

DAIN HAY LOADERS

are guaranteed to rake from the swath or Side-delivery Rake winrow, and to do it clean. Have more improvements than are found on any other machine. Rakers can be raised or lowered. They push the hay up on the load—do not draw it back like the return-carrier machine. Can push the hay three to four feet higher than the loader itself. Has steel wheels. The adjustable drop-gate is a perfect device for windy days. This machine, when used in connection with the Dain

SIDE-DELIVERY RAKES,

makes the best hay with greater ease than any other method. Send for circulars and prices to

IT PAYS TO

The spring term is one of the best in which to enter. The winter rush is now over, and those who have entered in January are well started in their work. Teachers can, therefore, give more time to new students. It is now current talk throughout the country that the student who intends to take a business or shorthand course, and wants to be placed in a paying place when graduated, should attend the

Canada Business College,
Chatham, Ont.

Students of last year already earning over \$1,000 per annum. 346 placed in 11 months. Do you know of any other business school getting such results? We pay your railway fare. Have you ever seen our catalogue? If not, write for it and enter now. Address,

Alfalfa and Corn Meal.

Five lots of cattle of the same grade and of nearly the same weights were fed in Oklahoma last winter on various feeds, the results showing that those fed on alfalfa hay and corn meal produced the greatest amount of meat. This lot dressed out 59.2 per cent., with a shrinkage of only 35 per cent., and sold on the Kansas City market at \$4.45, April 4.

The steers in this lot gained 317 pounds from Nov. 11 to March 30, a daily average gain of 2.27 pounds.

A lot of cattle fed on cotton-seed bran, shelled corn, prairie hay and wheat straw made the poorest showing. They dressed out 56.7 per cent., showing a shrinkage of 53 per cent., although they brought \$4.20 on the market.

Another lot fed on four parts cotton-seed and eleven parts Kafir-corn meal, and alfalfa hay and wheat straw, dressed out 58.7 per cent., but showed a shrinkage of 39 per cent.

Canada at the St. Louis Fair.

Canada's agricultural and mining exhibits are both very fine. But on the whole, Canada is not adequately represented. The money voted by Parliament has been well spent, but the Dominion should spend enough money on these world's fairs or spend nothing. It is useless to rank as a mere State of the Union. Canada is an empire in herself, and should so exhibit herself to the world. The Canadian building is a nice little affair, but there is nothing striking about it. It is, in fact, insignificant. The average Canadian feels that in the vast display of buildings and the miles upon miles of exhibits his country makes scarcely any impression. However, the best has been done with the money voted. The rigid economist who feeds his horse on one oat per day should be well pleased with Canada's place in the Exposition. The man who thinks it foolish to spend money on advertising should be delighted. The Canadian officials in charge are competent and energetic. With limited means they have done well.—[Toronto News.

TRADE TOPICS.

PURE SEED is the most certain means to a large crop. Just before the land is prepared for beans, rape, tares, corn, or, in fact, any variety of crop, place your order for pure seed with J. A. Bruce & Co., of Hamilton, Ont. Their line of selected and tested field seeds is, without question, the most reliable to be found on any market. Long years of experience in catering to the particular demands of a critical clientele places this firm in the very forefront for seed supplies.
