GAGETOWN, Oct. 2.-The convention called for today for the purpose of promoting good government at Fred on, or in other words, a meeting that had for its object the defeat of the present tanyard (as one man expressed it) government of New Brunswick, was exceptionally well attended. at least one hundred electors being

Representatives from every parish but two were in attendance and a keen interest was shown in the good work. There were present beside R. D. Wilmot, M. P., and J. D. Hazen, M. P. P., Hetherington, A. Arch. Worden and many others. B. S. Babbitt, acting as provisional chairman, called the meeting to order and business was at once proceeded with. As Mr. Babbitt could not act re than a few minutes as chairman, S. L. Peters was chosen to fill the chair. He explained fully the objects of the meeting and called on Mr. Hazen to address the audience.

Mr. Hazen expressed himself a well pleased to be again with the electors f Queens county. After a short address in which he pointed out the reasons why a strong opposition should be placed in the field to fight the present vernment, he outlined the work to do and asked the convention to so arrange matters that the nomination should be a wise one and that all the parishes should be equally represented. R. D. Wilmot, M. P., upon being called upon, made a short address urging the people to work as one man in their endeavor to unseat a corrupt administration. He spoke of the bridges and roads throughout the province being in a sad state of delapidation through he negligence of the present comm sioner of public works. He impressed on the hearers the criminal carelessness of that department in their failure to repair the Oromocto bridge in face of the fact that Mr. Hazen and others had repeatedly drawn attention

o its unsafe condition. J. R. Dunn read letters of regret from A. McL. Thurrott and Charles Coakley in their inability to be present though they were in sympathy with the movement. A letter to the same effect was read from S. M. Starkey. Mr. Wood also expressed the regrets of L. A. Currey of St. John, who could

not be present. H. W. Wood moved that a commitish to be a nomination committee and Country Will Probably be Absorbed for o meet at the call of the chairman. The motion was seconded by Mr. Hetherington and carried, whereupon the delegates from the different parishes appointed their men and reported to

It was admitted on all sides that a larger and more thoroughly representative party gathering had never been held in Queens county, and the prospects of opposition success are regarded as a undred per cent. better than at the election when Mr. Ferris' majority was a very narrow one.

AN INTERNATIONAL MARRIAGE. There was a very pretty wedding at the home of Mrs. J. A. White, 71 Paradise row, Wednesday morning, when her daughter, Augusta May, was mar-ried to George A. Chandler of Hartford, Conn. Mr. Chandler is a well known chemist in Hartford. His father is the senior member of the firm of Chandler & Co., wholesale druggists. Miss White is a graduate of the Hartford training school for nurses.

The room in which the happy couple were married was beautifully decorated, the groom and bride standing in an alcove filled with petted plants and ferns. The groem stood beneath the stars and stripes, which were inter-twined with the Union Jack, under which the bride stood. The gifts to the bride were beautiful

and costly, the groom's present to the bride being a diamond brooch. The happy couple left on the Boston train for their future home, after a trip to New York, followed by the good wishes of the friends of their international marriage.

FUTURE OF RHODESIA

the Benifit of the People

(Brooklyn Eagle.)

LONDON, Sept. 18.—The death of Cecil Rhodes has left the gigantic chartered company of South Africa floundering about headless and aimless. There is no one to take the place of the man who dreamed only of the making of empires; whose sole object in life was the aggrandizement of Britain, the enhancing of her power and influence throughout the world, and who never permitted obstacles, no matter how enormous, to stand in his way. The chartered company has stood for years, ever since its foundation, in fact, as the monument of Cecil Rhodes and his system. Its vast extent—the company controls a territory of over 750.000 square miles—is due to the initiative of the simple, strong man who lies buried in the solitary grandeur of the Matoppo Hills. There has been no one to take his place. On the company's directorate are great dukes and financiers, influential politicians and statesmen, but none of them wields the authority which was the monopoly of Mr. Rhodes; and so of late, in the absence of a real leader, the company has failed to come up to the expectations that were rife, particularly at the end of the war.

It was hoped that Dr. Jameson, the hero of the lamentable raid which was the beginning of the South African troubles, would have lived down his past and could be got to take the place of the dead leader, but he has not done so, for even in Africa political misdeeds, such as those which were perpetrated by the doctor and his crack-brained companions in 1896, take a long time to sink into oblivion.

