The present wages of carpenters, blacksmiths, painters, plasterers, bricklayers, street car conductors, letterarders and teachers were reviewed, and it was shown in the salaries of the salaries and teachers were reviewed, and it was shown in the salaries of constant demands that the very least to \$3,000. He certainthe ve and it was shown that the average alary of these 27 ministers did not tery much exceed the average income per day of these tradesmen. Their wages have advanced about 40 per cent. In the last fifteen years, and yet they very justly complain that the advance has not been in proportion to the in-creased cost of living. But the minister's stipend has not increased anything like as much, and in a number of congregations it remains the same, or is even less. Now a congregation which was paying its minister \$1,000 of them in the meantime. But in view of the whole situation in the presby-like years ago would need to pay him \$1,400 today to keep the salary at the same purchasing years ago it had movely. fifteen years ago would need to pay him \$1,400 today to keep the salary at the same purchasing power as it had then. If the minister's stipend continthen. If the minister's stipend continues at \$1,000, as it was fifteen years ago, the congregation has unwittingly but really reduced it by \$285, because the purchasing power of \$715 then was as great as the purchasing power of \$1,000 is today. While the farmers have to pay increased prices for the comparatively few things they have to buy, they are getting on an average 50 per cent. more for everything they have to
