At present prices of the above two stocks, we sincerely believe they are excellent purchases, and much more so for those who already hold them at higher cost than the present market price.

For those who are speculatively inclined we earnestly suggest a "flyer" in either of the above stocks, and we believe the next couple of months will make good profits for those who buy RIGHT NOW while low prices prevail. Small investors may start as low as \$20.00 in either stock, while a "flyer" of \$20 or \$50 in each of the above stocks should soon show a splendid profit with your money back. Ask us about them.
