THE INCREASE IN TEACHERS SALARIES.

There will be very few to question the proposed increase in the salaries of Brantford teachers The calling is one of the most important of modern professions for all are agreed that the suitable education and training of the young is of vital moment to the maintainance and welfare of the State. Hitherto the remuneration for such services has been notoriously inadequate, in most cities to a notable extent and in country districts quite generally so, as low a stipend as \$500 being often recorded. The adequate teacher has to spend a lengthy period in suitable preparation for the calling and then the monetary returns are often such as to be barely sufficient to keep body and soul together. The disparity between what is expected and what is paid has long been a crying shame. In all probability the lengthy summer holidays have served as very much of an incentive and also the der such as the brutes practiced short working day with every Saturday free. Right here the question arises as to whether the paucity of the outcasts of the world and pay has not also been yoked up with an extravagance of vacation. Take on this bas.s. Brantford as an example. Tens of thousands of dollars are invested in buildings and the demand is all the time for additional expenditure in this regard, yet those structures are closed for weeks each summer and only used for a very small por-

Spera, Hamilton, Lady Eames, feet which came near putting me out Brantford, Lady A derson, St Catheren which came near putting me out an attack of grippe and I simply got to where I was just about down and out. My whole body seemed full of neuralgia and rheumatism, and I ached all over. Every joint in me ached, and the pain in the left side of my back, over my kidnéys was so severe at times that I could hardly

stand it. Nothing did me any good, and finally I just had to give up my position, stop working entirely, and do nothing but try to find relief. My sleep was very poor, and I kept falling off in weight until I got down to one hundred and fifty pounds.

"Then I got uneasy about my condition, went to Colorado and stayed there for a while, but never did get any better until Phegan taking Tanlac, and then I commerced and only used for a very small portion of the twenty-four hours at any other perred. There should be Goyvernment insistence with regard to proper stipends and a countervalling demand in longer hours of service. In this essential and others or Cody, the new minister of Education has very great opportunities awaiting him which it is to be sincerely hoped he will grasp.

The BRITISH CONTEST.

To-day witnesses the close of the electoral fight in Great Britain and the outcome would seem to indicate the sustaining of the Union.

BOY'S SUIT.

Every schoolboy claims the divine right of being dressed in sturdy clothes which resemble as nearly as possible those worn by his father-that is, a tailored shirt and trousers with plenty of porkets. This ideal combination is given in pattern No. 8780. The shirt has a box plait at centre front and a convenient breast pocket is stitched on the left side. The back is slightly gathered to the shoulder roke. The long sleeves are fini-bed with mannish tailored plackets and cuffs. A soft turnover collar is attached to the neckband. The lower edge of the blouse may be finished in two ways-by cutting off at the perforations and making a parrow hem for the blouse, which is pulled down as a shirt, or a casing may be made and elastic used to form a blouse. The knickerbockers are separate.

The boy's suit pattern No. 8780 is cut in five sizes-4 to 12 years. In the 8 year size the blouse requires 1% rards 36 inch and the knickerbockers 1% yards 36 feeb material and 1/8 yard 36 inch lining.

To Obtain This Pattern Send 15c to The Courier Office, or two for 25c.

# Are You Denying Your Children?

OCTORS and health authorities all the world over agree that only one family in every nine uses enough milk.

The leading food experts say that if you want to save money in these times of rising food prices

-if you want to make your dollars buy the utmost in food value.

—if you want to keep your family in the best of health. -you should spend at least one cent in every five, a nickel out of

every quarter, on milk. Do you spend that much? Do your children get their proper share of

milk? Do they get pure, rich milk—milk that is made safe by scientific pasteurization? Do they get milk that comes in the modern safe way—in the bottles that are sterilized each time before use?

Begin today to use more milk from The Hygienic Dairy. Don't try to make a pint do the duty of a quart. Remember when you are buying extra milk you are buying extra
