### Tim Shannahan Congratulates Referee Higgins

We were delighted to find that the Football League presented the popular referee of the football matches, Mr. Higgins, with a gold watch.

Tucker and myself have attended the football matches for years, and always found Mr. Higgins on the field, ready to perform his duties. On blowy nights, when the rain came down, or on balmy evenings, will was ever on the alert, and the success of football in this city is in no small measure due to the energy displayed by the popular referee.

He has had some knotty questions to decide in the heat of a closely contested game, but by his tact and keen judgement has always been able to smooth over any little grievances that might arise.

We have been on the field when the sky looked murky, and the wind would pierce a rhinoceros, when things looked blue and few spectators put in an appearance, still the referee was there, and by his pushing way and the shrilly toot of his whistle aroused the enthusiasm of players, who might be inclined to take things easy.

If we had a "take-it-easy" referee, it is questionable if the game would retain its popularity for so many years, but with such a man as Higgins for referee all had to feel as he felt, full of the game.

We hope that this presentation doesn't mean the retirement of "Billy" from the field, but on the contrary that it foreshadows a new lease of the refereeship for many years to come.

Mrs. Tucker, Tucker and myself wish to congratulate him, for it is an honour that any man may well feel proud of.

Coming events they say cast their shadows before, and is it too much to expect that the appreciation of his efforts as judge in the football games, may be a fore-shadowing of the delight that we all will feel in years to come in seeing Mr. Higgins raised to the Judicial Seat of the Supreme Court.

TIM SHANNAHAN.

### Indigestion is Ended Forever.

No Heartburn, Gas, Dyspepsia or Headache five minutes later.

Nothing will remain undigested or sour on your stomach if you will take a little Diapepsin occasionally. This powerful digestive and antacid, though as harmless and pleasant as candy, will digest and prepare for assimilation into the blood all the food you can eat.

Get what your stomach craves without the slightest fear of indigestion or that you will be bothered with sour risings, Belching, Gas, on Stomach, Heartburn, Headaches from stomach, Nausea, Bad Breath, Water Brash or a feeling like you had swallowed a lump of lead, or other disagreeable miseries. Should you be suffering now from any stomach disorder you can get relief within five minutes.

If you will get from your pharmacist a 50-cent case of Pape's Diapepsin you could always go to the table with a hearty appetite, and your meals would taste good, because you would know there would be no indigestion or Sleepless nights or Headache or Stomach misery all the next day; and besides, you would not need laxatives or liver pills to keep your stomach and bowels clean and fresh.

Pape's Diapepsin can be obtained from your druggist, and contains more than sufficient to thoroughly cure the worst case of Indigestion or Dyspepsia. There is nothing better for Gas on the Stomach or sour odors from the Stomach or to cure a Stomach Headache.

You couldn't keep a handkerchief or more useful article in the house.

**C.C.C. Progressing.**

The new uniforms for the members of the C. C. C., it is thought, are on the Almeriana, and the Corps will present a bright appearance on their next parade. Recently twelve new bugles were imported and a number of kettle drums, so that on the next parade a corps of 12 trumpeters will blow the various calls. As many of the lads of the Corps are proficient in playing the flute, a number of fifes are being imported, and next spring, besides the brass band, there will be a fife and drum band connected with the organization.

