One Dollar Per Year

## HAZEN AND PARTY GET HARD RAPS

Why Editor Left the Stand-  
ard and What He Saw  
Coming.

DEAR MR. PINDER

(Follower in Fredericton Mail.)  
I was in St. John a few days ago—  
Tuesday of last week—and was much  
interested in the political chat and  
chatter around the hotel lobbies and  
on the streets. I have been in many  
places in New Brunswick, and had  
many opportunities to judge of the  
position the people generally have of  
the Hazen government, but in St. John  
was literally surprised at the contemptu-  
ous way it is spoken of.

There was more political talk than  
usual. Mr. Hazen and a few of his  
government colleagues were holding a  
session in St. John, and in consequence  
there were some satellites in the city.  
I noticed Crockett and Pinder of York,  
and it was freely stated that the latter  
was there with his hatchet in the  
shape of an ultimatum respecting his  
little railroad. There were many earn-  
est talks in the hotel lobbies and con-  
sultations even on the streets, but it  
was evident that Pinder was there to  
work or break. Since his return to  
York there is a story which has its  
source in the leakage of the country  
and telephone. His friends were anx-  
ious to know how he had made out,  
and the answer was just as definite as  
any thing of Hazen's is usually. "But,"  
said Mr. Pinder, "if I don't get my  
\$10,000 guarantee per mile, I will tell  
that which will hang them."

It looks as if the King of the Naack-  
wick was out for the red flint. He  
has a poor opinion of his leader any-  
how, and the memory of his sick-bed  
and the promise broken when he was  
unable to move will never be forgotten.  
Mr. Pinder's resolution is not the only  
one trouble facing Hazen. His friend  
Crockett of the Gleamer is about to  
quit St. John. He managed the  
Standard into a very deep hole—so  
deep that it is not likely to be  
filled. Editor Scott concluded to climb  
out before the walls fell in. His resig-  
nation and announcement that he  
proposed to go west was out of the  
blue and consternation reigned in the  
ranks of the Standard. It is current  
talk there that Scott was the only man  
on the big end of the staff that the  
party had confidence in. There was  
one exception—Mr. Hazen. He had no  
love for Scott and was Crockett's  
champion when other important directors  
thought it would be wise to James  
Scott Prince William Street. When the  
news was an end the staff broke up.  
Scott's sympathies were with the  
reporters and his city editor, but Hazen  
hated the latter. It was said so ear-  
ly, that he could not be civil to him  
for months before the end came and  
he sided with Crockett against Scott.  
This was the beginning of the end  
which has come in an unexpected  
fashion. Ever since Scott has been  
"looking around" and his vision was  
keen and far, for now British Colum-  
bia will give him a view point from  
which he can watch the tumble of his  
political friends without getting rump-  
led in the mix-up.

The question among the Tories in  
the big town is, with Scott gone and  
Crockett on the go, what is to become  
of the Standard? Scott used to men-  
tion the drifting friends of the Tele-  
graph, but he never mentioned the  
drifting friend of the Standard, Mr.  
Pinder.

## PRESENTATION TO MISS M. MCNAIR

Members of Sunday School  
Class Present Her With  
Signet Ring.

GOING TO CAPE BRETON

Wednesday evening after prayer  
meeting the Sunday School class of  
St. Andrew's Church presided over by  
Miss Margaret McNair, the pastor of  
the church and a few friends were en-  
tertained at the home of Mr. and  
Mrs. J. C. Ferguson. The gathering was  
for the purpose of making a presenta-  
tion to Miss McNair, who leaves short-  
ly for Pleasant Bay, N. B., where she  
will be engaged on Home Mission  
Work.

Rev. T. P. Drummond in a few ap-  
propriate remarks made the presenta-  
tion to Miss McNair, who received it  
with much appreciation. The signet  
ring being the token of appreciation.  
Miss McNair made a few suitable  
remarks.

A most pleasant evening was spent  
in conversation and refreshments.  
Ice cream and cake was served.

