

Gin Pills
FOR THE KIDNEYS
Succeeded Where
Operation Failed!

"During August last I went to Montreal to consult a specialist as I had been suffering terribly with Stone in the bladder. He had decided on an operation and was assisted by another doctor. They said the stone was larger than a hen's egg and too hard to crush and they would take it out. I was very nervous and I was told to try Gin Pills. I took a box and found relief. I did not expect that they would do so much for me. I had to go to the hospital but I passed the stone on October 1st and am now a well man and very happy."
J. A. LEBLANC, M.D.

Gin Pills are the greatest solvent for uric acid ever offered. Proven by Mr. Leblanc's example. If you have Stone or Gravel, Rheumatism or other Kidney or Bladder disorder.

Sold at all dealers at 50c a box or 6 boxes for \$2.50.

SUBMARINES SINK GERMAN WARSHIPS

Forty Fighting Crafts Account-
ed For in Daring Raids.
Baltic Fleet Suffers.

The veil of mystery which has surrounded the coming and going of British submarines was lifted for a moment to-day. The brief revelation, through the British Admiralty and the British war missions in Washington, shows a whole epic of heroism and daring.

The British submarine have sought out the enemy's warships at the very doorstep of Kiel. They have penetrated the Baltic. They have played hide and seek with the U-boats until the U-boats tired and ran for home.

Despite the fact that the German keeps his overwater craft at home, the British have already accounted for more than forty enemy vessels of war.

The report reveals that the submarines of the Allies have played a large part in keeping the German ships at home.

Victims Obliterated.

While patrolling between the eastern Elbe and the Weser rivers a submarine sighted two lots of destroyers' smoke to the southeastward. Two anxious hours were spent manoeuvring for position to attack and then, at a range of 500 yards, two torpedoes were fired, one at the bow and one at the stern of one of the destroyers.

Having fired the torpedoes, the submarine dived to avoid detection, but a loud explosion told without doubt that one of the torpedoes had reached its mark. Eight minutes later, the destroyer was seen sinking by the stern, fifteen feet of her bow still standing vertically out of the water.

The other destroyer was seen steaming at various speeds and distances around the wreck. Blasted at her success, the submarine thrust to put her down, too, but as two more destroyers had arrived on the scene and were systematically searching, it was not considered feasible to continue the attack.

On another occasion one of two armed submarines, the "Herring", in the light of Heligoland and observed to sink. But other reports tell of destruction so completely wrought by the British torpedoes that a victim of the victim remains.

Perhaps the most thrilling of all the exploits recorded in the attack was the submarine to "bluff" her way through the Sound into the Baltic.

It was known that the German kept three submarines in the Baltic and three vessels should make the passage the same night, but, unfortunately, one developed certain defects and was unable to keep up with the other two.

The result was that she reached the entrance to the Sound the night after the "Herring" and "Herring" had successfully made the passage. Their presence was discovered in the Baltic, and the enemy took all possible steps to prevent either their getting out or others getting in.

Sunk Battleships.

"Y" found four merchant ships in line abreast proceeding through the narrow entrance to the Sound, and from the accurate distances kept, it was evident that they were averaging. Beyond them were destroyers. All were showing navigation lights, so X decided to let the same in an effort to pass without attracting attention.

She had not proceeded far when she was attacked by a destroyer which tried to ram her. As she dove, she heard the thrashing of the enemy's propellers above her. She abandoned her effort to go through with lights burning, but, silently creeping to the surface, she attempted to follow the wake of a vessel ahead proceeding through the Sound. The attempt was about to succeed when the vessel ahead suddenly stopped. She was a destroyer. She promptly tried to ram, but the submarine succeeded in submerging.

A third and fourth attempt brought no better success, with the enemy now genuinely on the alert and the submarine returned to her base, as her gallant commander expressed it in his report, "prior to making another attempt."

One, possibly two, battleships of the "Kaiser" class were sunk by another daring submarine close into the Danish coast. Four battleships were observed in a group, with other craft probably nearby. The lone submarine nevertheless manoeuvred into position for attack.

But just as she reached a satisfactory angle, a heavy swell threw her on to the surface and she was obliged to make a quick dive. Yet so keen were her pointers that the lights were gone on one of the ships just before the periscope went under and four torpedoes were let go at a range estimated at between two and three miles.

The commander, nevertheless, heard two loud explosions, and is certain that the third and fourth ships of the enemy's line were hit.

PUFF PASTRY ILLEGAL

The following productions, in which sugar is the principal constituent, are now prohibited of manufacture: French or puff pastry; doughnuts or crullers; Scotch shortbread; cakes; macaroons or like products, with more than 50% cane sugar; marshmallows with more than 33 1/3% sugar; cakes or biscuits iced or filled with sugar products.

A fine of from \$100 to \$1000 or imprisonment up to three months, or both, are the penalties for the infringement of these sugar regulations, fines to be paid to the Municipality or Provincial Authorities, which may institute the proceedings. Excess holdings are liable to seizure after May 15th.

EAT MORE FISH.

