

ALSIKE CLOVER.

This clover has now been cultivated in several Counties in Upper Canada for ten years or more, and has established its reputation as the HARDEST and MOST PRODUCTIVE variety yet introduced.

Although growing to a height of from 3 to 4 feet, it is not rank and coarse like the large red clover; the stem is fine, jointed and branching, and makes a hay of the best quality. The aftergrowth affords a pasture that cannot be surpassed. Where a part of a field has been sown with it, Cattle, Sheep and Horses manifest their preference by neglecting the rest of the field till it is packed bare.

Its potential, and yields large crops for several years in succession.

Its root is fibrous, and hence is not liable to die out like the red clover. It thrives well on clay lands.

Many farmers who commenced by sowing one or two pounds have been so encouraged by its success, as to put in last year from five to thirty acres. In Scotland no lands are now sown down to pasture without a mixture of Alsike.

The seed at 30 cents per pound would be cheaper than red clover at 12 1/2 cents (the present price), the number of seeds in the same weight being as 2 1/2 to 1. One ounce contains 45,000 seeds.

PARIS PATENT GRAIN DRILL

WE beg to call the attention of Farmers to our PATENT DRILL, which has now stood the test for eight years; it has taken six First Prizes and Diplomas at the Provincial Fairs, having taken the first at Toronto last Fall, also at London in 1865. The great advantage it has over all others is its simplicity and durability, there being no complicated gearing to get out of order nor any brushes to wear out. Intending purchasers will please send in their orders early and don't wait on agents, as we have only a very limited number employed. For further information address the undersigned, who are Sole Manufacturers and Patentees.

Markets.

Toronto Markets.

"CANADA FARMER" Office, March 25, 1867

Our market for the past week has ruled quiet and steady, with a moderate business done at full prices. At the close the market is steady, but hardly so active as early in the week; but sellers will not submit to any concessions.

Flour.—The large purchases of last week have left our market comparatively bare. Superfine sold at \$7 45 to \$7 60 on the spot, and \$7 35 to \$7 45 at out stations, and 1,000 barrels at \$7 60 here. Closes quiet; fair brands can be bought at \$7 40. The higher grades are neglected. Fancy is nominal at \$9, extra \$9 50 to \$9, and superior \$9 50 to \$9 75.

Wheat.—Spring wheat was sold at \$1 55 for inferior to \$1 65 for ordinary. For car lots good samples \$1 70, and sales of 15,000 bushels—choice spring, at \$1 75; 1 u b, golden drop sold at \$1 50, but—now asking \$1 65. Fall wheat has been in better request, and prices have advanced fully 5 to 10c per bushel over last quotations, sales of good fair samples at \$1 92 to \$1 95, round lots now firmly held at \$2.

Peas have ruled firm at an advance of 2c. Receipts moderate, 63c to 69c; latterly 70c has been paid on the street. A sale of 10,000 bushels at 7c in ships' bags on cars is reported; 72c is offered for cargoes f. o. b.

Barley continues in active demand for good parcels, and 53c to 60c is freely paid for lots by teams and cars. Some large purchases of malt have been made, understood to be for western account, to which the advance in barley may be attributed.

Oats are very scarce and much wanted. 36c, 37c, and even 38c, has been paid for good parcels. A sale of a car-load at 37c mentioned. Round lots offering at 40c f. o. b.

Seeds are rather lower, in consequence of increased supplies. A large quantity of clover has been sold at from \$7 25 to \$7 60, and can now be had at the former figure. Timothy in large supply and slow of sale at \$1 75 to \$2 25, according to quality, some holders asking \$2 60.

Provisions.—Butter—prices ranging from 9c to 11c, according to quality. Market closes firm, with little offering. Cheese in very light stock. Firm with not much doing, at 13 1/2c to 14c per lb. for good. Pork—Market has been firm. Me a field in few hands at from \$19 to \$19 60, prime m. s., \$19, no prime in market. Hams—Smoked, 11c, in salt, 8 1/2c; bacon, Cumberland cut, in salt, 7 1/2c; Canadian cut, 7c; roll of bacon, smoked, 11c, with very little in market. Shoulders, in salt, 6 1/2c to 7c. Lard—Country, 7 1/2c to 8c, city, 8 1/2c to 9c. Eggs—11c to 12c, round lots worth 10c. Dried Apples—Selling at from 10 1/2c to 11c.

Hay and Straw.—Hay from \$12 to \$11, straw from \$6 to \$7.

Hamilton Markets.—The grain market to day was rather poorly supplied. Quotations remain as in our last. Wheat red, \$1 60 to \$1 61, spring, \$1 50 to \$1 55. Barley—50c to 53c. Oats—32c to 33c. Peas—65c to 68c. Buckwheat—32c to 35c. Corn—65c to 70c. Clover Seed—\$7 50. Timothy—\$2 to \$2 50. Flax Seed—\$1 50 per bush. Eggs—9c to 12 1/2c per doz. Butter—Transactions light, large stock on the hands of buyers hard to dispose of, tub, 9c to 11c per lb; rolls, 10c to 12c per lb; fancy rolls from farmers' waggons, 18c per lb. Flour—from white wheat, \$8 50 to \$9, do red winter, \$7 60 to \$8, do spring, \$7 to \$7 50, middling uplands, \$6 50 to \$7. Oatmeal—\$4 75 to \$5 25. Corn meal—\$1 75 to \$2. Bran—50c to 62 1/2c. Shorts—60c to 70c. Lard selling at 11c to 12c per lb. Chop feed, \$1 25 per 100 lbs.

London Markets, March 26.—Fall Wheat, \$1 50 to \$1 80; Spring Wheat, \$1 70 to \$1 72. Barley, 40c to 45c. Peas, 62c to 68c. Oats, 35c to 37c. Corn 60c to 70c. Flax, 65c to 70c. Seed—Clover, \$7 per 60 lbs, Timothy, \$3 per 60 lbs. Butter—Prime dairy packed, 13c, No 2, 9c to 10c per lb, fresh, in rolls, by the basket, 15c to 16c per lb. Eggs, 12 1/2c per dozen. Potatoes, 50c per bushel.

Galt Markets.—Flour—F. W., \$4 50 per 100 lbs, Sp. W., do, \$3 75. Wheat—Fall, \$1 75 to \$1 85 per bush; amber, \$1 55 to \$1 65; spring, \$1 45 to 1 50. Barley, 40c to 45c per bush. Oats, 32c to 34c per bush. Butter, 12c to 14 1/2c. Eggs, 10c to 12c per doz.

Guelph Markets.—Fall Wheat per bushel, \$1 65 to \$1 85; spring wheat do \$1 35 to \$1 65. Oats do 34 to 36. Peas do 55c to 60c. Barley do 45c to 50c. Hides, per 100 lbs, \$6 to \$6 50. Pork per 100 lbs, \$5 50 to \$6 50. Wool per lb 34c. Eggs, per doz, 10c to 11c. Butter per lb, 11c to 12c.
