HIS WIFE CO-RESPONDENT.

THE PERPLEXING MARTIAL SNARL OF JOSEPH SHACKLETON.

He Had One Wife in Jersey and One in New York—Henry Hilsley's Wife Figures as Co-Respondent for Wife No. Two.

New York, June 28.—"Marriage, Divorce and Bigamy," by Joseph Shackleton. A highly interesting legal novelette. Superior to "Dr. Jekyll and Mr. Hyde." Eysubscription only.

Mr. Joseph Shackleton has not written a book of the above title, but the facts which go to make up the romance of his Lathrop-like existence would furnish material for two novels.

Mr. Shackleton, though a modest looking man of 40 or thereabouts, has two legal wives, both of whom are suing him for divorce. No. 1 making a 2 co-respondent in her case. No. 2 making a certain dashing

Mr. Shackleton is president of the Shackleton Car Heating and Ventilating Company, being inventor of the patented used. The business office is at No. 115 Broadway, while the manufacturing plant is at Bond Road.

Mr. Shackleton further alleges a deviation from the path of rectitude in regard to his conduct with a certain Ruth Emmeline Bickell, with whom he had lived continuously since 1881, introducing her everywhere as his wife and living with her in grand style in this city.

Projecting brims springing out from a square or well-shaped crown are features of the latest round hats for early summer wear. Most of the brims of dress hats are conspicuously shaped, some protruding in front, others much wider

Henry Hilsley, the road-road man, is represented by Lawyer Henry Cook of Plainfield. His confidence in plump, pretty blonde women is badly shattered.

Two Years Imprisonment. KINGSFORD, June 28.—Rev. R. T. Burns was brought before Judge Price this morning charged with appropriating to his own use money entrusted to him by Mrs. Love while he was a clerk in the postoffice here.

Killed by Lightning. BRANTFORD, June 29.—James Karn of Beachville was struck by lightning and instantly killed during the severe storm of Wednesday. He was found two hours after the storm lying partly on his face at the roots of a tree that had struck him on the head.

WRECKS ON THE RAILWAY.

A FAST TRAIN DITCHED ON THE BOSTON AND ALBANY ROAD.

Three Persons Killed and Several Seriously Injured—A Bad Smashup on the Chicago and Grand Trunk—Canadian Passengers Among the Wounded.

New HAVEN, June 30.—The limited express which left Boston at 11 a. m. via the Boston and Albany road was ditched just outside of the city limits yesterday afternoon. Three persons were killed and several badly injured.

Miss Mary A. Brigham of Brooklyn, N. Y., who had recently been elected principal of the Mount Holyoke Seminary at South Hadley, Mass.

There were several hundred passengers on the train and the majority of them got a bad shaking up, and were more or less bruised and cut. They scattered so quickly after the accident that it was impossible to get their names. Some of them were brought in on a relief train, while others took to the horse cars from Cedar Hill.

OTHER ACCIDENTS. PORT HURON, Mich., June 29.—This morning about 8 o'clock the west-bound express train on the Chicago and Grand Trunk Railway was passing Summit, Mich., when it struck a misplaced switch and went into a ditch. The engine, tender, mail car, express car, two coaches and two Pullman cars went off and more or less wrecked, but no one was killed.

Paterson, N. J., June 28.—Four women were discovered in a room at the Hotel Hamilton, Paterson, N. J., who were engaged in the manufacture of counterfeit money. Three of the women were stretched out on the floor, half naked. The oldest, aged 60, was lying on the floor with her head on a chair near the window with her hands cuffed behind her back.

Hamilton's Crooks. HAMILTON, June 28.—Patrick O'Brien, who was arrested three or four days ago on a charge of forgery, was brought up for trial at the Police Court this morning. He said that he had work and would leave the city to go to it right away if allowed to.

severe attack. Miss Beth Elmer, of Zoutrypool, Ont., writes: "My brother and I were both taken ill with a severe attack of diphtheria, having tried other remedies, we used Dr. Fowler's Extract of Wild Strawberry, which gave immediate relief."

Mr. Wm. Oliver, of Staffs, lost a valuable dog on Tuesday, the 18th, from rheumatism. This is the second collie Mr. Oliver has lost this season.

Don't allow a cold in the head to snow and surely run into Catarrh, when you can be cured by Dr. Chase's Catarrh Cure. A few applications cure incipient catarrh. 1 to 2 boxes cure ordinary catarrh; 2 to 5 boxes guaranteed to cure chronic catarrh. Try it. Only 25c and sure cure. Sold by all druggists.

THE FASHIONS.

A Variety of Settings that Will Interest the Fair sex.

The dress materials named are of the more expensive kind. Probably the coolest cheap dress is a ginghams, although it has not so much style as satin. The latter fabric might readily pass for a foulard if it did not receive too close inspection, but it has not the cooling qualities of the former.

Black tulle is made up for traveling dresses this season, and it is not exactly for its beauty. It shows off easily, but it can be so readily brushed off that revealing the dress is considered one of its advantages.