Efforts have been made throughout Canada to produce and market more fish. This country has fish resources, which have been exploited commercially for the export trade, but only in the big cities have fresh fish been available regularly to private consumers. On the Pacific Coast and the Atlantic Coast, on the lakes of the West, on the lakes of Northern Ontario and the Great Lakes, fishermen will procure fish if the demand for it becomes regular and constant. Eat more fish and save meat for the men at the front.

WHEAT IMPORTATION INSUFFICIENT.

The British Ministry of Food has cabled to the Canada Food Board: "Wheat importations are not arriving in quantities sufficient to meet our weekly requirements. Every effort that can be exerted in Canada to increase shipments of wheat and meat will be valuable."

The British Ministry has prepared to provide ships to move all the wheat that Canada will spare. Only 34,000,000 bushels remain on the Continent that can be possibly available for export, unless consumption in this country and the United States is very substantially reduced.

SPARE BRITISH WHEAT.

We have shipped much of our precious wheat to the French and Italians and we must face the fact that this has changed conditions so that the United Kingdom. Unless the people of Canada and the United States speed their production of food supplies, the allied people may find it very difficult to carry this war on to that conclusion which will mean a permanent peace.

BE CAREFUL

In your choice of an ointment. An inferior ointment is worse than none at all, because it irritates and sometimes even poisons the skin. It is intended to soothe and heal. In using Zambuk, healing proper, as its soothing effect is due to the fact that it is composed of thousands of users, and is put to the touch for by the famous English Chemist, Dr. W. L. Scott, who says:

"I have made an exhaustive analytical examination of Zambuk, and find it to be a mixture of vegetable oils, with none of the harmful and irritating mineral drugs and poisons. The germ-killing powers of Zambuk exceed those of carbolic acid. It does not inflame even the most sensitive skin. I have no hesitation in certifying the purity of Zambuk, and its value for skin diseases and injuries."

Zambuk is best for eczema, ulcers, running sores, old wounds, abrasions, blood-poisoning, boils, pimples, piles, cuts, burns, scalds and all skin injuries. 50c. box, 3 for \$1.50. All druggists or Zambuk Co., Toronto. Send 1c. stamp for sample on free trial, box at once.

DANGER LURKS IN EVERY ONE OF US

We Are As Full of Deadly
Poisons As A Germ
Laboratory.

**AUTO-INTOXICATION
OR SELF-POISONING**

"FRUIT-A-LIVES" Absolutely Pre-
vents This Dangerous Condition.

The chief cause of poor health is our neglect of the bowels. Waste matter, instead of passing from the lower intestine regularly every day, is allowed to remain there, generating poisons which are absorbed by the blood.

In other words, a person who is habitually constipated, is poisoning himself. We know now that auto-intoxication, due to stagnation of the bowels, is directly responsible for serious kidney and bladder troubles; that it upsets the stomach, causes indigestion, loss of appetite and sleeplessness; that chronic rheumatism, gout, pain in the back, are relieved as soon as the bowels become regular; that pimples, rashes, eczema and other skin affections disappear when "Fruit-a-lives" are taken to correct constipation.

"Fruit-a-lives" will protect you against auto-intoxication because this wonderful fruit medicine acts directly on all the eliminating organs. 50c. a box, 6 for \$2.50, trial size 25c. At all dealers or sent on receipt of price by Fruit-a-lives Limited, Ottawa.

MILK IN THE HOG RATION.

In order to raise and finish all the extra pigs that will be farrowed in Canada this year as a result of the campaign for increased production, it will be necessary to exercise the utmost economy in the use of concentrate foods. Pig raisers who have access to dairy by-products have a great advantage over others. Experiments have proven that when meat is worth \$40 a ton, milk is worth more than \$8 for an equal weight, that is, it is a much more economical food.

One hundred pounds of what was proved equal to 19.2 lbs. of milk, that is, provided it is fed in not too large quantities and before it has soured.

A study of experiments with skim milk shows that for young pigs 1 lb. of milk fed with 2 1/2 or 3 lbs. of meal gives best results. For larger hogs over 400 lbs. of skim milk and 100 lbs. of meal not more than 5 lbs. of skim milk daily should be fed in order to get the greatest value from the milk.

At the Nova Scotia Agricultural College it was shown that the best gains were made by feeding a lot of pig ration composed of 148 lbs. of grain, 900 lbs. of skim milk, and 110 lbs. of meal. At the Ontario Agricultural College the best results were obtained here the proportion of milk to meal was 2.5 to 1. In one trial in which the proportion was 1 to 1, 365 lbs. of skim milk were equal to 100 lbs. of meal. This agrees fairly closely with the results obtained at the Ottawa and Branch Farms.

In a series of articles that appear in the May number of The Agricultural Gazette, both the Ottawa and Branch authorities agree that it does not do to change the diet from sweet to sour milk. For young pigs the sweet milk is much to be preferred. For larger pigs it seems to make little difference whether or not it is fed sweet or moderately sour, provided whatever condition favoured is uniformly kept up, that is to say, if the milk cannot be obtained always sweet, then it should be fed sour as a rule.
