No pavement should be put down on any of our streets in the future without considering its adaptability for bicycles as well as for street cars and vehicles from San Don Catto & Son opens to-day at their famous emporium, 59-61 King-street teast. A World reporter paid a visit to their establishment Saturday, and found the decks cleared for action. The windows were handsomely dressed with magnificent displays of silks, summer dress goods and household napery. The display of tartans, which has always been a feature in King-street, was tastefully set forth. Inside the wide aisles were dressed with exquisite goods of all materials, all marked down in anticipation of the rush. The object of the sale is there was no positive evidence of its coming ascendancy. Had we known then as much as we do now about the bicycle, we would no doubt have done the paving somewhat differently. The pavement in Kingestreat between the treek allow. King-street, between the track allow-ance, for instance, from Bathurst-street ance, for instance, from Bathurst-street westward, would not have been constructed of rough stone, if the requirements bodies of 33 negroes have been found on spect, at \$60. the devil strip. Along this part of Kingbecame lost in the desert and are supposed to have perished for lack of food either side of the tracks full of depressions, while the stone between the tracks has a rough surface that makes it equally objectionable for wheeling. If the devil strip had been paved with asphalt of brick, wheelmen would have greatly preferred it to the present rough surface. The devil strip is only three feet wide, and is not used by vehicles. In no case would the ordinary street traffic be adversely affected if the devil strip were paved with asphalt or brick. The cost of \$20,000 a Month.

Denver, June 15.—The Golden 'Fleece Mining Co. makes the announcement that it has been robbed of hundreds of thousands of dollars at its mines near Georgetown. The thieves have systematically pilfered rich sortings from the washings for months past to the amount of about \$20,000 per month. The mines will be closed. The management announce that they will spend \$50,000 to convict the guilty ones, and they charge that well-known people are implicated.

Mind is not used by vencies. In no case would the ordinary street traffic be adversely affected if the devil strip were paved with asphalt or brick. The cost of paving the strip with these materials would not be much more than when cedar blocks are used. As the strip is only three feet wide, the question of cost three feet wide, the question of cost at Yonge-street wharf yesterday, gaily bedecked with flags and streamers, and was much admired by all.

Ross, seaman of the U.S. navy, who was a passenger on the wrecked vessel, testified that the cargo shifted during the gale. He considered the small boats in a very usafe condition for going to sea. He did not think the ship was properly handled. He considered the captain incompetent and that no proper efforts to save the ship were made. Louis Zanger, another passenger, corroborated Ross' statement.