It is made up without a lining and is quite as cool as anything with a lining. A favorite way of making up the dress is in a belted blouse waist and full skirt. The belted waist is very fashionable, and has the belt, both front and back, in the form of a yoke, and is shaped to form a yoke. The sleeves have also some ornamentation at the top.

It is noticeable that all the summer dresses made of thin fabrics, have the necks cut a little low, and that collars and cuffs have been abolished to give place to a pretty full of lace or muslin. The lace is usually fancy looking, and those ladies who have short necks, find lace has not been used for trims, but the style prevails next winter we will undoubtedly see the reappearance of the grandmother's stock of fine laces.

It is not thought necessary to wear a cap in the warm season, and the lady who has a tendency to cover the neck when they go out, if only with a wrap of lace. If the corsage is made with a simulated vest and revers, this is allowed by every one to be some excuse for going without a wrap.

On Tuesday night the 18th inst., Mrs. Boyd and Miss Thompson, accompanied by A. Symonds and John Gillespie, left for parts unknown. Boyd leaves a husband and six small children behind her. She took advantage of her husband's absence at work in the country, leaving her six small children all alone to be for themselves as best they could. The youngest is not two years old.

Dr. Liborio Lojcosmo has recently made an extensive trial of sulphonal on patients afflicted with various forms of insanity. He gave from fifteen to twenty grains at night and thirty five grains in the day-time in water. In some instances cases of insomnia he gave thirty-five grains a night and sixty grains in the day. It produced sleep almost without failure, and was otherwise a useful sedative. He never saw any ill effects from it.

Massachusetts has a new statute, which has just gone into effect, for securing more correct record of vital statistics. All doctors are required to report births, and for each birth reported the doctor gets a fee of 15 cents. No penalty is fixed for failure to report. This little fee is no great object, yet it is proper as recognizing that the State has no right to exact a gratuitous service from medical men. The language of the Massachusetts statute is odd. It requires the doctor to report all births "which he is present." Suppose the babe is born before the doctor gets there?

It is satisfactory to know, says Rev. R. T. Burns, that to some extent two germs of consumption have been discovered, the one gaseous and the other liquid. Salicylic acid, however, appears to be the more interesting success. Perhaps a better germicide may be found, yet the principle of the method of treatment is quite revolutionary. In consumption the blood contains living bacilli-tubercles, and this system introduces into the blood by injections the microbe of salicylic acid to kill the bacilli. When the bacilli are destroyed germs sustained in the accident will unite in employing counsel, and the cases will come up before the November session of the court in Woodstock. They declare that they will carry the matter to the Privy Council if necessary to secure a decision in their favor.

THE DOMINION IN BRIEF.

WHAT IS GOING ON OF INTEREST TO CANUCKS.

The happenings of a week epitomized into a column of news paragraphs for interested readers. Sir Donald Smith has accepted the appointment of chairman of the McGill University.

Serious forest fires are raging on the mountains between Bonf and Donald in the North-West. The French-Canadians have selected Dominion day to celebrate the festival of Jean Baptiste.

The Scott Act was sustained in Drummond county, Que., by a majority of 152 votes. The Government have decided to subsidize fourteen miles of the Niagara Central railway.

Mr. Fred D. Barwick, of Toronto, has been appointed Post-office Inspector for the Toronto division. Preparations are now being made at Kingston penitentiary to return to the cellular subdivision plan of imprisonment.

Assistant State Attorney Baker, of Ippan, has arrived in Winnipeg with the papers for the extradition of Martin Burke. The Bishop of Ontario has deposed from his office Rev. T. Burns, recently sent to the penitentiary for embezzlement.

Work is to be begun to-day on the Winnipeg and South-Eastern railway, which is the longest line yet being constructed in the West. Major Nash, of the Royal Military College, Kingston, has purchased some carrier pigeons with a view to starting a carrier pigeon service in Canada.

Sir John Lester Kaye has sixteen hundred acres under crop on his Belgrave farm in the North-West, and the entire crop is said to be in splendid condition. It is understood that at the meeting of the Dominion Cabinet the agreement with Mr. W. H. Anderson for the last Atlantic mail service was signed, sealed, and delivered.

It is stated that Sir Adolphe Caron has promised to send for a report of the alleged incendiary speech delivered by Col. Amyot at the Cartier-Brebeuf banquet in Quebec recently. Bishop Cleary has announced that he has no desire to be promoted to the Archbishopric of Waterford and Lismore, and had requested the Pope to permit him to remain in Kingston.

Mr. John Charlton, M.P., is of the opinion that if the Dominion Government do not remove the duty on logs before Congress meets, they will find that the Washington authorities will retaliate by increasing the lumber duties. Mayor Clarke will remain in London till the middle of July to complete formalities in connection with the Toronto loan. He will then visit provincial centres to convince into drainage and other municipal matters, and will leave for home on August 7.