Some Contrasts in Milk Yields.  
Some records are always stimulat-  
ing. Some of the records from mem-  
bers of the cow testing associations  
for May are indicative of good cows  
well kept and well fed, in a word,  
decidedly profitable cows. For instance,  
one dairy man in western Ontario  
owing a yield of 62 cows has the inspiring  
record of 1127 lbs. of milk per cow, dur-  
ing the month. Again, in six associa-  
tions in Peterboro and Oxford counties  
the average yield of 280 cows was 1055  
lbs. of milk and 34.3 lbs. fat.

The reverse of the picture is not so  
rosy, indicating the need of more and  
better cows. Several associations have  
an average of under 700 lbs. of milk  
and 25 lbs. fat. A group of 75 cows at  
one creamery gave only 604 lbs. of  
milk and 21.8 lbs. fat in May. "Trains  
of the difference, the average yield now  
is as seventy per cent. better.

As an instance of what is being done  
by the selected animals the record of  
one of the most famous cows today  
forms a wonderful contrast. She is  
credited with 120 lbs. fat in thirty days.  
This cow, it is said, was picked up from  
a neighbor who did not keep records  
and therefore was unaware of her phe-  
nomenal value. Who will be the next  
man to discover another such diamond  
in the rough? Individual cow records  
alone can show where such jewels exist.

C. T. W.  
Ottawa, June 1910.

## MORE PERMANENT SIDEWALK TO BE LAID THIS YEAR

Council Decides to Complete Water Street Pavement--  
Lively Discussion Over Water  
Street.

TO GET ESTIMATE OF COST

A meeting of the Town Council was  
held on Tuesday evening. There were  
present His Worship Mayor Murray  
and Councillors Richards, McDonald, Mil-  
ler, Moore, Harrison, McNichol and  
White.

A communication from the Public  
Works Department in reference to  
the Government wharf was read and re-  
ferred to Water and Sewerage De-  
partments.

A petition from ratepayers asking  
that a by-law be placed at the corner  
of Duke St. and Gerrard Lane was read  
and referred to the Water and Sewerage  
committees. The same petition  
asked that repairs be made on side-  
walks on O'Leary and Duke Streets.  
This was referred to Public Property  
and Streets Committee.

Various department reports were  
passed authorizing the payment of  
bills.

On recommendation S. D. Harriman  
was granted a license to conduct a  
grocery store on payment of \$10.00.

The tenders for laying sewer and  
water pipes to Mr. Crowley's residence  
on McMillan Terrace were opened  
and were as follows:  
S. D. Harriman, \$6.15, 61.95, 37.00  
H. Marquis, 63.26, 65.93, 92.72  
W. J. Christie, 65.09, 57.67, 83.45  
A. H. English, 78.54, 83.29, 112.58  
Tender of W. J. Christie for 12.67  
was accepted, subject to necessary  
agreement between Messrs. Crowley  
and English.

The salary of town officers were  
fixed as follows:  
Town Clerk, sixty dollars per month.  
Town Treasurer, same as last year.  
Town Solicitor, \$400 per annum.  
Town Auditor, \$20 per annum.  
Revisors, \$15 each.  
Commissioner of Public Charities, \$5  
per month.  
Street Commissioner, \$2.25 per day.  
Caretaker of town houses, \$50 per  
month.

The chairman of the Fire Committee  
reported that the new engine and  
boiler had been placed at the corner  
of the engine house.

Public Property and Streets Commit-  
tee reported that they had received  
from S. W. Dimock a plan for a  
permanent sidewalk on S. W. Dimock  
to Moore's corner. Carried.

In the discussion on the matter of  
continuing the laying of permanent  
pavement, Council McDonald said in  
part that this town council had been  
continually rapped over the knuckles  
by an irresponsible newspaper be-  
cause in conducting the town affairs  
the council had deemed it best to do  
this work out of current revenue in-  
stead of issuing bonds to carry on a  
permanent work. He also wished to  
remind the council and ratepayers  
that although much permanent pave-  
ment had been laid the adjoining prop-  
erty holders paid not a cent more than  
their proportion of taxes for this  
work, while in other towns they were  
compelled to pay from one third to  
two thirds of the cost of such pave-  
ments. He thought that the town's  
business was well conducted. If all  
the money spent on sewer extension  
and other permanent works, which  
were paid out of the taxes each year,  
was figured out it would make a pre-  
tend large amount and in this sewer ex-  
tension the property holders contrib-  
uted nothing but their proportion of  
the taxes. What about Water Street?  
Is this work going to be done and paid  
for out of the taxes? In his own de-  
partment there was much work to be  
done, but he did not think it fair for  
a disgruntled newspaper editor to critic-  
ize that work and endeavoring to  
do this work without issuing bonds.  
If they did it out of current revenue  
then his department would need more  
money.

