Schwartz & McCormick, Chicago: Wheat market to-day has been market to-day has been market to-day has been market correspondingly weak. The early cables from the United Kingdom were weak, and some of them reported a market improvement in Russian crop conditions. There were several telegrams here from Kansas, in which it was predicted that harvest would be in full blast by the 15th or 20th inst. On this news July sold down to 50.5 The turn of the market came when French cables were reported as showing an advance of 30 to 50 centimes on wheat and flour, Liverpool showing an advance of \$10.5 to 50.00 bushels for direct export from Chicago. There was active covering of shorts with large for 50,000 bushels; of the day. Drummond & Brown received the following today over their private wire from Lamontagne.
Clarke & Co. of New York: The market opened
with selling orders by London and traders of
stock especially in R. I., and declined about 4
per cent from opening on news that next divident ould be reduced. Market was hurt pretty
badly by drop in R. I. and expectancy of further
shipments in gold over half million taken. this
morning and destroying bullish feeling caused
traders to turn bearish. B. Q. declined 134 per
cent. by selling orders and in sympathy with
R. I. Balance of list steady at opening prices.
London mederate, buyers of its own specialties
taking some St. P., L. N., U.P. Buying here was
mostly to cover. Chicago Gas is again a distinctly strong feature in market owing to belief
that negotiations have been concluded with city
of Chicago looking to withdrawal of all suits.
Market stronger in afternoon owing to covering
of shorts. Reductions in R. I. dividends have hurt
confidence considerably and it will take some
time to restore bullish feeling, and we are in-

confidence considerably and it will take some time to restore bullish feeling, and we are inclined to think the market is a sale on all rallies it.

R. Cochran received the following from Henry Allen & Co. of New York: The stock market opened almost in a panic this morning. The whole stock exchange crowd was centered in Rock Island. Two or three quotations were made at once, none better than a côtple of points or so below the closing price of yesterday. Long also tock came out by the ream. The action of R. I. directors in ostentatiously bulling the stock and taking about its going to par while they were practically in session voting to cut the dividend half in two has awakened wide distrust of almost every western rallway property dealt in on the stock exchange. Rock Island has gone down half a dozen points from yesterday's price, and there are indications that the liquidation has only begun, for a good big short interest was created in the stock in this morning's excited trading, nearly all of which was covered before the market closed this afternoon, so that after the day is done there is practically no short interest remaining in the stock. Strong pools in Sr. Paul, to C.B.Q. and other grangers have fought desperately to hold their favorites firm, and to some extent they have succeeded. Manipulation has helped these pools which, while sacrificing tremendous commissions in order to keep their quotations apparently strong, have undoubtedly been disposing of as much stock as the market would take without a break. There are hints of litigation in Louisville & Nashville. The new stock is likely to be tied up by an injunction, and in view of that fact that company is confessedly hard pressed for funds and has found that it cannot market bonds. Liquidation in that quarter is not at all improbable. Nearly all the hopeful traders who have been counting on something finally coming to lift up the market apparently is in the last lew induces of business this into abom are now disheartened. The market apparently is the l
