

Readers' Choice of Best Books

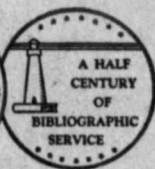

The *Readers' Choice of Best Books* was devised to fill need for an economical, monthly, descriptive list for assistance in the selection of new books, similar to lists distributed by and circulating libraries.

The chief problem was to provide lists sufficiently long to serve a useful purpose and yet limited to books likely in small libraries.

This problem was solved happily by limiting the lists to forty books monthly in various classifications and those best most likely to be recommended in the Standard Catalog, most extensively used book buying guides.

Shipments are made in time to reach all libraries the *Readers' Choice* by the first of the month for which it is dated. About the 10th of each month an advance annotation of books to be included for the following month is mailed to libraries to provide valuable service within itself.

The low prices shown below are made possible by the fact that the *Readers' Choice* is preprinted monthly from the *Wilson Bulletin*, thus saving typesetting and other costs.
