INDIAN AGENT'S VISIT.

C. Told Esq. made an official visit to itamaat on his Steamer Vigilant, early June. He held a council with the lop't, suggested improvements that could made upon the reserve, and urged on o natives the necessity of vaccination. ing c spent a day in connection with school atters, and informed us that the day hool would henceforth receive governme cut grant, if the conditions are complied ith. He visited the Homo and expressed s pleasure at the work done by Miss ong, and also stated he entirely approved homes for Indian girls, believing them b be a powerful lever for elevating the tople, he a so intimated that when the vernment would be in a position to sist, our Home would obtain help.

LOCAL AND PERSONAL NOTES.

We have plenty of daylight now. It lasts im 2 A. M. to 10 P. M. but in December we are to be ratiofied with litten 1 in 11 1 1 1 12.

St. Muriel of Lowe's Intet Cannery was here to 13th June on connery business. Mr Curtis te manager, kindly brought our mail

Oxing to an unusually backward season, cointion is slow. The weather has been owery with strong south winds, even at the each time the house is chilly without fire.

The run of "small fish" commenced 17th, bright was unus also short owing to the state the river. However we are thankful our omised co lection for the Home was not short, e am that amount of six large barrels being yen.

The town is in a measure descrited, every able died man having left. Three men and their nites have gone logging, the other people are the fannery. A number of old scople are at me, a few invalids, and two or three women thyoung children.

(a) tain Whiteley and Rev. W. H. Pierce ent some time ashore while the "Bescowitz" a unleading freigh. They visited points of lerest at the mission, and sympathized with it the large amount of work to be done here. Rev. J. C. Spencer M. D. a companied by his fe and daughter are at River's Inlet. Drencer has charge of the fespital at Wannucking the cauning so is m; he is assisted by the estawtence of Port Simpson. Dr. Spencer appointed to the Bella G ola misson.

Miss Long, Matron of the Home, left on 2.th, ne by the Str. "Edith" to enjoy a well earned liday. She expects to visit Victoria, Vancour, and Port Sinnson b fore her return. This the first time Miss Long mas left the mission are coming to the Coust, hi herto she has nt her annual holidays at Kitamaat.

We welcome to the Cosst Mrs (Dr.) Large whom we were pleased to meet in Victoria Dr. and Mrs. Large will spend the summer at Stoveston on the Fra--r liver, where large numbers of Indians, Japanese, and Chinamer gather for the Schmon fishing.

We are glad to hear Mrs. Pierce wife of our devoted missionary Rev. o. it Pierce of the Upper Skeena, who went East a year ago, is much improved in health, we are pleased also to hear Mr Pierce is going East for a holiday, the first in 15 years. We know tro. Pierce will be much in demand, he is a very entertaining speaker.

sir. "Cutch" called here on the 18th, June on her way from Skagaay with two prospectors Mesors timin and Davis who have claims in the Buckle Valley. They had been informed of a good trail in from here, however decided there was too nuch snow in the mountains; so left in a few days to take the Skeena Route to their claims, intending to return this way in the Fail.

Mr. and Mrs. Kirkland and Miss Olga spent a coup of days at the Mission, they came on the Str. Edith from Rivers Inlet. Arriving early on Sunday, they attended the church services a divere particularly pleased both with the SundayBotho II, (the attendance at which was over 2.7) and the singing at evening sersice. As Missionaries in an isomed indian village we have onloyed the passing yishs of these white people, who are as yet almost a novelty here; especially do the ladies appreciate a visitor like Mrs. Kirkland, and we hope that another year we may again have the pleasure of seeing her.

Joseph Williams (Gaehlastougn) while a tramp this spring caught cold in a cut finger; a triend of his had a bittle containing carbolic acid, which she suggested would be good to use. Instead of diluting the acid he poured a quantity on the tinger with the result that it became like a charred stick. He came to Kitamaat to see the Mis-ionary about it, and was advised to lote no time in going to Dr. Bolton. Joseph heroically wished to sever the oftending member himself with a sharp axe, but was persuaded to go to P it Simpson where the D ctor performed the operation with finer instruments and less serious consequence, Joseph returned in May with his hand well healed.

A CURIOUS FRIENDSHIP.

An amusing sight is t, be seen at Metlahkahtla; which is, one of the canine race followed by a feathered creature, the mastiff may go where she will, but close at her heels there will always be observed a wild goose.

VACCINATEIII

By small pox, in the United States this year; says the New York Medical Record, tribes o ind aus in Indian Territory and Arizona have been wiped out. It would be well for all the Kitamasts to be vaccinated at once.

John Amos our oldest boy has done the work of a monitor amongst the boys; in the Home his influence has been excellent.
