HARRIET C. LE TOY in Los Angeles Times.

ailroad station. Mrs. Beckley shaded prepare the noonday dinner. "Well," said Mrs. Beckley, "I deher eyes with her hand and looked included in the glistening bicycle and tently at the glistening bicycle and its rider. "Sally," she called, "you him. Well, well, Sally, mebby him. Well, well girl that boarded here last summer? fore the summer's out."

The shining wheel slowed up and a keepin' comp'ny for three years that love that girl if ever man loved wothe rider dismounted with easy grace. I know of, an' ain't no nearer a wed- man, an' here I've went a-flirtin' with She laid her steed on the grass and came to the side door, where Mrs. din' yet. I don't see what does all others—I don't know what possessed me, for there ain't none of 'em can to pop the question, Landy! I do hold a candle to Sally. I'm goin' to Beckley and Sally stood watching her, think it ought to be all right for the marry her jest as soon as she'll have

Don't you know me? Didn't you get terrible!" Mrs. Beckley held out her hand in a dazed sort of way. "Letter?" she said you write you was comin'?"

The girl shook hands with her and Sally and sat down on the steps. "My dear Mrs. Beckley," she said, "I surely did. I want you to keep me again this summer. I wrote, telling you so, and saving that unless you let me know to the contrary I should descend upon you this very day. So here I am, and, of course, you're going to let me stay." Mrs. Beckley looked troubled. She between two tall maples. "Well," she I've got a boarder-he jest came yesterday, an' he's goin' to stay all summer. He's a college feller, he says: sets in some kind of a chair, he calle t, in some big school. Sally an' me said, "that's why I noticed her par-But, lawsy! I don't know! Symptoms

Weakness of the Back, Backache, or Pain in Back, Swelling of Peet, Ankles or Wrists, Prin in Joints

or Hips, Constipation, Urmary Troubles, Chills, Feverishness. Cause

These indicate that the kidneys are out of order. If a remedy is not soon found, the evil may develop into one or more of the following diseases: Inflammation of Kidneys or Bladder, Calculus, Gravel or Stone, Rheumatism in one of its distressing forms, Diabetes, Bright's Lisease of the Kidnevs.

Remedy

The latest and best remedy for Kidney irregularities, which are the cause of so many affacuts

Bu=Ju The Kidney Pill **That Cures**

It possesses all the advantages of other remedies without the objec-tionable features of any. Bu-Ju is the result of the latest scientific study, compounded with the highest skill. It is sold by all druggists in boxes of 50 pills for 50 cents. Do not waste money and valuable time on substitutes.

Remember

In kidney troubles time is peculiarly valuable. Get the best remedy at once; there is great danger

A shirtwaisted, short-skirfed, sailor- I'm delighted to find him here." hatted figure came wheeling along the lief. She went into the house, followed by Sally, and they proceeded to

Sally smiled more radiantly than

The days drifted by lazily. There were two hammocks swung under the maples, and down by the river there blankly. "I hain't had no letter, Did was moored a little boat, into which were piled red cushions, and Helen's guitar case almost every evening at sunset. The two passed the hours in ideal comradeship. It seemed as though the "friend and sister" plan had met with the professor's approval, so naturally did he play elder brother and friend to the trim, well-built girl with the laughing eyes and independ-

One night as the little boat moved glanced towards a hammock swung away from its moorings and down the river in the sunset's glow, Helen said, 'I saw Sally as I came downstairs She was sitting in her little room." "Still smiling?" inquired the pro-

Helen looked troubled. "No," she think he's a little too old to go to ticularly. She wasn't smiling-in fact, school, an' so he must be a teacher. she looked suspiciously like a person The professor grew interested. "Well, suited you. There's the same well," he said; "now what do you sup-

"I suppose a lover's quarrel, or, off'n the parlor. I guess you can stay what is worse, a lover's indifference," if you want to, an' I'm reel tickled to responded Helen. "Sally, poor girl, see you. An' I bet Sally is—she took has told me about Sam—he's the Sally smiled delightfully, Sally almost always smiled. It seemed to be he has never come to the point. Sally loves him devotedly and would make him a good wife. I believe Sam is mentally called her. But it seemed equally interested in her, and would good to see the girl again—the familiar make her a good husband, but from "My trunk will be out this afternoon," Helen said to her hostess, "that
is it will be if Job doesn't forget to s, it will be if Job doesn't forget to girl from Swansett. Mrs. Beckley says he took her driving last Sunday, tackle up somewhere 'long towards and poor Sally is quite heartbroken. Mrs. Beckley laughed. "That's shaking up. He isn't exactly trifling she said, "the slowest mortal with the girl, but he's grown careless, is to have his jealously aroused, or-or -something."