LAURIER COMING HOME.

MONTREAL, Oct. 3.—The Star's London cable says: Sir Wilfrid Laurier and Lady Laurier arrived in London last night. They had planned to proceed to Haddo House, Scotland, tonight to pay a visit to Lord and Lady Aberdeen, but friends strongly urged Sir Wilfrid to take a rest, which he still needs. Sir Wilfrid yielded to the wishes of his friends and decided to rest quietly till he sails. French hospitality has made heavy demands upon his strength. Sir Wilfrid and Hon. Mr. Fielding will sail for Canada on Tuesday on the steamer Lake Erie. The ministers say they have succeeded in completing negotiations with the French ministers. It is important that French capitalists come forward and co-operate in the Liverpool scheme to establish a joint Franco-Canadian

direct steamship line of four vessels, two flying the French and two the British flags, but the French capitalists seem shy. LONDON, Oct. 3.-Premier Laurier an Finance Minister Fielding of Canada have returned here from Paris and today called

at the colonial office and reported the results of their interviews with the officials of the French foreign ministers. The proposed visit of the Canadian premier to Lord Aberdeen, the former governor general of Canada, has been given up. The premier will open the new produce exchange at Liverpool Oct. 7 and will sail for Canada Oct. 8.

Some means has to be adopted to save the immense outlay for teams and men for the purpose of removing the wood from the mills. All the available land around Fairville is being filled up with edgings, slabs, etc., and this new method is being adopted to utilize the refuse

and save expense. A beautiful large dog was found wandering around King's mills last week, and a tender-hearted boy took him home, fed him, and kept him all night,

BLACKVILLE, Northumberland Co., Oct. 3.—The first meeting of the Doak-town Farmers' Institute might be considered a success. The secretary, Wm. The Blissfield institute was visited on Oct. 1st, where another interesting meeting was held, and the discussion

was much along the line of the cultivation of the soil. Mr. Misereau was of opinion that if the government would furnish cheap money it would help the farmers to practice what he knew Mr. Bamford thought these meetings were very helpful, as they stimulated thought and influenced better prac-

The afternoon session's devotional xercises were led by Miss Blackmon with a Bible reading on service, Matt. 20:1-16. A paper on Normal Work, by Miss Whittaker, was read, and afterward carefully discussed. Miss Smith, editor of the Palm Branch, gave her report, which was encouraging. It was ollowed by an original poem from her graceful pen. A paper was read by Miss Smith, author's name not given, on Why a W. M. S. Languishes in a Country Community of Intelligent Christian Women. Among them was the various missionaries in the Japan work and many ineresting views of the places of mission work. These views were explained and made interesting to the branch by Miss Palmer and Miss Blackmore, the latter being at home in most of these places was able to make it more interesting and instructive than it could

otherwise have been. Benediction by Oct. 3-At the morning session th devotional exercises were led by Mrs. Rogers. Sixty-four delegates responded to their names. The invitations from the Central and Wesley Memorial congregations of Moncton for the branch to meet with them in 1903 was

accepted by a rising vote.

The election of officers resulted in the following: President, Mrs. Chipman: 1st vice pres., Mrs. Couthard; 2nd vice pres., Mrs. S. Howard; 3rd vice pres., Mrs. Wm. On motion of Mrs. Howard a vote of thanks was tendered Mrs. (Dr.) Stewart, superintendent of the literature department, for her

painstaking work. Shortly after 1 p. m. the ladies availed themselves of Mr. Gibson's kind in vitation to visit the cotton mill. No doubt the privilege was an opportunity not often afforded the majority of our ladies. By the goodly number who wended their way through the mill they were pained to see the little children who are compelled to work

through the long day instead of being in the school room. Perhaps one of the happy memories of Marysville branch will be the trip by rail to Copenhagen. The many smiling faces testified to the delight it gave our ladies to accept Mr. Gibson's royal invitation. On reaching our journey's end we were greeted by Mr. and Mrs. Brewer, receiving their guests on their lawn in a most charming manner. Refreshments were served, gardens inspected, then all took the train again. At the station three cheers and
