

REMINGTON TYPEWRITER

The history of the REMINGTON shows a steadily rising tide of popularity and success.

It is absolutely unrivalled for all the essential qualities of a first-class writing machine.

Sole Dealers,

LONDON and VICINITY.

- 1867. First invention of the Typewriter now known as the Remington Standard. A few machines made by hand during this and the following years.
- 1873. The repeated experiments of the inventors having somewhat improved upon the first crude attempts, it was brought to the Remington factory, at Ilion, N. Y.
- 1874. After more than a year of painstaking labor on the part of many able mechanical experts, the first Remington-made machines were put upon the market.
- 1880. Six years after, only 1,000 machines had been sold. The public were slow to realize the value of the invention.
- 1882. The number increased to 2,800 machines.
- 1885. 5,000 machines were sold this year. It grew in popular favor. In
- 1890. Sales had risen to 30,000 machines per annum.
- 1892. Found a production of 100 machines per day inadequate to supply the still rapidly increasing demand. We have planned extensive additions to our factory, to enable it to keep pace with all demands.