Water Street Committee reported that  
the new engine and boiler had been  
placed at the corner of the engine house.

On motion of Council White Mr. Mal-  
colm's offer was accepted.

Council Moore thought we needed a  
permanent street more than a perma-  
nent sidewalk.

## GASPE SOLDIER HAS DISAPPEARED

Was Passengers on a St.  
Lawrence Steamer When  
It is Supposed He Fell.

WAS WITH FRIENDS

Quebec, June 20.—Senator Edwards,  
Angus McLean, of Buffalo, and H. G.  
Turner, engineer, of New York, saw  
the Hon. Jules Allard, Minister of  
Crown Lands, here today, seeking per-  
mission to erect a dam on the Grand  
Cascapedia River in order to construct  
a pulp and paper mill which will cost  
\$10,000,000. The dam would be  
opposed by American fishermen, who  
contend that the construction of the  
dam on the river will put an end to  
\$10,000,000 of the actual exist-  
ing conditions the river yields a re-  
venue of \$100,000 to the provincial fish-  
ery department. It is pointed out  
by the lumbermen that if the pulp  
and paper plant is built it will  
bring the province a hundred and fifty  
thousand dollars yearly in stumpage.

A Shakespearian Revival.  
Today's issue of a "Sermon from  
Shakespeare" is only the fourth of  
the series and they have already made  
a profound impression. They had fair  
to stir a more lively interest among  
our readers than they have ever had  
in the greatest of philosophers and  
dramatists, and to create a taste for  
reading Shakespeare.

The Associated Press Shakespearian  
club is bound to produce a national  
sensational, and its course of study to  
enlist more of the masses in Shake-  
spearian literature, than since the  
death of the immortal writer.

There are, all told, three hundred  
and twenty-six prizes provided, and  
you are almost sure to win one if you  
try. In any case, a "Shakespearian  
Scholar's Certificate" will be given to  
every one who completes the course.  
Read fifty-two Shakespearean  
works, read the "Sermon from  
Shakespeare" commencing with June  
3rd, and answer ten questions based on  
what you have read, and you qualify  
for the prizes. Send us the answer-  
ing coupon with your subscription for  
the Graphic and get the best of all  
these prizes, besides winning a cash  
prize.

AN ANTI-TYPHOID VACCINE.  
PARIS, June 20.—Dr. Vincent has  
informed the French Academy that he  
has discovered an anti-typoid vaccine,  
and has given proof of its results.

JUNE WEDDING  
An exceptionally pretty wedding took  
place at the residence of Mr. and Mrs.  
Thomas Barclay, this home on Wed-  
nesday, the 22nd inst. when their  
youngest daughter Miss Nellie G. was  
united in marriage to Mr. Arthur R.  
Duncan of this town. The ceremony  
was performed by Rev. C. A. Hardy,  
R. A. at 2 o'clock, p. m. in the pres-  
ence of a large number of invited guests.  
The bride who was exquisitely gowned  
in cream silk Landon gown style,  
mounted with the most delicate  
arrangement of flowers and veil, was  
with silk insertion and all over lace,  
with slippers and gloves to match, and  
the proverbial veil and orange blos-  
soms, entered the room leaning on the  
arm of her father, by whom she was  
given away, and took her position in  
the north east corner, which was taste-  
fully decorated with flowers and foliage.  
After an interval for congratula-  
tions the guests were conducted to  
the spacious dining room, where a sub-  
stantial supper was served. The  
arrangements and decorations of the  
table also elicited the most favorable  
comment. After the husband's desire to  
eat was appeased, the genial guests  
retired to the drawing room where  
a most enjoyable time was spent, the  
only drawback being that the night of  
June 22nd is the apogee of the year,  
while a long night of each happiness  
is all that is asked for in the world.  
The bride and groom were the most  
contented couple that the guests finally  
bade their adieu and best wishes to  
their home. Mr. and Mrs. Duncan will  
reside for the present at 716 Head  
street, which announcement will be received  
with pleasure by the many friends of  
the bride with whom she was always  
a favorite. The delight of cordly and  
kindly wishes from far and near, testify  
to her general popularity more el-  
quently than any statement of our  
correspondent.

