portunity of applauding Pinero's greatest play, "The Second Mrs. Tanqueray," and last night a work was presented written by the same author five years written by the same author five years before, and which gave him the warrant to place before the public his later and greater study in social leprosy. "The Profligate," as presented by Marie Burroughs at the Grand, was not only contusiastically applauded, but proved as well a strong and original drama. It tells the story of a ma who has sown, his wild bets with a too liberal hand, and who by wmeans of a caressing manner and a genial presence has married a pure and loving school girl, whom he took a fancy to. [Unluckily for his peace of mind, he really falls in love with her after he married her, and it awakens a conscience in him, that is all the more irksome, since it has been buried so long. Worse still, his wife, unknowingly takes a girl whom he had wronged in their home. The wife is all zeal to humask the betrayer of the girl, and in one of the most dramatic scemes in the modern drama, she discovers that the villain she has denounced is her own hisband—the man whom she had worshipped as a saint. She send's him away from her and the profligate after a week of hopeless wandering has hjust touched his lips to a glass of poison when the wife discovers him and throws herself into his arms.

The unfolding of the play is forceful before, and which gave him the war-

his lips to a glass of poison when the wife discovers him and throws herself into his arms.

The unfolding of the play is forceful and dramatic, but not altogether convincing. Pinero does not exactly get down to the hard pan of human nature in this play, and walks on air more than is his wont. There is a little too much coincidence, but the fault—if it is a fault—is chiefly in the dialog, which is full of beautiful speeches, but is too potenical. At times it is as the dramatist and not the characters speaking. It is erroneous to say that he is proclaiming the equality of the sexes, the real moral of drama is: Be honorable evan if you do sow wild oats. The catastrophe is brought about, not by his hero's exercises, but by his lack of henor and truthfulness.

Nevertheless, the drama is a welcome one. It is interesting, its characters are splendidly drawn, and, best of all, Pinero has braved censure, and makes people think. This, notwithstanding the lifelling protests of Clement, Scott, Willliam Winter and other influential critics against any demand on an audiences intelligence.
