TUESDAY EVENING, JUNE 3, 1873

France and Germany. It seems, from a despatch received

this morning, that the German Government is not satisfied with the tone President McMahon's address to the French people on assuming the reins of power, and that it has declined to enter into diplomatic rela tions with the new President or his Government till assurances have been given that the Treaty of Frankfort will be faithfully carried out. Judging from the relative positions of the two countries, it seems to us that Germany is too cautious and too much afraid of her old enemy and now her vassal. What has Germany to fear from France for years to come? Her coffers have been depleted to pay the enormous in demnity to Germany. Her army has not yet, and will not for a long time. recover from the disastrous effects of the late war. Her Government is anything but stable, and the scheming of ambitious men or political visionaries may upset it in a day, or change the head of the present Re public, and unsettle everything for months. Judging from the present position the German Empire has assumed towards the Republic, her rulers seem disposed to have every guarantee for France's good behavior in future, and until that is secured, Bismarck is not inclined to recognize the new Government with

McMahon at its head. Meanwhile the new President doe not find it all plain sailing Although a coalition was formed between the Orleanists, Legitimists and Bonapartists to dethron Thiers, yet that object attained do not seem to have worked any longer together, but the cause of their momentary cohesion being removed, they stood apart a before, and are now intriguing, each to carry out its own separate design. It is hard to say one which side the new President will be found, and he has already learned that it is more difficult to govern France, or rather the leading factions in Paris, than he

THE MODOC WAR.—We gather from our despatches that the fierce and blood-thirsty Modocs, who have lately given the American soldiers so much thoroughly beaten, and their leader for sale cheap. "Capt. Jack" and some of his brother desperadoes taken prisoners Thus the fears of the settlers in that part of the Republic of a general rising of the tribes in California, Oregon and Colorado are for a time allayed. The United States Government will now, in all probability, in itiate a more stringent policy towards the aborigines, and put it out of the power of these treacherous foes to get up an incipient rebellion in fu-ture, or to murder officers and soldiers in cold blood.

RUMOURS are now rife regarding the late Mr. Howe's successor as Lieut. Governor of Nova Scotia. Two Nova Scotians are already mentioned in connection with the appointment, namely Hon, Mr. Archibald and S. Campbell.

HR report is again current that Mr. T. N. Gibbs, M. P., for South Ontario, will have one of the vacant seats in the Cabinet: also that Hon J. W'Connor will retire from the Government.

SPITE of all the influence which Toronto could bring into the field, Hamilton has won a signal victory in carrying the by-law in the County of nece, for granting a bonus to the Betts's Capsules are being infringed. Hamilton and North-Western Railway. The majority in favor of the by-law is set down at 1,600, which is a very handsome one, considering the amount of opposition which the scheme and its promoters received.

Betts's name is upon every Capsule he makes for the leading Merchants at home and abroad, and he is the ONLY INVENTOR and SOLE MAKER in the United Kingdom.

and has raised the standard of our House (combined with the energy of the proprietors of the firm)
to the present proud position, and more especially for the last two years, so that
our daily sales are almost equal to the combined trade of the same
character in the Town of Guelph.
