## WHEEL OF YUKON'S PROSP

## The Result of Advertising Is Far Reaching.

The immense business which we enjoy has been honestly earned. We are legitimate merchants and have told and will tell the people about our goods in a legitimate and honest manner.

When we say you can save money at our store we mean that exactly. You know that thousands of tons of merchandise have been imported this year as in preceeding years by us. You may not know, but such is the fact, that the Northern Commercial Company at the present writing has sufficient supplies to carry all the population of this district through the closed season in comfort and, we might add in luxury. The importation of this immense stock is in keeping with the policy outlined for getting and keeping your business. We are not here to ruin competitors or create havoc with trade, but we will and must do business and that on honest, clean and legitimate lines.

L. R. FULDA, Acting Manager.

OLIATH; the Mighty, the SANDOW the Hercules, has been cruelly smitten and at last sees the error of his ways. Now that he acknowledges defeatand promises to refrain to creating ruinous competition or havor in trade we accept his apology and extend the glad hand of friendship. We trust the lesson which we taught him will be remembered. and that he will in the future live up to the manly principles he now advocates. But Goliath our die is cast. We cannot alter our principles. The prices which gave you at EMPIRE a mighty blow still obtain in our store and Gold Seal Rubbers, Strauss Overalls and Dolge Felt Shoes will continue to be sold at "ruinous prices" by us.
