VOTE FOR THE

Wednesday, Sept. 2nd,

The city needs better sewerage to improve its sanitary condition and make it the cleanest and healthiest city in the Dominion.

The city is compelled to improve its sewerage by the civil courts, which have pronounced judgment, and forbid us emptying sewage into the river.

The plan proposed is the work of three of the best sanitary engineers in Canada and the The plan proposed is the work of three of the best sanitary engineers in Canada and the United States, and has the approval of the Provincial Board of Health.

Should the future requirements of the city demand other means of sewage disposal, the proposed system will simply have to be extended further, and the proposed works utilized as far as they go. Not a dollar of the present expenditure will be wasted.

Under the act, which provides the most just and equitable methods of meeting the cost, the annual rate of taxation will only be increased half a mill on the dollar. The man who pays \$10 taxes will only have to pay 25 cents more. Let every ratepayer who desires to improve the city, and who wishes to save it from serious annoyance, as well as law costs and fines that will eventually amount to more than the expense of sewer construction, vote for the bylaw of Wednesday, the 2nd September, and then take a neighbor to the polls and see that he votes.

GERTIE MARRIED AGAIN. Maid, Wife, Widow and Bride in the

Space of a Few Months. Stratford, Aug. 25 .- Within a few months Gertie Kidd has been wife, widow, mother and bride. Gertie was a dashing blonde, and John Kidd's departure at the ripe age of 98, after only a few months of married life, left her a weeping widow at 16. man, having forgotten her altogether in his will, Gertie started the law in motion to recover her dower, estimated as worth \$6,000 or \$7,000. She was successful in her suit at the Dufferin Assizes last spring, and is now in receipt of an annual income of \$200 as the result of the settlement subsequently arrived at. Many things have hap-pened since Gertie returned to Toronto from the Orangeville Assizes last March. She became an orphan through the death of her putative parent, old man Robins, who passed off the stage of life during the same month. On the 14th of May she became a mother, but the child lived only about two months, and again Gertie was plunged Gertie took another husband last Friday. He is a young man named McKenzie, and he claims to be the son of a Presbyterian minister at

Brazil is a Portugese word, signifying "a live coal." It was given in allusion to the abundance of red dyewood found in its forests. Give Holloway's Corn Cure a trial removed ten corns from one pair feet without any pain. What it is done once it will do again. What it Topics of Today.

Hon. Robert Watson, Minister of Public Works in the Manitoba Government, was in town today. He is the same big, enthusiastic Northwesterner as ever.

On Thursday of this week the Senators and M. P.s in Opposition at Ottawa will meet to consider the question of selecting a leader. Sir Charles, senior, will probably retain the post.

Sir Charles, the elder, yesterday talked in Parliament for three mortal August hours at a stretch. And yet people kick at 20-minute summer ser-

Hon. Hugh John Macdonald will be the nose-gay at the Chatham Peninsular Fair.

.... What do you think of \$20,000,000 annually spent for chewing gum in the hard-up United States?

The Brantford Expositor is disposed to have a little fun at the expense of the gentleman of the Black Rod, whose function is to summon the Commons to the Senate Chamber, there to be made acquainted with the commands of the Governor-General. We have to disagree with our irreverent contemporary. The Advertiser was recently at Ottawa, and considers that the three main bows, as well as the two additional side salutations, are exceedingly well done. We stand up for Mr. Black Rod. and have no desire to be responsible in the slightest degree for any undermining of the British Constitution.

The Hon. J. D. Edgar is now settled as Speaker of the Dominion Parliament, and already it is seen the choice has been a wise one. An experienced parliamentarian, of sauve, yet firm disposition, he will know how to guide the deliberations of the House and maintain the dignity of Parliament. In addition to which, he makes a handsome figure in the chair,

The Liberals of North Oxford did exceedingly well in nominating Mr. Andrew Pattullo, of the Sentinel-Review, as a candidate to the Legislative Assembly to fill the vacancy caused by the removal of Sir Oliver Mowat. Mr. Pattullo will represent the riding with credit. He will be very useful in the House and on the stump as a capable Liberal speaker, and it is not too much to say that he constitutes valuable Cabinet timber in reserve for the future. No question as between town and country arise in Mr. Pattullo's case, as, being a journalist, he is equally interested in both town and countrye

The Sarnia Observer does not seem to be of the opinion that the dailies in the larger cities are entitled to all the credit for political successes won by the party they support, and contends that the greater part of the success is due to the local papers, without the aid of which many of the successful candidates would have been left on the other side of the column. There is no doubt that our contemporary takes a right view of this matter. Among the various Western papers we know of none that has done more efficient service than the Sarnia Observer itself.