"'Something?' mused the professor: "that's a little vague, isn't it? Well, glasses. It looked like-it might be- may I ask, Miss Matchmaker, if I am to sacrifice myself upon the altar of affection and devote myself to the unin a place like this, isolated from the smiling Sally sufficiently to bring the She determined to have the meeting over with, and walked towards the make the poor thing harmy if we can be retty in her white gown, with her make the poor thing harmy if we can be retty in her white gown, with her white gown, with her white gown to have the poor thing harmy if we can be retty in her white gown to have the poor thing harmy if we can be retty in her white gown to have the poor thing harmy if we can be retty in her white gown to have the poor thing harmy if we can be retty in her white gown to have the meeting only would!" KEEP MINARD'S LINIMENT It was Helen who dressed the bride, IN THE HOUSE.

Although anyone was entirely free to manufacture for himself as much wampum as he pleased, the difficulties of the process seem to have prevented men from thus becoming rich by their own handiwork. The rich men were those who accumulated wampum through trade and war, so that generally the possession of an unusual quantity of betokened some real ability or brav-

THE FIRST WAMPUM. In 1627 De Rasieres, in command of a Dutch trading vessel, brought worth of wampum from New Amsterdam to Plymouth. This was the first Indian money acquired by English set-

Indians of the Kennebec region, and was found so profitable a means of ex-English settlers strings and belts of beads possessed no intrinsic value. The were altogether lacking in that sym bolism which rendered them precious to the Indian wholly from their montary value.

But as long as the Englishman could exchange them in the inland region: or furs, which met a ready market in Europe, he was just as willing to employ this medium as any other. During the earlier part of the seventeenth century, the supply of beaver never equaled the demand, and, as one writer pu it, wampum was the magnet which ests - the talisman which kept up the equilibrium of trade between the two people who otherwise had really very The colonists never came to regar

wampum as anything more than a convenience for the prosecution of trade with the Indians. Nevertheless were forced sometimes to use it in their dealings with each other, and even in

Sally could fall into the river and be professor went on. "Helen, I'm going the scar indicating the point of muscuhow insignificant was the number of pum was the decrease of trade with employes engaged in all our factories, viz., 5,316,802, counting men, women, and children! That is, more than 19-20ths of the work was done by fron and The beads themselves were simply out slowly. Connecticut made a grant drunk, were always on hand Monday PORTER & CO. Phone 1,162. morning and every other morning, were

When we remember that 53,454,000 such employes were added to our factory force between 1890 and 1900, we need not wonder that dur manufactures went forward with a bound .- Success. A. M. SMITH & CO., 176 York street.

Cost of Ocean Speed.

trials of the British armored cruiser Cape of Good Hope. On her full power trial by the women cannot be known, but it In China a man who killed his father this vessel of 14,100 tons attained a mean NORTHERN LIFE, Masonic Temple, may well have been shared by both.

It required not only a vast amount of schoolmester for not having to be shared by both.

In China a man who killed his father this vessel of 14,100 tons attained a mean was executed, and along with him his speed of 23.05 knpts an hour. By the speed curves plotted from the trial reof skill, for the shells must be perfect in shape, free from cracks, irregularies or flaw. The Indian trader demanded that his wampum be as sound and perfect as the present day merchant expects Uncle Sam's new minted coins to be. It was the labor involved in their making that gave the beads a purchasing power so much in excess of that of the unwrought fresh and give strength to the respiratory or gans. Give it a trial.

"BY MEDICINE LIFE MAY BE PROLONGED."—So wrote Shakespeare nearly three hundred years ago. It is so to-day. Medicine will prolong life, but be sure of the qualities of the medicine. Life is prolonged by keeping the body free from disease. Dr. Thomas' Eclectric Oil used internally will cure coughs and colds, eradicate asthma, overcome croup and give strength to the respiratory or gans. Give it a trial.

Sults, it appeared that to go from half speed of 19 knots an hour. At full speed knots—needed, roughly, 26,090 additional hores-power, of which the last knot alone absorbed 8,261 lorse-power. In other words, to increase the speed of this cruiser from 22 to 23 knots consumed as much power as was needed to propel her at 16 knots; or to put it in still anoth

way, the power required to propel her at full speed would have propelled two vessels of the same size at an average speed of 19 knots an hour. At full speed her coal consumption was 26 tons per hour; at 19 knots it was 11 tons per hour. This means that at full speed she would move .85 knot for each ton of coal burned under her boilers, while at 19 knots the distance would be doubled for
