

YESTERDAY'S PROCEEDINGS IN THE LEGISLATURE

PROPOSED FORESTRY ADVISORY COMMISSION DRAWS CRITICISM

Hon. Mr. Murray, Opposition Leader, Objects to Commissions—Hon. Mr. Baxter Sees in the Bill Movement to Apply Jacking-Up Policy Which Prevails in Attorney General's and Agricultural Department to Lands and Mines Department—Mr. Potts Thinks Commission is Plan to Provide Few More Jobs.

Fredericton, March 26.—(From Official Report.)
The House met at 3 o'clock.
Bill to authorize the city of Fredericton to grant further exemption from the Hart's Boot and Shoe Company; also an act respecting taxation of wild lands; and also a bill to amend the Intoxicating Liquors act were read a third time and passed.
The following notices of enquiry were given:

By Mr. Murray (Kings), as to the amount of subsidy paid to the Gloucester Navigation Company; also as to what amount of fertilizer purchased by the government has been delivered; and also as to the amount of subsidy paid for ferry service to Shippegan Island.

By Mr. Sutton, as to the disposition made of a horse and sleigh owned in Carleton county by the agricultural department.

By Mr. Guptill, as to when work on the sea wall at Campbell Island is to be completed.

By Mr. Smith (Carleton), as to certain road expenditures in the parish of Dalhousie.

Mr. Murray (Kings), presented the petition of the town of Sussex for the passage of an act to amend an act relating to said town.

Mr. Sutton presented petitions from the town of Woodstock for the passage of two acts to amend the act of incorporation of said town.

Mr. LeBlanc presented the petition of the town of Dalhousie for the passage of an act to amend an act of debentures; also a petition for the passage of a bill to amend an act relating to the town of Dalhousie.

Mr. Guptill presented the petition of the provisional directors of the Fort Canada Dock and Railway Company for the passage of an act relating to the said company.

Hon. Mr. Foster laid on the table of the House the report of the chief engineer and directors of the St. John and Quebec Railway Company, covering the period from May 10, 1917, to March 1, 1918.

Hon. Mr. Smith submitted the 57th annual report of the crown land department.

Forestry Commission.

House went into committee with Mr. Leger (West.) in the chair and took up consideration of the bill to establish a provincial forestry advisory commission.

Mr. Burchill asked what was meant by a lumberman, a practical man or a licensee holder.

Hon. Mr. Smith said it would mean a holder of lumber lands.

Mr. Murray (Kings) said that he doubted if a commission of five members including two from outside the department could accomplish what the minister desired. The minister would find it difficult to find the two

outside members who would be willing to attend meetings which might be called practically at any time. The commission would really be composed of the attorney-general, the minister of Lands and Mines, and the minister of Agriculture. The crown lands should be administered directly. He believed his hon. friend the minister had the welfare of the department at heart but he was not yet convinced with its affairs. By the commission suggested conservation would not be helped and the degree of reform expected would not be obtained. That was his firm opinion. If mistaken he would be the first to admit his error.

Hon. Dr. Smith.

Hon. Mr. Smith expressed the belief that a commission would be satisfactory. He was not attempting to shift responsibility and would perform his whole duty. The commission was to be one which had existed in British Columbia for several years. Ontario was forming such a body, and in Nova Scotia, although the area of crown land was small there was talk of establishing just such a commission. One important thing under the commission would be the administration of fire protection acts. Licensees were to be taxed 1-2 cent per acre, bringing in thirty thousand dollars, and for that reason should be represented on the commission. Wilder-ness land owners also were taxed and should be represented. He could see no harm but rather good in the presence of two lumbermen on the commission.

Mr. Crockett asked why it was necessary to appoint advisors to the advisors of his hon. the Lieutenant-Governor.

Hon. Mr. Baxter.

Mr. Baxter said he was in accord with anything which would produce better administration of the crown lands, but like his hon. friend from York, believed there was much in the constitutional phase of the matter. He was pleased to hear the minister say that he was to remain responsible for all the information which could be secured from the commission was available for the minister. The deputy minister and the provincial forester, who were to be members of the commission were now in office. Who were the other members? They were a prominent lumberman to represent the licensees and another lumberman to be appointed. Were the duties of the prominent lumbermen to advise the government how far they should accede to the wishes of the licensees or to be a go between. If any difference of opinion would arise the commission the minister must override the other members. The commissioners would not be elected and would not be representatives of the people.

