PYRO Roofing

Unaffected by Heat, Cold, Sun or Rain

Not made with a Coal-Tar Composition nothing but Felt and Trinidad Lake Asphalt.

PYRO is a first-class roofing in every respect and the best article on the market for covering roofs at low cost. Its advantages over other prepared or Ready" roofings is due to the fact that there is no coal tar used in PYRO. This means that it does not dry up and become brittle under exposure to the heat of the sun. For this reason it retains its strength and pliability almost indefinitely, instead of becoming hard and cracking, as do roofings made of substitutes for natural asphalt.

Put up in Rolls containing 108 Square Feet, with

Cement and Tacks - all ready to put on the roof. Price, f. o. b. St. John, \$2.25 per Roll complete

On quantities we will quote you a Special Price delivered at your nearest Railway or Steamboat Landing.
