will serve to render it in the future even more independent of us than it has been in the past.

ANNUAL FESTIVAL Of the Kingston Deanery Choral Union.

From the remotest corner of the county, as well as from every station on the railway, the members (and their friends) flocked to the annual festival of the Choral Union at Sussex on Thursday, January 30th. The day, while bright, was cold, and the travelling was wretchedly unseasonable, and yet when the members were called to attention by the conductor, the Rev. C. P. Hanington, at 10 o'clock for the final rehearsal in the church, every one realized that the day was to be one of the great days of the Union. And it proved to be so. For when, after several hours' rehearsal with the orchestra, the time for the festival service arrived, probably 130 singing members and at least 20 honorary members of the Union were present. While the parish of were present. While the parish of Hampton had the honor of bringing the largest contingent, practically every parish in the Deanery was more or less strongly represented. No less than twelve clergy of the Deanery were present in their robes, and besides there, also in their robes, was Shediac Deanery. There were present: The Rev. E. B. Hooper, W. B. Armstrong and A. W. Smithers, and from Fredericton Deanery the Very Rev. Dean Partridge. The service, as is the custom, was fully choral, the prayers being intoned by the Revs. C. A. Schofield, secretary of the Union, and E. B. An' chin about as hairy as the recent Mis- Hooper. The lessons were read by the Revs. H. H. Gillies and W. B. Armstrong respectively, while the preache Union, pronounced the benediction.

Besides singing the responses throughout the service, the great chorus rendered the following musical por-

tions of the service: Processional hymn-We Love the Place, O God, C. Warwick Jordan. Special Psalms-Anglican Chants.

Canticles-Anglican Chants. Anthem-O Taste and See, Sir John Hymn-Lead, Kindly Light-Rev. T. B. Dykes, Mus. Soc. Anthem—The Radiant Morn, Rev. H.

H. Woodward, Mus. Soc. Threefold Amen, Pritchard. Hymn-Hark! the Sound of Holy

Voices, Rev. J. B. Sykes. While once or twice the voices were not perfectly together, and while occamionally (for a few bars) the chorus would either get ahead of or lag behind the conductor, when it is remembered that the combined choir are able each year to have but one practice together, the general results of the service must be considered to have been most praise-

worthy. Your correspondent, while realizing that passages in The Radiant Morn were most effectively rendered, would certainly consider that the gem of the chorus work was the rendering of Dr. Sykes' wonderfully fine tune to Newman's precious hymn, Lead, Kindly Light. While accurate in time, the chorus, in perfect sympathy with the conductor, never failed to express the meaning and thought of the words as Dr. Sykes has directed. The effect here

was most inspiring. The orchestra, as usual under Morton L. Harrison's leadership, who in company with his colleagues most generously give their services to the Union, accompanied the musical portions of the service throughout, and most effecstively rendered several voluntaries in the course of the festival. At the organ J. M. Scovil presided with care and precision. On the whole the conductor and members of the Union should feel that such a service, while redounding to the credit of the Deanery, as it assuredly does, cannot fail to set a high standard for the service of praise, and also to very considerably raise the tone of this element in public worship throughout the Deanery. This reason, if for no other, church people generally rejoice in the continued prosperity and ever increasing influence of such a society. Throughout the day the members and their friends, at no small abor, were most hospitably entertained by the rector and loyal church people of the parish of Sussex.

Depressed and Discouraged

It is remarkable how thoroughly the whole system is thrown out of order when the nerves become weak and exhausted. All energy and ambition seems to disappear, the mind wanders, memory fails and despondency reigns supreme. Dr. Chase's Nerve Food puts new vim and energy into the brain, nerves and body, builds up the eystem and prevents paralysis, prestration and insanity.
