

# SIMMERS' BULBS For IMMEDIATE PLANTING

WE WANT every reader of THE CANADIAN HORTICULTURIST to have a copy of our AUTUMN CATALOGUE, in which is offered the most complete and comprehensive list of bulbs to be found in Canada. It's free for the asking. To keep up-to-date floriculturally your name should be on our mailing list, and our various Catalogues will be sent as issued.

**BULBS.**—Thousands of people overlook the planting of Spring Flowering Bulbs in the Fall, and have many regrets when they see them blooming in the gardens of their neighbors in the spring. Send for our Catalogue now, make your selection and plant your Bulbs out before hard frost comes, or selection of sorts may be left to us.

**HARDY PENENNIAL PLANTS.**—No better time to set these out than now. They quickly take hold and invariably make finer and stronger plants than when planting is done in the Spring.

CLASS IN COLLEGE ORCHARD

WHAT pursuit or profession offers greater returns for intelligently directed effort than **HORTICULTURE** in its various branches. The course at the O. A. College seeks to lay a foundation in **HORTICULTURAL THEORY AND PRACTICE**, and includes instruction in Fruit Growing, Market Gardening, Nursery Work, Floriculture and Landscape Gardening. Particular attention is paid to the practical side of horticulture, and sufficient science is studied to give the student a thorough understanding of the principles underlying the various practical operations performed. The most modern methods and theories are studied with regard to plant propagation, transplanting, cultivating, fertilizing, pruning, spraying, harvesting, packing, shipping, etc.

Send at once for our 1911-1912 Calendar, which gives a detailed outline of the courses offered at this College. It will be mailed free on application to

G. C. CREELMAN, B.S.A., LL.D.,  
President.
