The cause of the attack is Beadle's writing against polygamy. The principal assailant is a son of the Probate Judge who stood looking at the attempted assassination. Trouble is apprehended to-morrow.

The Treasury Department to day anneunced that it will purchase \$10,000,000 in bonds and sell \$10,000,000 in gold during November. The Express says the announcement caused great disgust among the speculators in gold and bonds. The result was free sale at lower prices for both. Some speculators threw overboard all their gold and bonds to become bears.

A MINISTER SHOT IN THE PULPIT .- Lawlessness in Texas has culminated in the commission of one of the most terrible crimes on record. It seems that while Rev. M. Ferry, a losal Methodist preacher, was addressing a congregation at Columbia, Brazono county, Texas, on the evening of the 8th ult., eix armed desperadoes entered the church and fired on and killed bim instantly. Rev Mr Hardwell, the minister in charge, who was sitting in the pulpit, was knocked down by one of the ruffians, but as he is a very power-ful man, he rallied and took the weapon away from his assailant. The assassing then ran out of the house. To the Electors of District No. 2,

Gentlemen :- At the argent request of a numerous an Generates:—At the argent request of a numerous and influential hody of Electors I have been induced to ask your suffrages for the seat rendered vacant by the death of your late greatly esteemed representative.

In the present critical position of affairs, I consider it absolutely necessary for the future welfare of our Colony that we should not rush into Confederation with Canada, which it is the evident desire of the Home Government.

I do not consider that the interests of the Agriculture unless a system of immigration to this Colony is made a condition. The longer Confederation is postponed the greater hope there is for us to obtain all the advantages which may be derived therefrom; and you will then have the opportunity of carefully considering your position before you finally commit yourselves to the irrevocable step; nor would I, under any diroumstances, have Confederation without an Overland Railway, and regular Should you elect me all my energies shall be devoted to

protect your interests.

There are several other topics which I shall be glad to touch up n, but I reserve them until I have the opportunity of meeting you personally. The question of Roads is, however, one I cannot overlook, as I consider that your welfare hinges on this subject, for without good and available means of communication it will be impossible for you to compete with our neighbors.

FORT STREET, VICTORIA.

Many years ago, the writer of these lines and an invalid physician, while visiting the Island of St. Croix for their health, experienced and witnessed many surprising and beneficial effects of the Rum there produced upon many of the invalids who were (like ourselves) seeking health; and, upon inquiry and investigation, obtained a full history of its medicinal virtues. He was delighted and surprised, and after his own recovery, which soon occurred, determined, if possible, to procure the sole right to manufacture and sell it in the United States.

The result of his labors was a glorious success for himself and suffering humanity, for the celebrated PLANTATION BITTERS was thus made known to the world. PLAN-TATION BITTERS being an article of real merit, founded upon new principles, and relying wholly upon the vegetable world for its medicinal effects, worked a rapid revolution in the history of medicine, and became as a household word all over the civilized world. The cabalistic S. T.-1860-X. was a talisman of health, and the demand for the PLANTATION BITTERS soon far exceeded the abilities of the proprietors to supply.

Notwithstanding the large importation of St. Croix Rum, made expressly for the compounding of these Bitters, the quantity was inadequate. It therefore became necessary that arrangements upon an extensive scale abroad should at once be made, and an agent was dispatched to St. Thomas for that purpose. He was fortunate in securing and leasing several plantations on some of the largest and most productive estates on the island. Houses, stills and presses were erected as if by magic, which utterly "astonished the natives." The services of experienced men and natives of the island were procured, and very soon the proprietors of the PLANTATION BITTERS were in a positi to supply their laboratory with all the perfectly pure St. Croix Eum needed in manuing the GREAT DYSPEPTIC TONIC AND INVIGORATOR. The above cut represents the natives equaling the sugar-case and otherwise preparing it for the stills and presses.

As an antidote to Fever and Agus, intermittent and Malanious Fevers, Dyspersia, and other kindred diseases, the use of the PLANTATION BIFTERS is unsurpassed in the history of the world. Over five million bottles are disposed of annually. They are adapted to old and young, male and female. They are agreeable in teste, and always tunity presented for the people to avert direct schemed esemblement as esuborates

DR. J. COLLIS BROWNE'S CHLORODYNE—Extract from the General Board of Health, London, as to its efficacy in cholera. "So strongly are we convinced of the immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in all cases."

From A. Montgomery, Esc., lafe inspector of Hospitals, Bombay: "Chlorodyne is a most valuable remedy in Neuralgia, Asthma, and Dysentery. To it I fairly owe my restoration to health after eighteen months' severe unfering, and when all other medicines had failed."

It is necessary to warn the public against spurious imitations, which only bear the pirated rame, and are deficient of the true properties of the only genuine, viz.: DR. J.
