MEMORANDUM FOR THE PRIME MINISTER

Mr. Cumming-Bruce of the Dominions Office telephoned this afternoon to say that a special private showing is being given at the Air Ministry at 3.45 p.m. on Thursday of a film to show the results of the use of atomic bombs. Mr. Cumming-Bruce thinks that the major portion of it relates to research and studies that have been performed in Japan since the occupation. Mr. Attlee and Mr. Bevin are expected to attend, and notice of the showing is also being sent to Field Marshal Smuts. Those making the arrangements would like to know, in advance, whether you expect to be present, and are extending the invitation to include other members of the Canadian Delegation.

*I can't say, but hope to
say to someone &
attend*