### Stella Maris Here From The Northern Labrador.

The s.s. Stella Maris, Capt. Wm. Winsor, arrived here at 7.30 last evening from Northern Labrador, and during the summer ran down as far as Port Burwell. She left here on the 6th August last and made five separate trips, one to Sedtke Bay, two to Ryan's Bay and one each to Davis' Inlet and Killinek. When the storm of Sunday and Monday last was on the ship lay all the time at Indian Harbor, and the wind, which blew from the N.N.E., reached hurricane force. As a matter of fact Capt. Winsor told the Telegram that since Saturday week terrible weather prevailed along the Labrador coast with frost and very cold weather. There were heavy snow falls and when the ship left Indian Harbor there was 3 feet of snow on the ground. Codfish was very plentiful at Chilleigh and Ryan's Bay when he left these places on the 20th September. The ship on her voyage south called at Quirpon and took on board the crew and passengers of the schr. Welcome, which became dismasted in the Straits of Belle Isle. The vessel is at anchor in Quirpon, and 37 men and 7 girls who were passengers in her were taken to Bay Roberts in the Stella Maris. Head Constable Sheppard, who has been down the coast since June 15th last, returned on the ship. He did general police duty on the Northern Labrador and acquitted himself well in the oftentimes rather delicate tasks which he had to perform. This is Mr. Sheppard's 5th year on this service, and a competent and efficient officer he has proved himself. The cargo of the s.s. Harmony was landed at Nain after she went ashore at the entrance to that port, and this with goods which she had landed there on a previous visit was taken to Okak, Hebron and Killinek, thereby relieving these stations of the possibility of being short of a winter's supply of necessaries which must have occurred but for the presence of the Stella Maris, as the accident to the Harmony prevented her calling at these stations. The ship returned with oil from Killinek and transferred it to the Invermore at Hopedale. While at Porcupine Bay it was reported that the death of a woman in August last was caused by foul means, but Head Constable Sheppard looked carefully into the case, and found that she had died from natural causes. During the summer several Eskimos were convicted of various offences, but chiefly of ill-treating their wives and of unfaithfulness to the partners of their joys and sorrows. Three of the natives were held before Capt. Winsor at Hebron, and two of them on being convicted of beating their wives were each fined \$20 or 30 days, and a third \$10 or 20 days. At Porcupine Bay one of the natives seemed to be imbued with a spirit of polygamy and had several women besides his chief wife living with him. He was given a lecture on morality generally and the duties which he should observe as a husband, and was compelled to relinquish the company of the women he had taken into his household. One Eskimo woman had her leg broken at Okak by the premature explosion of a gun which she carried, but when the Stella Maris left she was doing well and the broken limb was encased in plaster of Paris. Augustus Friday, aged 45 years, of Nain, was tried before Capt. Winsor for criminally assaulting his niece, aged 14. His wife preferred the charge and also asserted that he had committed similar misconduct with his step-daughter, aged 19. He was given 3 months hard labor and came along here in the ship to spend the term in the Penitentiary. All on board the Stella Maris agree in saying that the Eskimos are a most immoral people despite the efforts of the missionaries in their behalf. There are a few fishing crews at Batteau, Grady and Francis Harbor and these will leave the coast by the next Invermore. Some bankers were seen at Batteau, Grady and Parridge Bay, but the weather was then very stormy and it is believed all have by now gone home.

### Tipsy Man Overboard.

A couple of evenings ago as Messrs. Power and Hearne, two sailors of the schr. Dorothy Baird, were rowing ashore from the vessel, which lay in the stream, they noticed an oil hat floating on the water near Bennett's wharf. They at first concluded that some man had got overboard and was drowned, but later described a man clinging to the shores but making no outcry. He was very far gone in liquor and clung to the posts with his head just above water. He was very much exhausted from trying to retain his hold on the slippery shores, and had he not been discovered he would have been drowned in a few moments. He was a bank fisherman, and getting the name of his vessel the men put him on board.

### Five Hours Sailing Amongst Deals.

Passengers who arrived here by the Glencoe and came in by last night's train say that a schooner which arrived at Lamaline Friday reports being 5 hours sailing through scattered deals and scattering well on that coast. As Mr. H. W. LeMessurier's message stated the lumber was not long in the water from its appearance, no schooner could have carried so much as a deck load, and the belief now is that it was a deck load washed from some steamer and driven landwards with the sea and current and the S. E. gale which blew in on the land. These people don't think that any disaster has occurred to a vessel. The people on the shore are gathering the material, some of which bears the word "Empire" marked in stencils. It is believed this is the name of the ship which lost the deal.

### Herring at Holyrood.

Tuesday big schools of herring struck in at Holyrood, C. B., and bigger fish were hardly ever seen there before. Some good hauls were made yesterday, and one man had 100 barrels seized, but the bunt of the twine became entangled in an old wrecked schooner laying on the bottom, and in trying to "dy up" the seine became badly torn and all the fish escaped. The people hope to make big catches while the herrings remain.

### Gave Himself Up.

Yesterday afternoon the man who stole a vest and pants from a boarding house in the West End, Tuesday, became conscience stricken and surrendered himself to the police, admitting the theft. He will appear in court to-day.

### Submarine Goes 1,625 Miles.

Paris, Oct. 1.—The submarine boat Archimede has accomplished a non-stop voyage from Cherbourg to the mouth of the River Gironde and back, a distance of 1,625 miles, in less than five days.

The vessel is of a size sufficient to allow four officers' cabins and accommodations for a crew of thirty-two men. She is as comfortable as a torpedo boat destroyer. She could blockade a port for a week.

The press maintains that her voyage beats that made by the American sub-marine Salmon from Quincy, Mass. to Hamilton, Bermuda, made in July.

