# Opportunity

There are Four Things which never  
come back

*The Spoken Word*  
*The Sped Arrow*  
*The Past Life*  
*The Neglected*  
*Opportunity*

THERE is an old saying that "Opportunity has hair in front and is bald behind. If you seize her by the forelock you may detain her, but if you suffer her to escape not even Jupiter himself can catch her again."

Many people do with "Opportunity" as children do at the sea-shore---they fill their hands with sand and let the grains fall through, one by one, till they are gone.

This is the day of the farmers' opportunity, with a new country where new institutions and new lines of business are coming up. Why not change the order of things? The old methods have been a failure so far as the farmer was concerned; he produced the wealth and handed it over to other corporations for distribution, getting back the measly share they grudgingly gave him.

Think this over and decide to help build up a new order of things.