Was the minister to act on their

advice? Was there to be inaugurated in his department a policy which had been introduced into other, for by the appointing of a deputy a crutch had been placed under the right arm of the attorney-general, and there were evidences that another crutch had been placed under the right arm of the minister of Lands and Mines to have assistance thrust upon him. It was a most cruel cut to doubt his capacity. The minister of public works needed no such aid. He stood up like a man at the head of his department. In the agriculture department the building was being stuffed full to provide the capacity lacking in the head of the department. As he had said before it was a remarkable performance for a business man's government.

Premier Foster.

Hon. Mr. Foster said the commission would be advisory rather than administrative, and on having lumbermen as two of its members possessed an excellent feature. Advice always was good and particularly in connection with crown lands, and would it not be better to have such advice given around a table in the crown land office than in a room of a hotel upstairs as it happened in the past.

The Minister of Lands and Mines would remain responsible for all of his acts, and would have the advantage of the very valuable advice.

Mr. LeBlanc said that in the past both House and government had been much in need of advice from outside sources.

Hon. Mr. Murray (Kings).

Mr. Murray (Kings) said that reference to previous crown land administration having been made he could state that the present opposition had nothing to be ashamed of in that connection. In 1908 that party had come into power and found that the crown lands revenue had not been properly collected. It took hold of the matter and each year collected from the crown lands \$300,000 more. He also could say that no employee in that department had found it necessary to commit suicide upon the party retiring from office.

Mr. LeBlanc—"That has been re-named a thousand times."

Mr. Murray (Kings)—"As a party you must always face it."

Mr. Murray, continuing, said that the late government had taken the first step to reorganize the crown land department and to classify the lands. That those steps were approved by a majority of the people of the province has been shown by the result of the elections of February, 1917, in a large section of the province.

Hon. Mr. Foster said that the hon. leader of the opposition had referred to the late administration taking the first step. If it were the case this must be the second step. He suggested that provision might be made in the bill for the minister to appoint the representative of the licensees in the event of the lumbermen not selecting one.

Mr. Potts.

Mr. Potts said that for years people of New Brunswick had heard of the injury the lumber men had done the country, of how much they had stolen from the crown lands and how they had robbed the people, and now it was suggested that the Minister of Lands and Mines be empowered to select the licensees' representative on this commission. What a position in which to place the minister, to force him to associate with these powerful and unscrupulous people. The minister would be as putty in a big wrong hand. Were the very people whom the department should control were being given a voice in the matter. It looked to him as if an effort were being made to provide jobs for a lot of appointees. It was evident that the Minister of Lands and Mines be a man. He admired the Minister of Public Works for not being a weakling, in fact that minister was the controlling force of the government. He hoped the Minister of Lands and Mines would stand up and throw off the yoke and not be controlled by others. He could tell him that they did not dare oppose him.

Hon. Dr. Smith.

Hon. Dr. Smith thanked the member for St. John for the kind feelings expressed towards himself. As a minister he would do what he ought to do. However, he had something to say with regard to the Minister of Lands and Mines. He had been a "cooked-up staff" in his department he had added not a man. His staff was as he found it and as long as the men did the proper thing he would stand by them. He believed the suggestion of the Premier to be a valuable one and favored its adoption.

Mr. Campbell said he must protest against the bill. In the recent general election the province to create a commission for the crown lands had been thoroughly discussed. He had been opposed to any such proposition and he believed that the support which he had received in his constituency was due to that. He realized that the proposal of this bill was not the same proposition but he regarded it as the thin end of the wedge. An out and out proposition for the commission would be entirely foreign to the ideas of the people of the province to have such a commission created.

Amendment Adopted.

The amendment suggested by Hon. Mr. Foster was adopted.

Mr. Murray (Kings) asked if the provincial forester would be an official in addition to the one having charge of the classification of lands.

Hon. Mr. Smith replied that he might or might not be.

Mr. Pinder suggested that the charge for the protection fund be imposed on the basis of mileage instead of making a separate tax.

Hon. Mr. Smith replied that it made little difference, the question being as broad as it was long.

source the expenses of the classification of crown lands were being met.

Hon. Mr. Foster replied from the Crown lands sinking fund.

Mr. McGrath asked if under the provisions of the bill the minister could make regulations independent of the advisory commission.

Hon. Mr. Smith replied that the minister could.

Mr. Baxter said that if the minister's regulations ran counter to the opinion of the commission they would be set aside.

Mr. Michael suggested an amendment giving the Lieutenant-Governor-in-Council the power of making regulations.

Mr. Baxter said the suggestion was good and was not the only good suggestion which had been made by the member from Madawaska.

Hon. Mr. Smith agreed with the suggestion and the bill was amended on his motion.

The bill was reported with amendments.

It being six o'clock the House rose to meet again at eight o'clock.

