

## LOVELL'S SERIES OF SCHOOL BOOKS.

HAVING long felt the necessity existing for a SERIES OF EDUCATIONAL WORKS, prepared and expressly adapted for our COLONIAL SCHOOLS, the Publisher was induced to attempt the supply of this want. His efforts thus far have been crowned with success; his books having been most generally welcomed in the Schools; and most favorably noticed by the Press of British North America.

LOVELL'S GENERAL GEOGRAPHY has met with entire success, having been already introduced into almost every School throughout British North America. The General Geography, however, being considered too far advanced for *young beginners*, a new and elementary work has been prepared, entitled, EASY LESSONS IN GENERAL GEOGRAPHY. This book is intended as introductory to the General Geography; and a reference to the published prospectus of "Opinions" will show how fully it meets the object aimed at.

He takes great pleasure in calling attention to the following list of the SCHOOL BOOKS already issued by him; and to which he will add, from time to time, such new works as may be of use to the youth of the Provinces.