### Badly Hurt In Thresher

Blood poison set in—Great suffering—Cure effected by DR. A. W. CHASE'S OINTMENT

Mrs. C. Hopkins, St. George, Ont., writes:—"I feel like shouting the praises of Dr. Chase's Ointment. While threshing grain, my son got badly hurt. One of the men who was pitching sheaves, missed the sheaf and ran the prongs of the fork into my son's leg. He did not take much notice of it and in a day or two it got sore and very itchy and blood poison set in. We did everything for it but it would heal one place and break out at another and kept on this way for three months.

"Finally I thought of Dr. Chase's Ointment and in a week's time we noticed a wonderful change. By the use of three boxes he was completely cured and the wounds healed up. There has not been a sign of a spot on him since."

Wherever there is itching or irritation of the skin or a sore that refuses to heal you can apply Dr. Chase's Ointment with every assurance that the results will be prompt and satisfactory. 60 cents a box, at all dealers, or Ed. Mansson, Bates & Co., Toronto. Write for free copy Dr. Chase's Recipes.

### Married With Handcuffs On.

Ottawa, Oct. 6.—An unusual wedding took place to-day. Oslas Millace, who was married to Josephine Xvois Millace, had handcuffs on during the ceremony, and immediately afterwards left on his wedding trip to Kingston, where he will spend five years in the penitentiary. The bride did not accompany him.

The ceremony took place in St. Joseph's Church. Detective Ryan, who secured Millace's conviction for pocket-picking, was best man and Turnkey Young, of the jail, also gave his support.

After Millace was convicted the young woman declared that she would not abandon him and arrangements were made to take the prisoner from the jail to the church for the ceremony.

**GLENCOE'S PASSENGERS.**—The Glencoe arrived at Placentia last evening at 2.45, bringing A. Marshall, T. Lockyer, J. Parsons, Rev. Mr. Hewitt, Miss Watley, Mrs. Hann, G. C. Curtis and Capt. Owens.

**DAY OF ATONEMENT.**—The Hebrews of the city are observing the "Day of Atonement" from 6 p.m. yesterday till 6 p.m. to-day. A strict fast is being observed during the time.

### To Help Tinsmiths.

When the card tourney concluded in the Mechanics' Hall last night the representatives of the various Unions who were present made speeches with regard to the present strike of the tinsmiths, for whose benefit the card games were held—Presidents McGrath of the L.S.P.U.; N. J. Murphy, Truckman; F. Woods, Fireman, and Messrs. Allan, Halloran, Dowden, Hanlon and others. These gentlemen gave the members of the Tinsmiths' Union the assurance that they would give them every possible help to continue their strike until it came to a successful issue. It was past midnight when the meeting adjourned.

### A New Departure.

Mr. W. Harris recently finished a new double house at Robinson's Hill for Messrs. A. McNamara and T. Aylward, and this work is a new departure in the line in St. John's. The building is composed of concrete blocks, smooth faced, and this gives them the appearance of cut stone. Mr. Harris turned out these. With the increasing price of lumber, this class of dwelling which is durable and fire-proof, will be adopted by most people instead of wooden erections.

### Ruining the Lobster Fishery.

Yesterday Mr. Piccott, of the Marine and Fisheries Department, showed our reporter two tins of fish which were labelled lobster, but one of which contained squid in an advanced stage of decomposition, while the meat in the other can which resembled lobster had also greatly deteriorated. Mr. Piccott says that this season hundreds of tins of inferior fish have been found, and as the packers of this class of goods have been located they will be prosecuted with the utmost rigor. The putting up of lobsters in such a careless manner, if allowed to go unchecked, would spell ruin to this important industry.

### RETURNED TO WORK IN A WEEK

Mr. P. M. Shannon Cured of Catarrh by one Single Treatment of "Father Morriscy's No. 26."

Dalhousie, N.B., Nov. 23, 1908.

FATHER MORRISCY MEDICINE CO., LTD.

For three years I had suffered from Catarrh in the head until March, 1903, when I had to leave my work, then in shingle mills, after trying 4 different so-called catarrh cures, and two doctors who claimed there was no cure. One single treatment of Father Morriscy's prescription cured me and I returned to work in a week after starting to take the treatment, and have never had so much as a cold in the head since.

P. M. SHANNON.

We have plenty of letters like this proving positively that "Father Morriscy's No. 26" Combined Treatment has cured hundreds of cases of Catarrh generally after other treatments had failed. Why shouldn't it cure you? In justice to yourself give it a trial. Combined Treatment (Tablets and Salve) 50c. At your dealer's, or from Father Morriscy Medicine Co., Ltd., Chatham, N.B.