Night Session.

Hon. Mr. Tweeddale, when the house resumed at eight o'clock, laid upon the table the annual report of the department of agriculture.

The house went into committee with Mr. Leger (West.) in the chair and took up consideration of the bill relating to the high cost of living. The bill authorized any city, town or municipality to borrow from a chartered bank a sum not exceeding \$50,000 to be used for purchasing food, fuel, seeds for production purposes, feed required for live stock and other necessities.

Hon. Mr. Tweeddale had the bill amended by adding the word "fertilizer" to the list of commodities. Agreed to as amended.

The committee next went into consideration of the bill for prevention of forest fires. Section 3 declares that from the 15th day of April to the 15th day of October shall be known as the close season in respect to the setting of forest fires and empowers the minister to extend the season when it is rendered necessary by circumstances of unusual danger.

Mr. Murray (Kings) said that he was heartily in accord with the principle of the bill. The province had suffered heavily from fire losses and a stringent fire law was necessary.

Mr. Campbell thought the section of the bill relating to the burning of debris might interfere with the activities of St. John people who owned summer cottages outside of the city. He thought they should be allowed to burn up rubbish about their places even though such places were within half a mile of the forest.

Hon. Mr. Smith said he did not think that the bill would prevent that from being done.

Mr. Murray (Kings) did not think the bill was intended to apply to cases of the kind mentioned by the hon. member from St. John.

Mr. Smith (Carleton) thought that permits to set fires for clearing land should be issued by somebody in the neighborhood familiar with conditions.

Hon. Mr. Smith did not think the bill would impose any hardship.

Mr. Peek thought that if the act was to go into force before stream driving operations started in the spring it would be necessary for the committee to exercise a little more speed in passing it.

Mr. Tilley expressed the opinion that it would be a hardship to compel some of the branch railways to maintain fire patrols as they did not have enough employees.

Hon. Mr. Foster explained that branch lines under the jurisdiction of the railway commission for some years had been compelled to maintain fire patrols in May and June. This bill was to compel branch lines not under the railway commission to do likewise.

Mr. Tilley objected that it was not reasonable to hold a railway responsible for any fire which might originate within 300 feet of its right of way.

Hon. Mr. Robinson objected to the fire law in force in Westmorland county being repealed by this bill. The people of Westmorland should be commended for the excellent law which they had in force for fifteen years. Under it the result had been so good that it would be well to retain the law. An organization already existed.

Hon. Mr. Smith said he did not agree with the member from Moncton. It was true that Westmorland county had an excellent fire law and the results under it had been good. Westmorland had had few fires in late years, but the same was true of the province as a whole. He did not wish to reflect on Westmorland in any way but it would not be fair to have the owners of wild lands taxed for fire protection and not give them that protection. He had talked with some of the large holders of wild lands and had learned that they were favorable to the new system.

Mr. Sutton said the bill was admirable and he expected it would accomplish good results, but he thought it should contain a provision prohibiting cigarette smoking.

Hon. Mr. Smith replied that such provision was in the bill. The bill was agreed to as amended.

Adjourned at 10.25.

Reduce Your Fat Without Dieting

Years ago the formula for fat reduction was "diet"—exercise. Today it is "Take Marmola Prescription Tablets." Friends tell friends—doctors tell patients, until thousands know and use this convenient harmless method. They eat what they like, and still lose their two, three or four pounds of fat a week. Simple, effective, harmless Marmola Prescription Tablets are sold by all druggists—a large case for 75c. Or if you prefer, you may write direct to the Marmola Company, 864 Woodward Ave., Detroit, Mich.

FUNERALS

The remains of Charles Parlee were taken to Millstream yesterday morning for interment. Service was held by Rev. N. McLaughlin on Monday evening.

Mr. George Dow was buried yesterday.

GAS, HEARTBURN, INDIGESTION OR A SICK STOMACH

"Pape's Diapiesin" ends all stomach distress in five minutes.

Time it! Pape's Diapiesin will digest anything you eat and overcome a sour, gassy or out-of-door stomach surely within five minutes.

If your meals don't fit comfortably, or what you eat lies like a lump of lead in your stomach, or if you have heartburn, that is a sign of indigestion.

Get from your pharmacist a fifty-cent case of Pape's Diapiesin and take a dose just as soon as you can. There will be no sour risings, no belching of undigested food mixed with acid, no stomach gas or heartburn, fullness or heavy feeling in the stomach, nausea, debilitating headaches, dizziness or intestinal griping. This will all go away, besides, there will be no sour food left over in the stomach to poison your breath with nauseous odors.

