

ELLIS CHAMPION THRESHER

Will thresh and clean perfectly, wasting no grain, from 200 to 350 bush. per day, with ordinary horses and grain in fair condition. It requires very little elevation of the horse-power, and is very easy on horses; being only one belt throughout the whole mill, and three arbours, there is little or no friction. The wind for cleaning grain is made by cross fans on arbour of cylinder and conducted in pipes underneath the sieves, which have an end shake. Nothing of this kind of threshers can equal it, the power being very useful, cutting straw, hay, turnips, or sawing wood. Guaranteed in every way first-class.

R. J. LATIMER, 92 McGill St., Montreal, Que.