## THE GREATEST OPPORTUNITY

Hale-McLeod Oil Co Stock  
Climbing Rapidly in  
Value.

ANOTHER GUSHER

The Hale-McLeod Oil Co. has  
brought in its gusher. Reports from  
California state that it should make  
one of the best wells in the entire Mid-  
way field. It shows a much larger  
production than the management ex-  
pected.

There is an opportunity to secure  
a small amount of Hale-McLeod  
stock at introductory prices. This is  
the only opportunity ever afforded to  
get in on a great California oil suc-  
cess on a ground-floor basis, after the gush-  
er stage has been reached. This op-  
portunity will probably never occur  
again. The day of risk or chance has  
long gone by. A great success has  
been achieved, yet you now have an  
opportunity for a short time to ac-  
quire its stock at a price that repre-  
sents its value when the company  
was only starting operations. Do you  
appreciate what this opportunity means  
to you?

The company has struck a great  
gusher that the California "papers"  
flowed at a rate variously estimated  
at from 8000 to 10000 barrels per day.  
It shot a solid 8-inch column of oil  
100 feet above the derrick. President  
Hale stated: "We have one of the best  
wells in Midway."

HEAVY DIVIDENDS WILL SOON BE  
PAID  
Before the general sensational develop-  
ments occurred we contracted for a  
limited amount of Hale-McLeod stock  
at 85 cents per share. This price ad-  
vanced to \$1.00 per share on June 20th.  
It should sell for from \$2.00 to \$5.00  
per share.

This company is repeating the suc-  
cess of the other gusher companies  
of the Midway field.  
Stock in this company can still be  
bought at 85¢ per share up to and in-  
cluding Monday, June 27th. Wire the  
Graphic for reservation.

SPECIAL  
Since the above was written the fol-  
lowing telegram has been received:  
New York, June 24th  
Hale-McLeod bought in second gush-  
er Wednesday, showing over ten thou-  
sand barrels per day. Stock advancing  
actively.  
Standard Security Co.

Every suit guaranteed to do its duty  
We would advise an early selection while  
our stock is complete

BRUCE, Your Clothier.

### WANT PERMISSION TO DAM CASCAPEA

Will Erect Large Pulp and  
Paper Mills on Grand  
Cascapedia.

### REQUEST OPPOSED

Montreal, June 23.—Captain John De-  
Boutellier, of the 6th Regiment, has  
disappeared, and it is feared he was  
lost from the steamer Tadoussac while  
en route to the St. Lawrence and Gaspe  
country. DeBoutellier, accompanied  
by some other officers, was on a trip down  
the river given by Hon. Lt. Col. Forger, M.  
P., and at two o'clock yesterday morning  
was sitting on the top deck with  
some other officers chatting until the  
others retired. He complained of the  
heat and decided to remain up. Shortly  
afterwards Captain Forger went  
on the deck, but a little later he was  
not there and was supposed to have  
retired to his stateroom. He was not  
seen in the rough. Individual cow records  
failed to elicit any news of  
whereabouts, so that it is believed he  
fell overboard and was drowned. He  
was a native of Gaspe Basin.

Battery, got clear at high tide on Sat-  
urday morning without discharging  
her deck.

### STEAMER FOR CAMPBELLTON ASHORE ON SABLE ISLAND.

The Norwegian Steamer Heimdal,  
expected in port to load lumber for  
Wm. Richards Co. Ltd. in ballast from  
Santos, ran ashore on Sable Island on  
Sunday afternoon last, during a dense  
fog. The steamer is lying broadside on  
the South side of the island, near  
where the steamer Skidley was wrecked  
and almost about fifty yards from  
the shore. Capt. Gabrielsen and his  
crew remains by their vessel. She  
has yet suffered no serious injury,  
but it is feared that her crew of twen-  
ty-five men will eventually have to  
abandon the ship.