Pape's Diapiesin is a certain cure for out-of-order stomachs, because it takes hold of your food and digests it just the same as if your stomach wasn't there.

Relief in five minutes from all stomach misery is waiting for you at any drug store.

These large fifty-cent cases contain enough "Pape's Diapiesin" to keep the entire family free from stomach disorders and indigestion for many months. It belongs in your home.

day afternoon from her late residence, 145 Prince street. Rev. W. R. Robinson officiated. Interment at the Good Shepherd cemetery.

The funeral of Guy H. Vincent took place yesterday afternoon. Rev. David Hutchinson conducted service and interment was made at Gondola Point.

The funeral of Mrs. J. E. Tighe took place at 8.45 o'clock yesterday morning from her late residence, 407 Main street, to St. Peter's church, where solemn requiem high mass was conducted by Rev. John F. Coghlan, C. SS. R., with Rev. F. Healy, C. SS. R., deacon, and Rev. P. O'Hare, C. SS. R., sub-deacon. The service was very largely attended and the floral tributes were very beautiful. Among these was a wreath from the Longshoremen's Association and a cross from the Trades and Labor Council. Interment was in the new Catholic cemetery.

At this time of the year Dr. Wilson's Herbine Bitters are specially valuable. The blood is apt to be clogged with impurities which are the cause of headaches, indigestion and that tired feeling which comes with the Spring.

Dr. Wilson's Herbine Bitters have stood the test of fifty years and have proved to be a true blood purifier.

Dr. Wilson's Deschamps Worminix is a safe cure for children.

CARTER'S LITTLE LIVER PILLS

YOUR LIVER IS THE BEST BEAUTY DOCTOR

A dull, yellow, lifeless skin, or pimples and eruptions, are twin brothers to constipation. Bile, nature's own laxative, is getting into your blood instead of passing out of your system as it should.

This is the treatment, in successful cases, for 50 years—only one pill daily (more only when necessary).

CARTER'S LITTLE LIVER PILLS

Genuine Bears Signature

Colorless faces often show the absence of iron in the blood. Carter's Iron Pills will help this condition.

SCHOOL GIRL TELLS OTHERS

How They Can Find Relief From Periodic Sufferings.

Nashua, N. H.—"I am nineteen years old and every month for two years I had such pains that I would often faint and have to leave school. I had such pain I did not know what to do with myself and tried so many remedies that were of no use. I read about Lydia E. Pinkham's Vegetable Compound in the newspapers and decided to try it, and that is how I found relief from pain and feel so much better than I used to. When I hear of any girl suffering as I did I tell them how Lydia E. Pinkham's Vegetable Compound helped me. DEBRA MARTIN, 29 Bowdoin St., Nashua, N. H. Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotic or harmful drugs, therefore is a perfectly safe remedy to give your daughter, who suffers from such painful periods as did Miss Martin.

The reason so many girls write Lydia E. Pinkham Medicine Co., Lynn, Mass., for advice, is because from their 40 years experience they have a store of knowledge which is invariably helpful.

You Get Better Cough Syrup by Making it at Home

What's more, you save about \$2 by it. Easily made and costs little.

You'll never really know what a fine cough syrup you can make until you prepare this famous home-made remedy. You not only save \$2 as compared with the ready-made kind, but you will also have a more effective and dependable remedy in every way. It overcomes the usual coughs, throat and chest colds in 24 hours—relieves even whooping cough quickly.

Get 2½ ounces of Pinex (50 cents worth) from any good drug store, pour it into a 16-oz. bottle and fill the bottle with plain granulated sugar syrup. Here you have 16 ounces of family syrup—of the most effective cough syrup money can buy—at a cost of only 55 cents or less. It never spoils.

The prompt and positive results given by this pleasant tasting cough syrup have caused it to be used in more homes than any other remedy. It quickly loosens a dry, hoarse or tight cough, breaks the inflamed membrane that lines the throat and bronchial tubes, and relief comes almost immediately. Splendid for throat tickle, hoarseness, bronchitis, croup and bronchial asthma.

Pinex is a highly concentrated compound of genuine Norway pine extract and has been used for generations for throat and chest ailments.

Avoid disappointment by asking your druggist for "2½ ounces of Pinex" with full directions and don't accept anything else. A guarantee of absolute satisfaction or money promptly refunded goes with this preparation. The Pinex Co., Toronto, Ont.

Doctors Stand Amazed at Power of Bon-Opto to Make Weak Eyes Strong—According to Dr. Lewis

Guaranteed to Strengthen Eyesight 50% In One Week's Time in Many Instances

A Free Prescription You Can Have Filled and Use at Home.

