

"Dr. Stewart's connexion with the Faculty of Medicine has been a long and brilliant one. From the moment of his arrival in Montreal in 1883 he was intimately connected with the work of the Faculty, as Registrar, and as Professor of *Materia Medica* and Therapeutics. Subsequently he was appointed to the Professorship of Clinical Medicine, and later to the combined Chair of Clinical Medicine and Theory and Practice.

"In addition to his University appointments he was intimately associated with the hospitals of Montreal, as Attending Physician—first in the Montreal General Hospital, and subsequently in the Royal Victoria Hospital.

"As a teacher Dr. Stewart earned an enviable reputation for simplicity, and lucidness, an intimate knowledge of the literature, and the power of presenting tersely the salient features of his subject.

"As a physician his practice was characterized by sound judgment, wisdom, and never failing common-sense, which never lost itself in useless verbiage,—qualities which assured him ample recognition by the medical profession and the public, not only in Montreal, but in the Dominion at large.

"His reputation was further enhanced by numerous and valuable contributions to the literature, particularly in the domain of neurology, to which he devoted special attention.

"To these qualities of the mind were added those of the heart, which most appealed to his patients—a quiet but none the less deep sympathy,—a readiness at all times when called upon to render assistance, and a steadfastness that knew no wavering.

"In private life his conduct was marked by a high sense of honour and truth, and a desire to fulfil in all respects the highest ideals of his profession. Of a retiring disposition, he was ever averse to the publicity which his many talents and high position might have gained him, though he was the recipient of many honours which were not of his seeking, but were a tribute to the esteem in which he was held by the profession in Canada and the United States.

"In this brief and inadequate testimony to their late colleague the Members of the Faculty of Medicine desire not only
