question generally is : What is the matter with the paper? And when the answer is, as it is in the case of the Sun, that the paper is simply chafing under defeat upon defeat, the desired effect of the abuse is lost. The Sun says it did not use the word "sneaky" as a term of abuse. Then we have only to say that we pity its ideas of decency. Let us illustrate for our contemporary's enlightment what the word does mean. The attorney general was charged by Dr. Atkinson, at the instigation of a man whose name was not contract. The action of Dr. Atkinson's to bracket the attorney general's name nevertheless, if it is acted upon, Canada with that of a man found guilty of corrupt practices. This also was "sneaky," because it was not a manly, outspoken assault, for which the assailant could be held responsille. These are the dictionary significations of the Sun's pet word. Now we defy the Sun to take the attorney general's record from the day he entered politics until the present, and discover if it can, any business of this kind. He will find that the attorney general has at all times boldly avowed his policy and stood up in its defence. He has neither dealt in insinuations nor made attacks from behind the back of another.

HOW FAR WILL THEY GO?

THE U. S. CONGRESS. When a famous political writer was once asked how much treason a man might There is a good deal of confusion in the August? write in England without being hanged United States congress just now. Two for it, he replied that he did not know measures of great importance are before but was doing his best to find out. It is that body, one the McKinley tariff bill and begining to look as though Mr. Blaine had the other the federal elections bill, comsome such ideas in his mind in regard to monly called "The Force" bill, the object the good nature of the British govern- of which is to permit the federal authorment. He does not know just how much ities to use military force at presidential nonsense it will tolerate, but he is trying elections when it is thought a free vote to find out. Lord Salisbury suggests that cannot otherwise be obtained. The aim the Behring Sea dispute be left to arbitrais to break the solid South by giving the tion. Mr. Blaine sends his revenue cutters negro population an opportunity of voting, to the disputed waters with, it is said, which it is alleged they do not have now. peremptory instructions as to seizures. It seems clear that both these bills cannot Of course the newspapers may be putting be got through, and the republican party the thing stronger than the facts warrant: is divided as to which should take prebut the mischief of this sort of thing is cedence. The president is said to favor that public opinion gets excited, draws ' the force" bill, but the chances are that wrong inferences and compels politicians the tariff bill will hold the field. The sometimes to take courses they never in difficulty is due to the fact that the adtended to adopt. International questions are dangerous play things. It is true that the floors of congress, as it is in a British the English press and such English public parliament, and hence there is no one to men as have spoken on the subject are almost abject in their expression of a when a bill has been introduced and desire to avoid a quarrel with the United months have been spent in its discussion States. It is also true that almost any there is nothing to prevent a member surrender would be better than a war. "burking" it, if he can get support enough. But there is a point beyond which the This is the weakness of the system, because most christian forbearance ought not to be the administration may be so hampered expected to go, and beyond which a nation as to be unable to secure legislation, which cannot go and maintain its honor. There from its better opportunities of judging, it is danger that Mr. Blaine in his anxiety knows to be of great value. We express to popularize himself may strain his no opinion as to the respective merits of the Cathedral. He was met at the door by country's relations with England beyond the measures now under consideration. the breaking point. He cannot at heart desire war. He cannot imagine for an THE HERALD has been charged with atinstant that his country is prepared for tacking Dr. Harrison of the university. war. He is simply counting upon the This is not true. It only criticized in redesire of England to avoid war, and will respectable terms his course in regard to 12, "So, then, every one of us shall give

They are large and promise to be "sneaky." It was not open and above the people to think that something fit for the plough and the carriage. This charge was disproved on the solemn oath ing for it. The proposal to erect forts but already the result has repaid the outalong the frontier is supreme folly; lay more than twice over.

will have to duplicate the line of de-THE potato crop in the United States fences. Forts are useless unless garrisoned : is very unpromising. In Canada it is very so that the next thing will be a standing good. It looks as though if the McKinley army, and thus will be reproduced on bill passes, the first persons to feel the this continent the evils under which effect of the increased duty on potatoes Europe suffers. This is the outcome of will not be the Canadian farmer, but the the absurd system which has erected a yankee consumer. The restrictionist double line of custom houses from ocean crowd on both sides of the boundary will to ocean. The United States wants what find out some day that they cannot always Canada produces; Canada wants what the tell whom they are going to hit when they United States produces. Nevertheless put on an extra duty. year by year the tariff wall is made

higher, and now it is to be supplemented by a line of cannon. This is a pretty comment upon the practical good sense of the last decade of the nineteenth century.

How is that for a cool day in the last of Asheville, N. C.; Mrs. Frank Olcott Allen of

An Interesting Occasio It may be worth reminding our older readers that thirty years ago on the 4th day

of this month the Prince of Wales visited

Fredericton. What a day that was! The P. Johnson and A. E. C. Johnson, son of streets were crowded as they never were with H. R. H. on board, came alongside of Dowling's wharf, then a new and fine looking structure, so tremendous was the cheering that although every church bell in the city was clanging a welcome and those ancient pieces of ordnance, which recently adorned the officers' square, were thundering a royal salute, no one heard anything but the loud voices of the loval thousands. It was an inspiring picture. The shore was lined with people, the river crowded with small craft. Queen street, from end to end, ministration is not directly represented on was packed with people. Mayor Beek, now auditor general, who had charge of the whole arrangements in this city, received

take charge of legislation, so that even the royal visitor and escorted him to the carriage in waiting. Then the processi formed, and the prince, guarded by the York light dragoons, went up Queen street to October government house. Judge Wilmot was a striking figure in the procession, as in the uniform of a cavalry colonel he rode beside the prince's carriage. The torch-light procession in the evening will be long remembered

by those who saw it. The next day was Sunday, and the prince attended service at the bishop and escorted to his pew. Rev. J. B. Medley read the prayers; Rev. C. S. Medley the lessons and litany; Rev. Dr. Coster the epistle, and Rev. H. Pollard the Gospel. The bishop's text was Romans 14,
