

The Roof That You Needn't Worry About

There's an ease of mind and a sense of security enjoyed by the man who has his buildings roofed with Rex Flintkote. He knows that water cannot get through it, winds cannot blow it off, falling sparks cannot ignite it.

REX FLINTKOTE ROOFING

is made of compressed wool felt impregnated with special water, fire and wear-resisting compounds. It affords more thorough protection than any other known roofing material.

KOOTENAY FRUIT LANDS

Finest locations on KOOTENAY LAKE near town of Kaslo. 160 Acres, deep, rich, brown, loamy soil, the finest on the lake for fruit. Splendid creek gives abundance of water and water-power.

175 Acres, adjoining the above, same ideal location, same soil, and water facilities. Large clearing planted as garden.

Nearly all this land was heavily swept by fire last fall, which left land almost clear. Good wagon road to town and an excellent wharf on property where steamers call, afford best of transportation.

The strong points in these lands are:—Very best soil for fruit, easy clearing, abundance of pure water, excellent transportation, fine lake frontage and superb view. It cannot be beaten. Very reasonable price and easy terms.

760 Main St.

P.O. Box 481, Winnipeg, Man.

In the horse-department classification, Iowa State Fair for 1907, the premiums aggregate about \$3,000. The stall fees have been reduced to a merely nominal charge. A new classification has been added for American carriage horses. This was the first classification of the kind offered at any state fair or public show. Similar classifications have since been adopted by Kentucky and several other fairs. The contract has just been let for a new \$10,000 horse barn on the grounds. This will constitute the first section of a barn that when completed will have a capacity of over six hundred horses, erected at a cost of \$75,000 or \$80,000.

The Galbraith's have had a very busy season in spite of the backwardness and reluctance of many to launch out in new ventures. Amongst recent sales are the Clydesdale stallion Freeland, winner of second at Brandon spring show, to a syndicate at Birtle. Sir Hector to Moore & Haussamen, Grafton, North Dakota; Galloway, by Balmedie Queen's Guard, to Bate, Moore & Burton, of Ninga; Silver Light, to Sam McLean, Franklin; Baron Templeton, by Baron's Pride, to D. Louth, Elgin; the Shire stallion Roval John and the Shire mare Eskham Queen, to John Stott, Brandon; the Belgian Stallion Champagne de Berthen to H. Tennant & Sons, Coutts, Alberta; the noted pacing stallion Mackenzie, to Thomas Bate, Ninga; the Percheron stallion Marine to a company at Kimball, Alta; two Percherons and two Clydesdale stallions to T. B. Jenkinson, Medicine Hat; a Baron's Pride horse to P. B. Field, Moss Lake, Sask.; a Percheron stallion to Mr. Bull, Yorkton; a Clydesdale stallion at Strathclair; the Clydesdale stallion Hazeldean, winner of first prize at Brandon spring show, to a syndicate at Miniota; a pair of Clydesdale mares to W. R. Doble, Beulah; three imported mares to A. S. Porter, Kisbey, Sask.; one mare to Thos. Perdue, Souris; two mares to Wm. Lidster, Birtle, etc., etc.

MELROSE STOCK FARM.

Some five miles south and a little east of Hamiota (C. P. R.) is the Melrose Stock Farm owned by Geo. Rankin & Sons, and there among the trees and bluffs are being carried on live stock breeding operations with Clydesdales and Shorthorns, the magnitude of which many of our readers are unaware of. Some breeding studs get a good deal of publicity from the show-ring or by importing stock, but the Rankins have gone on their way quietly and steadily with the one object in view, to produce the best. That they have succeeded pretty largely is shown by recent sales, a home-bred three-year-old Clydesdale stallion bringing them \$1,000 just recently. There is a big advantage in buying Rankin-bred stuff. It is acclimated bred, right and is fed so that it goes on. Several Shorthorns bred by them and exhibited by others have made an enviable record at the big shows of Western Canada. They have been fortunate in their stallion which has proved a breeder and a sire of good wearing horses. The fad of extreme quality of bone and abnormally long and sloping pasterns has not been allowed to swerve them from breeding draft horses; as a result people are keen to get Clydesdales bred at the Melrose Stock Farm. Some very promising yearling stallion colts were seen, one out of Lady Kenmuir, the dam of Little Bobs, a Winnipeg winner in 1900, a well grown colt and thoroughly acclimated. Another colt, a big one, is out of Nancy Lee, which produced the \$1,000 fellow. A mare, Nelly Lee, out of Nancy Lee, by McBain, was also seen, a big brown mare, splendidly muscled, with a good bread-basket and the right quality of bone. Another valuable mare is the big bay Lady McBain, also out of Nancy Lee, one of the drafty sort and with plenty of quality to satisfy.

Nancy Lee, the mother of several, is a big brown mare and as the records above show, a grand breeder; she is a well muscled mare, with plenty of bone and quality. A rather good colt is

REMARKABLE INVENTION

FOR THE Culture of Hair

THE EVANS VACUUM CAP is a practical invention constructed on scientific and hygienic principles by the simple means of which a free and normal circulation is restored throughout the scalp. The minute blood vessels are gently stimulated to activity, thus allowing the food supply which can only be derived from the blood, to be carried to the hair roots, the effects of which are quickly seen in a healthy, vigorous growth of hair. There is no rubbing, and as no drugs or chemicals of whatsoever kind are employed there is nothing to cause irritation. It is only necessary to wear the Cap three or four minutes daily.

60 DAYS' FREE TRIAL!

The Company's Guarantee:

An EVANS VACUUM CAP will be sent you for sixty days' free trial. If you do not see a gradual development of a new growth of hair, and are not convinced that the Cap will completely restore your hair, you are at liberty to return the Cap with no expense whatever to yourself. It is requested, as an evidence of good faith, that the price of the Cap be deposited with the Chancery Lane Safe Deposit Company of London, the largest financial and business institution of the kind in the world, who will issue a receipt guaranteeing that the money will be returned in full, on demand, without questions or comment, at any time during the trial period.

The eminent Dr. I. N. LOVE, in his address to the Medical Board on the subject of Alopecia (loss of hair) stated that if a means could be devised to bring nutrition to the hair follicles (hair roots), without resorting to any irritating process, the problem of hair growth would be solved. Later on, when the EVANS VACUUM CAP was submitted to him for inspection, he remarked that the Cap would fulfil and confirm in practice the observations he had previously made before the Medical Board.

Dr. W. MOORE, referring to the invention, says that the principle upon which the Evans Vacuum Cap is founded is absolutely correct and indisputable.

An illustrated and descriptive book of the Evans Vacuum Cap will be sent post free, on application.
