Concrete Tailoring

19E are Wholesale Tailors!

This means that we make hundreds of suits to the "trying-on" stage, under one roof, for every single suit produced by the next largest Tailoring house.

We import cloth in thousand piece lots, and so can control, for Canada, many of the season's best designs.

We mould these cloths with the ncedle, not merely with the pressing-iron, and we "stay" all the parts so thoroughly that they retain shape indefinitely, and can be rejuvenated at any time, by the Valet.

Our tailors are specialists on different suit parts, viz.—on collars, sleeves, shoulders, etc., and

thus produce better results at lower cost. We can match patterns at the seams, more perfectly and with less

waste than the Custom Tailor, because we turn out twenty suits to his one from each pattern.

You need not wait a week to have the cloth made up, and you can prejudge Semi-ready expression at the "trying-on" stage before you buy. Finished to order in about two hours.—Money back for any cause.
