

May be the dough had forgotten to rise.  
Or had risen quickly overnight and fallen again—  
To rise nevermore.  
Twas weak flour, of course.  
Meaning weak in gluten.  
But FIVE ROSES is strong, unusually strong.  
With that glutinous strength which compels it to rise to your surprised delight.  
Stays risen too.  
Being coherent, elastic.  
And the dough feels springy under your hand.  
Squeaks and cracks as you work it.  
Feel the feel of a FIVE ROSES dough.  
Note the wonderful smooth texture—soft, satiny.  
Great is the bread born of such dough—  
Your dough! O  
Try this good flour.

In these passaky times most any old thing in say old place causes more or less alarm. On investigating it was found same issued from the vicinity of the old Post Office building not in use, and was later traced and located in the Division Hall upstairs where the proposed "Orchestra" were having their first practice. ## Italy Again Visited by a Terrible Earthquake.

ROME, Jan. 15.—From 25,000 to 50,000 still remains the unofficial estimate of the casualties resulting from the earthquake which rocked Southern and Central Italy early Wednesday morning.  
As yet it has been impossible to determine from the brief description of the catastrophe that have reached Rome over the hampered lines of communications, the amount of the damage done by the disturbance, but such details as have come through leave no doubt that nearly 100 towns and villages have been utterly demolished or badly wrecked, and that a great loss of life resulted.

### THOUSANDS IN RUINS

Thousands of persons have now lain for nearly three days beneath crumbled buildings throughout the earthquake zone—some of them dead and others alive—while others have been removed from the twisted wreckage and brought to Rome hospitals for treatment of injuries, or are being cared for in temporary structures in their home towns, which are presided over by physicians and nurses rushed thither from the capital and other cities in the Kingdom.

It is believed that many of those who were caught in the wreckage and were uninjured perished later from cold or lack of food, or else were burned to death in fires which broke out in various places amid the ruins. This is especially true of Avezzano and Magliano-Di-Marsi, where fires started, and there seemed little chance of quenching them owing to lack of water.

### TEN THOUSAND PERISHED.

Avezzano, from all accounts, still holds the position of chief sufferer through the disaster. Ten thousand persons in that district are said to have perished, and the entire town has been levelled. Sora and Pescini has 4,000 dead, while the fatalities at Giosimarai reached 3,500 and at San Bendette 3,000. Numerous other towns report fatalities running upwards from ten to over two thousand.

In the stricken districts the people are camping in the open. Troops are guarding the demolished, or partly demolished towns to prevent looting.  
Caste everywhere has been laid aside, and members of the nobility, Senators, Deputies and high officials are working shoulder to shoulder with the laborers in their efforts to rescue the living or unearth the bodies of the dead.

A phase of the political situation in the Kingdom brought out by the earthquake is that the call for conscripts in the damaged zone has been rescinded by the military authorities.

### MARCONI WAS IN AVEZZANO.

ROME, Jan. 15.—William Marconi, who returned here today from Avezzano on board the train with King Victor Emmanuel, declared that words were insufficient to describe the horrors he had witnessed. The town had been absolutely levelled, he said, and those of its populace who had escaped death in the disaster were now destitute.  
"King Victor Emmanuel told me," said Mr. Marconi, "that he had visi-

## HYMENEAL

McINNIS-POTTER  
Married on the 11th inst., at the Rectory of Annapolis Royal, by the Rev. Mr. Howe, Mr. Cecil A. McInnis of New Glasgow to Blanche, second daughter of Mr. and Mrs. Bartheaux Potter of Clementsport.  
The following evening Mr. and Mrs. McInnis gave an 'At Home' at the residence of Mrs. Major Duke-shire, where they have taken apartments for the winter. It was a very pleasant function, indeed, just the immediate family of the bride and intimate friends being present. Mr. and Mrs. Duke-shire threw open their house and did all they could to make every one have a good time. The bride received her guests in her own pretty parlor. She looked charming in her bridal white tulle and bodice trimmed in fluffy swans-down. Mr. McInnis is to be congratulated on having won so fair and estimable a young lady for his wife of us he has gained the good opinion of those who know him well. We trust that his stay among us for the winter will be mutually pleasant and that many years of happiness are in store for the young couple just starting out on their life's journey together. Looking at the many nice presents, conversation, music and a bountiful, daintily served supper filled up the hours of a very pleasant evening.

The house on the hill, built when Mr. built largely and well, looked so pleasant with its many windows all a light. It was so pleasant and cheery inside, and Mr. and Mrs. Duke-shire such admirable hosts that we wish they would light up, warm up and bid us all come again.