Chicago is talking of a tower that will raise 1,150 feet in the air, and surpass the Eiffel Tower, of Paris, not alone in height but also in multitudinous attractions. It is reckoned that this new tower will give opportunity to students of astronomy as well as afford delight to countless multitudes. It will be the highest tower in the world. By the way, when will the Western Fair have its

Eiffel Tower? The Sewerage Bylaw.

The voting on the sewerage bylaw takes place on the 2nd of September; and the ratepayers should seriously consider the reasons that require them to vote in its favor.

In the first place, it must be distinctly understood that improved sewerage for the city is not optionalit is compulsory. The courts have decided that we must not put our up the present sewers prepared. These have been suspended for some years in order that the city might have reasonable time to prepare a satisfactory scheme of sewage disposal. If we now refuse to do anything, and vote down the bylaw to be submit. some morning and find our sewers closed.

In addition, there are other lawsuits against the city, growing out has already been decided against us; but the judge allowed a few months' grace to enable us to abate the nuisance. The time has just expired.

There is really only one question to consider: Is the plan proposed a satisfactory one? The best answer to the question is this: The plan is ers, levers. Swiss, English or can. T. C. Thornhill, 402 one indorsed by three of the best san- street.

Recipe for Tea Biscuit.

Mix two teaspoonfuls of "Superior" Baking Powder with four cups sifted flour and one-half teaspoon of salt. Rub in shortening (butter and lard) the size of an egg, and wet with enough sweet milk to make a soft dough. Handle as little as possible and roll about one inch thick. Bake in a quick

216 Dundas Street, London, Ont.

BRANCH-Corner Piccadilly and Rich

itary engineers that could be secured one in the United States, and two in Canada. It is to be presumed that after a careful consideration by our local Board of Health, for more than a year; and by the three consulting engineers-each of whom devoted several months to the problem, that it ought to be satisfactory. There can be no doubt that all conceivable methods have been carefully discussed: and the conclusions so unanimously reached may be accepted by

us without hesitation. The plans, and the system of disposal, have also received the official indorsation of the Provincial Board of Health, without whose approval no system of sewerage could be adopted

But the chief reason why we should improve our sewerage, though it is not the one that always appeals most strongly to the public, is that we need it for sanitary advantages. London is a fairly healthy city. Its general cleanliness, its excellent water, its favorable surroundings, all tend to is needed. With a good system of alone, the money expended would be the most profitable investment the

city ever made.

would have their origin in the very natural hesitation we all feel over spending money and increasing taxation. Fortunately in this case, the act obtained last session is exceedingly favorable. If the entire amount should be borrowed at once (which, of course, will not be necessary), it would only add between six and seven thousand dollars a year to our taxes; in other words, less than half a mill on the dollar of assessment. Surely, the outlay is trifling when compared with the beneficial results that are to be obtained, in improving the city, and in relieving it from legal disabilities which would in the end cost much more than the sewer debentures will cost.

Let every ratepayer consult the hand-bills; see where his votingplace is, and go to the polls. If all those who are in favor of the bylaw vote, it will be carried easily. But if they are indifferent, and neglect to vote, each one thinking there will be enough without him, then it is safe to say it will be defeated.

Meantime, the authorities will doubtless see to it that meetings are held during the week, and all necessary information supplied the public.

EXPERT'S OPINION.

He Says the Mayflower Company Have a Good Mine The following extract is from the last issue of the Canadian Mining Re-

view, the official organ of the mining associations of Eastern Canada: "Occasionally there is lucky mining, as the owners of the Mayflower found out when the graders of the Trail Creek tramway uncovered a three-foot chute of \$90 ore. Float from this vein had been found last summer, but the vein being heavily capped was never located. Today the owners of Mayflower have a force of men at work driving a tunnel on this body of ore, and the showing in the breast is all that could be desired. The mouth of the tunnel is right at the track of the Trail Creek tramway, thus facilitating the hauling of supplies and the shipping of ore. Returns from two car-loads shipped (at the time of writing this) give an average value of \$90 per The vein has been stripped for ton. 200 feet and has been found strong and true. The Mayflower may safely be considered a mine."

Note.-The above was written in June last. Since that date an immense amount of work has been done, and Mayflower is daily shipping from 3 to 5 carloads of ore. The ore shipped has carried sufficient gold to meet all run-ning expenses of the Mayflower mine, and the company is only selling shares so as to put in machinery that will increase its production.

Lawn mowers repaired and sharpning shape. All work guaranteed. Duplex chronometers, striking repeat-
