Ford**Plain Facts about Milk Routes**

A team of horses costs about \$400, double harness \$100, a wagon \$75, making a total of \$575. A Ford Truck costs \$750 at Ford, Ont.

Government experiments have proved that the cost of feeding a horse is 8.7 cents per working hour, or 17.4 cents per team per hour. One team, if collecting milk, could not cover more than 30 miles a day. The cost for twelve hours would be \$2.09, or about seven cents a mile. The cost for gas and oil for a Ford Truck is only 4½ cents a mile. The Ford Truck soon pays for itself in the reduced cost of operation.

A Ford Truck will cover at least 60 miles a day collecting milk or 250 miles on long hauls. It enables you to operate at a lower cost per mile and to cover twice as much territory as with horses.

Ford One-Ton Truck (Chassis only) \$750 f. o. b. Ford, Ont.

Motor car production in the United States is now said to be at a rate of 2,973,000 cars a year. The number of cars registered is 7,523,000. How long will a production of forty per cent. of the total present market go on without over-production? As there is an automobile for about every three families now, can the other two obtain cars without a big reduction in price?

DESCRIPTION

JOHN WHITLEY, half-brother to Addition, 2:07¼, bred at Piedmont Farm, Huntsville, Alabama, foaled 1914, is a handsome trotting stallion, a rich golden chestnut color, stands 15.3 hands high and weighs 1100 lbs., has lots of bone and substance, with the best of legs and feet, good strong back and fine head and neck. It can be seen by his pedigree that his breeding is hard to beat. Parties having mares to breed should see this fine young stallion before going elsewhere.

TERMS—To insure, \$15 00, payable February 1st, 1921. All accidents to mares at risk of owners, but special care taken to avoid accidents. Mares must be returned regularly to the horse, or the owners will be charged full insurance. Persons disposing of their mares before foaling time will be charged full insurance. Any mare tried to the horse will be considered insured and the owner held liable to return her regularly throughout the season.

SEASON OF 1920

The Highly-Bred Stallion

Peter V. Dillon

(63080—1895)

2-year-old record 2:28½

3-year-old trial 2:19

Foaled in 1912, bred by Vimont Bros., Millersburg, Ky.

Sired by Peter the Great, by Pilot Medium, Dam, Little Wonder, by Baron Dillon.

ENROLMENT No. 4324. Form II.

Will stand at his own stable, lot 21, con. 10, Plympton, one mile east of Aberarder, except Saturday afternoon when he will be at C. Anderson's Sales Stables, Forest.

TERMS—\$15.00 payable February 1st, 1921. Accident to mares at owner's risk, but the best of care will be taken of mares sent to us.

Peter the Great's fame as a sire is of such an international character that nothing need be said of it. His sale for \$50,000 at the age of 21 years forms the strongest possible argument that could be made. Peter the Great's services are in such demand that his books were full and overflowing three months ago for 1920 at \$1,000 service fee. Every man wants the blood of Peter the Great and it is impossible to secure it from the fountain head, breeders must look to one of his sons to procure it. There are no foals of Peter the Great in existence that are not up to the highest standing as regards maternal ancestry. This means everything in the race for success by his sons as sires for today only horses of the strongest breeding can win. Peter the Great has nearly four hundred performers with records from 2:02 to 2:30, of which seventy-five per cent. are trotters. The Greatest Sire of all time.
