London, Tuesday, March 29. - The St. Petersburg correspondent of the Daily Mail wires that in an engagement on March 23, in which Japanese infantry attacked Cossacks between Anju and Chong Ju, the Japanese were victorious, but lost 50 killed.

The Morning Post New Chwang correspondent learns that the Japanese will not land an expedition in the Liao River Valley before April 20, as their transports are still engaged in conveying troops to Korea.

TRI-COLOR OVER NEW CHWANG. Tien Tsin, March 29. - A Frenchman named Kreautlar, an employe of the Russo-Chinese Bank has been appointed consular agent at New Chwang. He has noisted the French flag over the bank building. It is considered probable that this is a forerunner of a movement to fly the tri-color over all the Russian Government buildings at New Chwang.

## RUSSIA'S NEW SQUADRON.

Paris, March 29. - The Matin's St. Petersburg correspondent, says that the Russian admiralty has ordered eight 350-ton torpedo boats from Riga and the Nevsky yards. He adds that the type of the latest Japanese torpedo boats will be copied exactly. The Petit Journal's St. Petersburg

the foreign office concerning the de-Chwang, and officials are inclined opinion that this indicated the Russian Government had not yet sanctioned Viceroy Alexieff's action. The declaration of martial law is somewhat anxiously discussed by the London morning newspapers, among which the question has arisen as to whether Russia is desirous of dragging China into the conflict.

### The War News.

Jap and Cossacks have clashed in Korea near Anju, the latter being defeated with a less of one hundred men. The Jap loss is placed at fifty. The French flag has been raised over New Chwang, France representing Russia until the latter's Government reaches a decision as to whether Alexleff's declaration of martial law is to hold good or not. The Japs first division, seventy thousand strong, is far north in Kerca, and Russia expects that hostilities on a large scale will begin within the next two weeks. Russia is mobilizing a powerful fleet in European waters, which will sail for the Far East within a few weeks. The Chinese general at Mukden has, at the demand of Alexieff, withdrawn his troops sixty miles from that eity.

Alexieff is about to return to Europe, a significant incident in view of his bungling of the campaign up-to-date. Marquis Ito is about to leave Korea, having succeeded in his mission of reassuring that country as to the Mikado's intentions. M. Akiyama, member of Jap Diet, accused of being a Russian spy, has resigned by request of the Government.

cents per mile. Speaking to his motion, Dr. Nesbitt said that the only way to get after the railways was to make them reduce the people would gain nothing, because He believed that a two-cent rate on railways would not reduce their earning powers, but, on the contrary, would increase them, as more people would travel if the cost were reduced. As a matter of fact, the railways received on an average only about two cents per mile when the special excursion rates, which they gave from time to time, were figured in.
