P., to this the Governor determined to visit the interior in person ; and the ac ount of the collision important and responsible office. The new which was brought to him by a deputation from the miners at Fort Yale and Fort Hope was given with such minuteness, detailing the massacr- of 45 white men and the commison of other strocities, and the demand for as-istance was so pressing, that the Governor me de a requisition upon Her Majesty's naval and military officers on the station for men to acc upay bim to support the civil authorities if necessary. I secompanied this party, and now give you

the jott ngs of the trip. I regret the delay in forwarding this letter

but I coold at help it, for the last mail by which I min pied to chovey it, left a few bour before I get back to Victoria. The Governor had with him 22 non-com-

missioned officers and men of the Royal Marines, and Lieutenant Jones, R. M., in char e, 'rom the Satellite; and 14 poncommission d ficers and m-n of the Reval Engineers, and Major J. S. Hawkins, R. E. who commanied the party. Mr. Bauerman the Geal gist of the British Boundacy Commission now engaged in this country in " fixing" the line of demarkation between ourselves and our " cousins," accompanied the

party. We left Esquimalt Harbour, near Victoria late in the evening of August 30, and early next morning anchored off Point Rober's near the mouth of Fraser River. Point Roberts is a narrow perinsula which runs into the Gull of Georgia, and some interest attaches to it at pre-cut from the fact that the 49th parellel of north latitude, which is the boundary line between the British and American possessions crosses the point, giving to America a small portion of the northern exwhat I think sgain in my life !" tremity of it, as determined by the astronomers of the two pations on the commission .--A joint national monument is to be erected

Some of us land dat Point Roberts, and visited the pot marked as the boundary .--The first portion of the new colony of British Colombia which I touched promised to justify the high evlogious 1 had heard passed upon the country. The scenery of Point Roberts is rich to a degree-almost tropical in luxpriance and in colouring. The land rises gently from a shore of a long, graceful, crescent-hafed hay, covered with blue sbingle, first to a strip of nerrow plateau, from whing le, first to a strip of nerrow plateau, from Nathaniel Hammond, of the Town frem the rankness of the vegetation; Douglas pine, cedar, sycemore, maple, alder, birch, lie in Upper Canada. which it rues up into a high bank, impenetrable dogwood, snowberry-covered with round BUREAU OF AGRICULTURE AND STATISTICS. white was-like flowers,- the wild cherry in Toronto, 7th December, 1858. full beaung-the fruit tempting to the eye, but bitter as quinice to the taste,-willows, wild goosberry, chrysanthemums of a light sio. let, very delicate, Michaelmas daisy, sand reeds and many other plants hustling one another for room. The first light frost of viz: au'ump had just tinged this mass of foilage, and produced the most respleadent colouring imaginable. The combination was made up saes of dark green, and colours of the alder and pine ; clumps of the rich canary, of the broad leaved maple ; the deep red of the logwood, a.d the light green of the cedars-