Philadelphia, Pa.—Victims of eyestrain and other eye weaknesses, and those who wear glasses, will be glad to know that according to Dr. Lewis there is real hope and help for them. Many whose eyes were failing say they have had their eyes restored by this remarkable prescription and many who once wore glasses say they have thrown them away. One man says, after using it: "I was almost blind. Could not see to read at all. Now I can read everything without my glasses and my eyes do not hurt any more." At night they would pain dreadfully. Now they feel fine all the time. It was like a miracle to me." A lady who used it says: "The atmosphere seemed hazy with or without glasses, but after using this prescription for fifteen days everything seems clear. I can read even fine print without glasses." Another who used it says: "I was bothered with eye-strain caused by overwork, tired eyes which induced severe headaches. I have worn glasses for several years both for distance and work, and without them I could not read my own name on an envelope or the typewriting on the machine before me. I can do both now and have discarded my long distance glasses altogether. I can count the guttering leaves on the trees across the street now, which for several years have looked like a dim green blur to me. I cannot express my joy at what it has done for me."

It is believed that thousands who wear glasses can now discard them in a reasonable time and multitudes more will be able to strengthen their eyes so as to be spared the trouble and expense of ever getting glasses. Eye

troubles of many descriptions may be wonderfully benefited by the use of this prescription. Go to any active drug store and get a bottle of Bon-Opto tablets. Drop one Bon-Opto tablet in a fourth of a glass of water and let it dissolve. With this liquid bathe the eye two to four times daily. You should notice your eyes clear up perceptibly right from the start and inflammation and redness will quickly disappear. If your eyes bother you even a little it is your duty to take steps to save them now before it is too late. Many hopelessly blind might have saved their sight if they had cared for their eyes in time.

Note: Another prominent Physician to whom the above article was submitted, said: "Yes, the Bon-Opto prescription is truly a wonderful eye remedy. Its constituent ingredients are well known to eminent eye specialists and widely prescribed by them. I have used it very successfully in my own practice on patients whose eyes were strained through overwork or mist glasses. I can highly recommend it in cases of weak, watery, aching, smarting, itching, burning eyes, red lids, blurred vision or for eyes inflamed from exposure to smoke, sun, dust or wind. It is one of the very few preparations I feel should be kept on hand for regular use in almost every family." Bon-Opto, referred to above, is not a patent medicine or a secret remedy. It is an ethical preparation, the formula of which is printed on the package. The manufacturers guarantee it to strengthen eyesight fifty per cent. in one week's time in many instances or refund the money. It can be obtained from any good druggist and is sold in this city by Wasson's Drug Store and others.

Hon. Mr. Smith thanked the member for St. John for the kind feelings expressed towards himself. As a minister he would do what he ought to do. However, he had something to say with regard to the Minister of Lands and Mines. He had been a "cooked-up staff" in his department he had added not a man. His staff was as he found it and as long as the men did the proper thing he would stand by them. He believed the suggestion of the Premier to be a valuable one and favored its adoption.

He realized that the proposal of this bill was not the same proposition but he regarded it as the thin end of the wedge. An out and out proposition for the commission would be entirely foreign to the ideas of the people of the province to have such a commission created.

The amendment suggested by Hon. Mr. Foster was adopted.

Mr. Murray (Kings) asked if the provincial forester would be an official in addition to the one having charge of the classification of lands.

Hon. Mr. Smith replied that he might or might not be.

Mr. Pinder suggested that the charge for the protection fund be imposed on the basis of mileage instead of making a separate tax.

Hon. Mr. Smith replied that it made little difference, the question being as broad as it was long.

ALMOST everybody is living under a tense nervous strain during these trying times, but the burden rests particularly heavy on the women in the home. Whatever their employment about the house, the mind has much time to dwell on the dreadful things that might happen.

There is nothing so wearing on the nerves as worry and anxiety. Nerve force is consumed at an enormous rate, and as the nerve cells become starved and depleted you find yourself unable to rest or sleep. You soon get so you can only see the dark side, and become down-hearted and discouraged.

Headaches, neuralgic pains, indigestion and failure of the vital organs to properly perform their functions are among the symptoms which tell of exhausted nerves and low vitality.

Dr. Chase's Nerve Food will help you if you will only give it a chance. We know this from long experience with this great food cure. We have proven it by evidence published in this paper from time to time. It only remains for you to put it to the test.

You may wonder why people are so enthusiastic in recommending this treatment for the nerves. But you will stand after you have experienced the benefits that are to be obtained by its use.

You will find yourself r-sting and sleeping better, appetite and digestion improved and you will know again the joy of good health.
