TORONTO

**Stock Notes**

**MR. ALFRED MANSELL,** secretary of the English Shropshire Sheep Association, is on a four weeks' visit to Canada and the United States, and will be the guest of Mortimer Levering, secretary of the American Shropshire Association, most of the time. He desires to make the personal acquaintance of as many farmers and breeders as possible. His chief object in visiting this country is to make himself better acquainted with the wants and requirements of the farmer of the country in British pedigree live stock. He intends visiting Toronto during his trip.

**MESSRS. STRATFORD BROS.,** of Brantford, Ont., have a lot of beautiful Dorset lambs, Tamworth pigs, Shetland ponies and young Jerseys, which they are offering in this issue at special prices. They report that orders are plentiful for eggs and that it takes practical handling to induce the hens to lay in order to keep up with the demand upon them, which is largely increased by the present use of incubators.

**SHIPMENT OF HEREFORDS.**—The popularity of the Herefords in the Western States appears to be increasing and their adaptability to the uses and purposes of the large ranching companies assured. Two weeks ago the estate of the late Mr. F. W. Stone, of Guelph, shipped two car loads, comprising fifty head of purebred young bulls, to the Reynolds Land and Cattle Co., for their ranch in the Pan Handle district in Texas. This ranch consists of over two hundred thousand acres, and is stocked with some twelve thousand head of cattle, more than ninety-five per cent. of them being Herefords. The company have purchased all their bulls for the past fifteen or twenty years from the late Mr. F. W. Stone, the Stone estate, and Mr. Alfred Stone, of Guelph. This year they are importing the same herd largely from Great Britain, and it was expected that a consignment of 25 young bulls from England would join the shipment from Guelph at Chicago. The company have also another large importation of Hereford bulls in the U. S. quarantine.
