The schedule may be imperfect, but it is a perfectly honest one."

Ald. Hill: "I do not want to be understood as opposed to work by day labor, but I want it to be advantageous to the city."

The Mayor: "Will Ald. Hill tell us why the city cannot build sewers as cheaply as contractors?"

Ald. Hill: "I will, Mr. Mayor, We have as good workmen here as any in the world. They are as skilful as in any other city. But the trouble is you appoint the wrong men as inspectors. The men do not care to hurry through a job when work is searce and the inspector hardly cares to poke them pp. On the other hand, with the contractor time is an essence of the contract, and it is his business to see that no one idles while working for him. That, Mr. Mayor, is the whole secret."

Mrs. Thomas Barry, who plays the strong role of Parquita, a prima donna, is a lady who has attained the highest round of the ladder in her chosen profession. For many years she held the responsible position of leading lady at the Eugene Thompkins' Boston Theatre. She is a lady of refinement, culture and the highest talents. Her role as a rich prima donna calls for the display of some rich and expensive costumes, which she purchased in Paris during her vacation last summer. A young lady who visited Toronto before, and who owns many friends here, is Miss Beatrice Lieb; she also plays another important part in "Cuchillo," that of Alice the wife, in which she has some particularly touching and pathetic scenes. The remainder of the company are all said to be equally competent.
